THE AMERICAN PAGEANT enjoys a reputation as one of the most popular, effective, and entertaining texts on American history. The colorful anecdotes, first-person quotations, and trademark wit bring American history to life. The 16th edition includes a major revision of Part Six (the period from 1945 to the present), reflecting recent scholarship and providing greater thematic coherence. The authors also condensed and consolidated material on the Wilson presidency and World War I (formerly Chapters 29 and 30) into a new single chapter. A new feature, "Contending Voices," offers paired quotes from original historical sources, accompanied by questions that prompt students to think about conflicting perspectives on controversial subjects. Additional pedagogical aids make THE AMERICAN PAGEANT accessible to students: part openers and chapter-ending chronologies provide a context for the major periods in American history, while other features present additional primary sources, scholarly debates, and key historical figures for analysis. Available in the following options: THE AMERICAN PAGEANT, Sixteenth Edition (Chapters 1-41); Volume 1: To 1877 (Chapters 1-22); Volume 2: Since 1865 (Chapters 22-41). High-headed evidence on why the returns from investing in girls are so high that no nation or family can afford not to educate their girls. Gene Sperling, author of the seminal 2004 report published by the Council on Foreign Relations, and Rebecca Winthrop, director of the Center for Universal Education, have written this definitive book on the importance of girls' education. As Malala Yousofzai expresses in her foreword, the idea that any child could be denied an education due to poverty, custom, the law, or terrorist threats is just wrong and unimaginable. More than 1,000 studies have provided evidence that high-quality girls' education around the world leads to wide-ranging returns: Better outcomes in economic areas of growth and incomes Reduced rates of infant and maternal mortality Reduced rates of child marriage Reduced rates of the incidence of HIV/AIDS and malaria Increased agricultural productivity Increased resilience to natural disasters Women's empowerment What Works in Girls' Education is a compelling work for both concerned global citizens, and any academic, expert, nongovernmental organization (NGO) staff member, policymaker, or journalist seeking to dive into the evidence and policies on girls' education.

The Impending Crisis of the South

The author uses marriage to examine the social history of New Mexico between 1500 and 1846

This book condemns slavery, by appealed to whites' rational self-interest, rather than any altruism towards blacks. Helper claimed that slavery hurt the Southern economy by preventing economic development and industrialization, and that it was the main reason why the South had progressed so much less than the North since the late 18th century.

This book is composed of stories about prejudice and protest in Wyoming between the1940s and the 70s, with a focus on the Black 14 incident at the University of Wyoming in 1969 in which all 14 African American players on the varsity roster were dismissed by the coach. The people and events leading up to the dismissals of these 14 varsity players on the University of Wyoming's undefeated and 12th ranked football team are examined in detail. The reaction in the state and the rapid decline in the football program, leading to the exit of the head coach, are described. The state will be reviewing the event during its 50th anniversary in 2019. Other issues examined include: -- The 1943 mass draft resistance trial of 63 young American citizens of Japanese descent from the Heart Mountain Internment Camp near Cody, Wyoming -- The removal from a "baby contest" of an African American toddler, son of a serviceman stationed in Casper during WWII -- The 1958 protest against the world's first ICBM missile site near Cheyenne in which Kenneth Calkins, a young graduate student from the Univ. of Chicago, suffered a fractured pelvis when hit by a gravel truck while doing civil disobedience. After earning a Ph.D. and becoming a history professor at Kent State, Calkins urged the removal of National Guard troops from the campus in the days leading to the killing of four students and then witnessed the event as a faculty marshal. -- The refusal of barbers in a small community college town in Wyoming to give haircuts to the black basketball players until after hours with the drapes closed. -- Protests of the Vietnam War and draft resistance in Wyoming, along with stories of Wyoming soldiers who fought in Vietnam, including one who is still missing and another who was a prisoner of war for nearly five years and whose MIA bracelet was worn by the winning contestant at a Miss America pageant. -- The story of a draft resister convicted in a Wyoming trial whose stand and story influenced Daniel Ellsberg to release the Pentagon Papers. -- The expulsion of African American students at a Cheyenne High School in 1972 after they refused to stand for the flag in protest to the Vietnam War and racial discrimination, leading to the dismissal of some students and an innovative teacher who supported them. -- Numerous examples of the "generation gap" and the war on counter-culture youth, such as a Wyoming sheriff jailing and shaving long-haired hitchhikers' heads. -- The story of two UW women students who participated in the 1964 "Freedom Summer" in Mississippi. -- Controversies over inter-racial dating, dress codes and curfews for coeds at the University of Wyoming in the 60s -- Repeal of Wyoming's anti-miscegenation law in 1965 and the defeat of an initiative which would have lowered the voting age in 1969-70.

2021 Reprint of the 1925 Edition. The Man Nobody Knows is the second book by the American author and advertising executive Bruce Fairchild Barton. In it, Barton presents Jesus as "The Founder of Modern Business," in an effort to make the Christian story accessible to businessmen of the time. When published in 1925, the book topped the nonfiction bestseller list, and was one of the best-selling non-fiction books of the 20th century. Since its publication, The Man Nobody Knows has divided readers. Some welcome the portrayal of Jesus as a strong character, whom no one dared oppose, and praise the use of familiar stereotypes to stimulate interest in religion, whilst others ridicule the suggestion that Jesus was a salesman. Critics have suggested that The Man Nobody Knows is a prime example of the materialism and "glorified Rotarianism" of the Protestant churches in the 1920s.

This hugely influential work marked a turning point in US history and culture, arguing that the nation's expansion into the Great West was directly linked to its unique spirit: a rugged individualism forged at the juncture between civilization and wilderness, which - for better or worse - lies at the heart of American identity today. Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.
