This book reevaluates the health risks of ionizing radiation in light of data that have become available since the 1980 report on this subject was published. The data include new, much

Get Free American Red Cross Emr Study Guide

more reliable dose estimates for the A-bomb survivors, the results of an additional 14 years of follow-up of the survivors for cancer mortality, recent results of follow-up studies of persons irradiated for medical

Get Free American Red Cross Emr Study Guide

purposes, and results of relevant experiments with laboratory animals and cultured cells. It analyzes the data in terms of risk estimates for specific organs in relation to dose and time after exposure, and

Get Free American Red Cross Emr Study Guide

compares radiation effects
between Japanese and Western
populations.

Intensely practical and down
to earth, this timely new
text covers the breadth of
health emergency
preparedness, resilience and

Get Free American Red Cross Emr Study Guide

response topics in the context of inter-disciplinary and whole society responses to a range of threats. It includes public, private and third sector roles in preparation for and in response to

Get Free American Red Cross Emr Study Guide

natural and man-made events, such as: major incident planning; infectious disease epidemics and pandemics; natural disasters; terrorist threats; and business and service continuity management. The book builds

Get Free American Red Cross Emr Study Guide

upon the basics of risk assessment and writing an emergency plan, and then covers inter-agency working, command and control, communication, personal impact and business continuity as well as

Get Free American Red Cross Emr Study Guide

training, exercises and post-incident follow up.

Detailing the full emergency preparedness and civil protection planning cycle, the book is illustrated throughout with real-life examples and case studies

Cardiac arrest can strike a

of any age, race, ethnicity, or gender at any time in any location, often without warning. Cardiac arrest is the third leading cause of death in the United States, following cancer and heart

Get Free American Red Cross Emr Study Guide

treatment is a community issue - local resources and personnel must provide appropriate, high-quality care to save the life of a community member. Time between onset of arrest and

Get Free American Red Cross Emr Study Guide

provision of care is fundamental, and shortening this time is one of the best ways to reduce the risk of death and disability from cardiac arrest. Specific actions can be implemented
