5 (DSM-5) marked one of the biggest changes to the field of mental health diagnosis in over 20 years. DSM-5 Insanely Simplified provides a summary of key concepts of the new diagnostic schema including a section on the upcoming ICD-10. DSM-5 Insanely Simplified utilizes a variety of devices to help clinicians memorize complex criteria and ideas about the different diagnoses. Cartoons, mnemonic devices, and summary tables allow clinicians and students to quickly grasp and retain broad concepts and subtle nuances related to psychiatric diagnosis. DSM-5 Insanely Simplified fosters quick mastery of the most important concepts introduced in DSM-5 while offering an entirely new way of

65 and older projected to soar from 40.3 million in 2010 to 72.1 million by 2030, the aging of America holds profound consequences for the nation. For decades, policymakers have been warned that the nation's health care workforce is ill-equipped to care for a rapidly growing and increasingly diverse population. In the specific disciplines of mental health and substance use, there have been similar warnings about serious workforce shortages, insufficient workforce diversity, and lack of basic competence and core knowledge in key areas. Following its 2008 report highlighting the urgency of expanding and strengthening the geriatric health care workforce, the IOM was asked by the Department of

Health and Human Services to undertake a complementary study on the geriatric mental health and substance use workforce. The Mental Health and Substance Use Workforce for Older Adults: In Whose Hands? assesses the needs of this population and the workforce that serves it. The breadth and magnitude of inadequate workforce training and personnel shortages have grown to such proportions, says the committee, that no single approach, nor a few isolated changes in disparate federal agencies or programs, can adequately address the issue. Overcoming these challenges will require focused and coordinated action by all.
