Mayra is a different gothic girl who returns to her country  
trying to elude with it the ghost of her best friend who  
torments her. The point is that comes to a place that  
despite being a city, most of its inhabitants are dressed in  
denim clothing. The novel is inspired by the life of a real  
girl who belonged to such style and is narrated differently  
like some facts occurred, and others that probably would

have passed, if there was existed will. I think the details that are told not differ much from the behavior of people or their imaginations. Although I know that this behavior of fantasy and poetry is not exclusive to them, I think most of them manifest more sensitivity to the things that surround them. I would like that to better understand the novel; reference is made to the details mentioned at the time they are indicated. This English version has been improved in its wording and added some changes in content. Thank you for your attention and I hope you enjoy it.

*Offers insights on Latino Caribbean writers born or raised in the United States who are at the vanguard of a literary movement that has captured both critical and popular interest. In this groundbreaking study, William Luis analyzes the most salient and representative narrative and poetic works of the newest literary movement to emerge in Spanish American and U.S. literatures. The book is divided into three sections, each focused on representative Puerto Rican American, Cuban American, and Dominican American authors. Luis traces the writers' origins and influences from the nineteenth century to the*

*present, focusing especially on the contemporary works of Oscar Hijuelos, Julia Alvarez, Cristina Garcia, and Piri Thomas, among others. While engaging in close readings of the texts, Luis places them in a broader social, historical, political, and racial perspective to expose the tension between text and context. As a group, Latino Caribbeans write an ethnic literature in English that is born of their struggle to forge an identity separate from both the influences of their parents' culture and those of the United States. For these writers, their parents' country of origin is a distant memory. They have developed a culture of resistance and a language that mediates between their parents' identity and the culture that they themselves live in. Latino Caribbeans are engaged in a metaphorical dance with Anglo Americans as the dominant culture. Just as that dance represents a coming together of separate influences to make a unique art form, so do both Hispanic and North American cultures combine to bring a new literature into being. This new body of literature helps us to understand not only the adjustments Latino Caribbean cultures have had to make within the larger U.S. environment but also how the dominant culture has been affected by their presence.*
