*"The ending if this book was incredible - I did not see that coming at all!!! ONE SENTENCE: Definitely worth a read."-- Worm's Magical Library of Books Blog "As a Montessori Adolescent Guide, I looked for books like this for my students. This is a great adolescent read!" "This journey is about discovering ones own abilities and strengths, learning to trust your instincts, and the depth of love constantly shimmering between Ana and Chance. An excellent follow up from the first book, I look forward to reading book three of The Shapeshifter Chronicles." -- Author Amy Manemann The adventure continues for Chance and Ana in book 2 of The Shapeshifter Chronicles Book Description: In Clark Bend, Idaho, Chance Morgan's dreams are haunted by the last moments shared with his grandfather. Memories of the fateful day when he died plague his thoughts, and without his grandfather's council, his shapeshifting powers mysteriously fail him. Eighteen-year-old, Ana Hughes has only known Chance for a few months, but he quickly found his way into her heart. Since being rescued from Chance's power-hungry cousin, and coming back from death, Ana is unwilling to leave his side, and joins him on his quest to the Yucatan in search of a new mentor. When Chance's memories fall into place and reveal a threat from their past, Chance and Ana must fight to survive - or die trying. Suggested reading age- 13 years old and up It is recommended that parents participate in book selections to decide whether a book is appropriate for their children. The goal of these notes is to provide a fast introduction to symplectic geometry for graduate students with some knowledge of differential geometry, de Rham theory and classical Lie groups. This text addresses symplectomorphisms, local forms, contact manifolds, compatible almost complex structures, Kaehler manifolds, hamiltonian mechanics, moment maps, symplectic reduction and symplectic toric manifolds. It contains guided problems, called homework, designed to complement the exposition or extend the reader's understanding. There are by now excellent references on symplectic geometry, a subset of which is in the bibliography of this book. However, the most efficient introduction to a subject is often a short elementary treatment, and these notes attempt to serve that purpose. This text provides a taste of areas of current research and will prepare the reader to explore recent papers and extensive books on symplectic geometry where the pace is much faster. For this reprint numerous corrections and clarifications have been made, and the layout has been improved.*

*Twenty Years of Education Transformation in Gauteng 1994 to 2014: An Independent Review presents a collection of 15 important essays on different aspects of education in Gauteng since the advent of democracy in 1994. These essays talk to what a provincial education department does and how and why it does these things - whether it be about policy, resourcing or implementing projects. Each essay is written by one or more specialist in the relevant focus area. The book is written to be accessible to the general reader as well as being informative and an essential resource for the specialist reader. It sheds light on aspects of how a provincial department operates and why and with what consequences certain decisions have been made in education over the last 20 turbulent years, both nationally and provincially. There has been no attempt to fit the book's chapters into a particular ideological or educational paradigm, and as a result the reader will find differing views on various aspects of the Gauteng Department of Education's present and past. We leave the reader to decide to what extent the GDE has fulfilled its educational mandate over the last 20 years.*

In *Making Room in the Clinic*, Julie Fairman examines the context in which the nurse practitioner movement emerged, how large political and social movements influenced it, and how it contributed to the changing definition of medical care. Drawing on primary source material, including interviews with key figures in the movement, Fairman describes how this evolution helped create an influential foundation for health policies that emerged at the end of the twentieth century, including health maintenance organizations, a renewed interest in health awareness and disease prevention, and consumer-based services.

Is God still doing miracles today? "This book tells the story of how God is still working miracles. It's a miniature modern version of the Israelites escape from Egypt which declares that rescue is still happening!" --Warren Otter, retired pastor of United Methodist Church "We are blessed to know firsthand the heart, love, faith, and compassion of Joseph and Ana Chimbanda. God blessed them in their time of need, and they have never stopped giving back. This book is about miracles and never giving up, a must read." --Tom and Linda Davies, Members of Noblesville First United Methodist Church "Knowing Ana and Joseph Chimbanda and working with them in the United Methodist Church in the Denver metro, I was inspired by their exuberant work of expanding the mission work in our area."

--Karen Bueno, retired teacher "The Chimbanda's narrative describes struggles, despair, and other life challenges. Yet though it all their solace was through their faith in Jesus Christ who brought love for all and hope into their hearts so they could conquer every hurdle and make a difference in the lives of all they touched." --W. Over the years, right from young to old age, we all witness a sea of change in people, particularly from different generations and, hence, a shift in priorities of life and consequent value systems. But the basic emotional needs like peace, happiness, love, etc., still remain the same; and that, too, in all countries, through the means of getting them, have shifted to a great extent with a rapid change in lifestyle. Young people, including kids, these days often fall victim to situation and commit suicide,

go through sudden separation/divorce, and also be violent and kill in extreme cases. The major strain nowadays is on all types of relationships like parents and children, husband and wife, lovers and friends, boss and subordinates, among colleagues, etc. The relationship between a woman and man, which is the primary base in life and that all look for, prompted the author to reflect and write life-like stories of four main couples in the backdrop of the narrators own, from different countries and social background and even with cultural differences. They come to know each other in person or over the Net, build a relationship, go through conflicts of interests; and some sustain and even enrich the relationship while some break away due to basic values of life. A relationship is not a deal; it is rather based on intrinsic values like understanding, adjustment, mutual respect, admiration of special qualities ( as each individual has), openness with clear communications, and above all, trust and responsibility enveloped in love. To sever a relationship, there should be enough courage and inner strength to uphold the principle of intrinsic values in our life without sweet coatings. All episodes provide some history and geographic background apart from sociopolitical aspects to understand the mould of each character and their characteristics, while all couples are beaded through the common string of Rhythm of Life!
