Are You Really Ready for College?: A College Dean's 12 Secrets for Success - What High School Students Don't Know

Advertising at War challenges the notion that advertising disappeared as a political issue in the United States in 1938 with the passage of the Wheeler-Lea Amendment to the Federal Trade Commission Act, the result of more than a decade of campaigning to regulate the advertising industry. Inger L. Stole suggests that the war experience, even

more than the legislative battles of the 1930s, defined the role of advertising in U.S. postwar political economy and the nation's cultural firmament. She argues that Washington and Madison Avenue were soon working in tandem with the creation of the Advertising Council in 1942, a joint effort established by the Office of War Information, the Association of National Advertisers, and the American Association of Advertising Agencies. Using archival sources, newspapers accounts, and trade publications, Stole demonstrates that the war elevated and magnified the seeming contradictions of advertising and allowed critics of these practices one final opportunity to corral and regulate the institution of advertising. Exploring how New Dealers and consumer advocates such as the Consumers Union battled the advertising industry, Advertising at War traces the debate over two basic policy questions: whether advertising should continue to be a tax-deductible business expense during the war, and whether the government should require effective standards and labeling for

consumer products, which would render most advertising irrelevant. Ultimately the postwar climate of political intolerance and reverence for free enterprise quashed critical investigations into the advertising industry. While advertising could be criticized or lampooned, the institution itself became inviolable.

many boys and their frustrated parents, these are the facts of life. But they don't have to be. Top academic counselor Ana Homayoun has helped turn even the most disorganized, scattered, and unfocused boys into successful young people who consistently meet their personal and academic challenges. She does this by getting back to basics--starting with a simple fact: Most boys need to be taught how to get organized, how to study, and-- most important--how to visualize, embrace and meet their own goals. With an accessible and no-nonsense approach, Homayoun shows how to:

- Identify their son's disorganizational style
- Help him set academic and personal goals he cares about
- Design and establish the right "tools of the trade"
- Complete assignments without pulling all-nighters
- Help him tune out social pressure and fend off anxiety

Much more than a study guide, this insightful, user-friendly book provides a roadmap for the success too many boys have trouble finding--in school and in life. Proceedings and Debates of the ... Congress

Volume 1 presents important new material on the young Einstein. Over half the documents made available here were discovered by the editors, including a significant group of over fifty letters that Einstein exchanged with Mileva Maric, his fellow student and future wife. These letters, together with other previously unpublished documents, provide an entirely new view of Einstein's youth. The documents in the volume also foreshadow the emergence of his extraordinary creative power. In them is manifested his intense commitment to scientific work and his interest in certain themes that proved to be central to his thinking during the next decade. We can follow, for example, the beginnings of his preoccupation with the electrodynamics of moving bodies that was to lead to the development of this special theory of relativity. For the first time it can be seen how closely he followed such contemporary developments in physics as Planck's work on radiation theory and Drude's work on the electron theory of metals. In addition to all of Einstein's known correspondence and other writings from this period, the volume includes the relevant portions of all third-party letters and other contemporary documents that provide additional information about his secondary schooling at the Aargau Cantonal School; his four years at the Swiss Federal Polytechnical School, or the ETH; and his search for a job after graduation. Included in the volume are those sections of an unpublished biography by Einstein's sister, Maja Winteler-Einstein, which deal with his early years; his extensive notes on a physics

course he took at the ETH; and previously unpublished photographs of the young Einstein and his teachers and friends. Documents in Volume 1 portray Einstein's experiences during the two stressful years after his graduation from the ETH in Zurich. Denied a position as an Assistant at the ETH, he lived a hand-to-mouth existence while he looked for a post at other universities; then he attempted to find a secondary-school post, and finally sought a nonacademic job. Tension with his parents over his plans to marry Mileva Maric is evident throughout this period. With the help of a friend, he finally found work at the Swiss Patent Office, the haven where he would spend the next seven years. Freed from his financial worries, he entered on one of the most productive periods of his life, as the next volume, Writings (1901-1910), will document.

"Report of the Dominion fishery commission on the fisheries of the province of Ontario, 1893", issued as vol. 26, no. 7, supplement. A modern take on the classic coming-of-age novel, inspired by Anne of Green Gables In the grand tradition of Anne of Green Gables, Bridget Jones's Diary, and The Three Weissmanns of Westport, Andi Teran's captivating debut novel offers a contemporary twist on a beloved classic. Fifteen-year-old orphan Ana Cortez has just blown her last chance with a foster family.

It's a group home next—unless she agrees to leave East Los Angeles for a farm trainee program in Northern California. When she first arrives, Ana can't tell a tomato plant from a blackberry bush, and Emmett Garber is skeptical that this slight city girl can be any help on his farm. His sister Abbie, however, thinks Ana might be just what they need. Ana comes to love Garber Farm, and even Emmett has to admit that her hard work is an asset. But when she inadvertently stirs up trouble in town, Ana is afraid she might have ruined her last chance at finding a place to belong.
