

Anandi Gopal

Compared to how it looked 150 years ago at the eve of the colonial conquest, today's India is almost completely unrecognizable. A sovereign nation, with a teeming, industrious population, it is an economic powerhouse and the world's largest democracy. It can boast of robust legal institutions and a dizzying plurality of cultures, in addition to a lively and unrestricted print and electronic media. The question is how did it get to where it is now? Covering the period from 1800 to 1950, this study of about a dozen makers of modern India is a valuable addition to India's cultural and intellectual history. More specifically, it shows how through the very act of writing, often in English, these thought leaders reconfigured Indian society. The very act of writing itself became endowed with almost a charismatic authority, which continued to influence generations that came after the exit of the authors from the national stage. By examining the lives and works of key players in the making of contemporary India, this study assesses their relationships with British colonialism and Indian traditions. Moreover, it analyzes how their use of the English language helped shape Indian modernity, thus giving rise to a uniquely Indian version of liberalism. The period was the fiery crucible from which an almost impossibly diverse and pluralistic new nation emerged through debate, dialogue, conflict, confrontation, and reconciliation. The author shows how the struggle for India was not only with British colonialism and imperialism, but also with itself and its past. He traces the religious and social reforms that laid the groundwork for the modern sub-continental state, proposed and advocated in English by the native voices that influenced the formation India's society. Merging culture, politics, language, and literature, this is a path breaking volume that adds much to our understanding of a nation that looks set to achieve much in the coming century.

This anthology assembles two decades' of work initiated by SisterSong Women of Color Health Collective, who created the human rights-based "reproductive justice" to move beyond polarized pro-choice/pro-life debates. Rooted in Black feminism and built on intersecting identities, this revolutionary framework asserts a woman's right to have children, not have children, and to parent and provide for the children they have.

Smart Question Bank (MCQs) for CUETUG for Economics/Business Economics comprises comprehensive sets of questions accompanied by answers, based on the latest syllabus structure set by the National Testing Agency (NTA), and it follows the current NCERTXII syllabus. This book caters to Section- II (Domain specifOc subjects) of the CUET-UG examination. While Economics is taken by the Arts group, Business Economics is taken by the Commerce group at their +2 level. The book caters to both the streams. If you are appearing for any Government Recruitment Exam, it is important that you are familiar with the happenings around the world. Current Affairs is an important part of your syllabus apart from English, Quantitative Aptitude or Logical Reasoning! Thus, we bring you the Important General Awareness in Google Play. This book covers a wide range of topics like current issues –

national as well as international affairs in the diverse areas of Polity, Economy, Environment and Wildlife, Defence, Science & Technology, etc. which are of immense significance from examination point of view. The book is designed to address the needs of Civil Services, State Services, SSC, Engineering Services and any other competitive examinations.

Reflections, Challenges, and Breaking Boundaries

The cultural universe of urban, English-speaking middle class in India shows signs of growing inclusiveness as far as English is concerned. This phenomenon manifests itself in increasing forms of bilingualism (combination of English and one Indian language) in everyday forms of speech - advertisement jingles, bilingual movies, signboards, and of course conversations. It is also evident in the startling prominence of Indian Writing in English and somewhat less visibly, but steadily rising, activity of English translation from Indian languages. Since the eighties this has led to a frenetic activity around English translation in India's academic and literary circles. Kothari makes this very current phenomenon her chief concern in *Translating India*. The study covers aspects such as the production, reception and marketability of English translation. Through an unusually multi-disciplinary approach, this study situates English translation in India amidst local and global debates on translation, representation and authenticity. The case of Gujarati - a case study of a relatively marginalized language - is a unique addition that demonstrates the micro-issues involved in translation and the politics of language. Rita Kothari teaches English at St. Xavier's College, Ahmedabad (Gujarat), where she runs a translation research centre on behalf of Katha. She has published widely on literary sociology, postcolonialism and translation issues. Kothari is one of the leading translators from Gujarat. Her first book (a collaboration with Suguna Ramanathan) was on English translation of Gujarati poetry (*Modern Gujarati Poetry: A Selection*, Sahitya Akademi, New Delhi, 1998). Her English translation of the path-breaking Gujarati Dalit novel *Angaliyat* is in press (*The Stepchild*, Oxford University Press). She is currently working on an English translation of Gujarati short stories by women of Gujarat, a study of the nineteenth-century narratives of Gujarat, and is also engaged in a project on the Sindhi identity in India.

Women's Worth: Priceless focuses on the necessity to protect and promote the human rights of women and girls around the world. As a feminist book written by a man, it is unique in its approach and message. It provides an ethical theme centred on feminism, equity, and social justice. It is a sad commentary on the historical and traditional prejudice against women and girls. In the world's poorest countries, women and girls are among the most vulnerable and marginalized members of society. This goes without saying that women's rights violations are present in every country and at every level of society. Eliminating gender discrimination and empowering women are among the imperatives facing the world today. Although much has changed in the decades of women's rights advocacy, the rights and entitlements claimed for women and girls are commonly ignored or suppressed in many societies worldwide. Consequently, hundreds of millions of women and girls are deprived of their human rights. But what can we, the concerned people, do to stop these abuses? I believe the answer

is to support global advocacy and action to secure women's and girls' rights. It would help if we could all make an effort to create a world fit for women and children to grow up safe and live happy and healthy.

The study examines the twin issues of Western medicine and public health in Bombay during the years 1845-1895. The work is the first to explore in detail the complex interrelationship between government, municipality and individual philanthropists over the issues of Western medicine and public health measures.

Examining the complex linkages between gender and education in the Indian context forms part of a wider matrix of inquiry related to understanding gender and its intersections with class, caste, religion and region. The sixteen essays in this Reader by eminent scholars offer critical feminist perspectives covering many issues related to these linkages, examining ideologies, structural contexts, knowledge, pedagogy and experiences through a socio-historical lens. They point to the range of sources and methods that can be used to uncover the linkages between gender and education such as quantitative data, literature, autobiographies, oral histories and ethnography. Please note: Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka.

"Akashvani" (English) is a programme journal of ALL INDIA RADIO, it was formerly known as The Indian Listener. It used to serve the listener as a bradshaw of broadcasting, and give listener the useful information in an interesting manner about programmes, who writes them, take part in them and produce them along with photographs of performing artists. It also contains the information of major changes in the policy and service of the organisation. The Indian Listener (fortnightly programme journal of AIR in English) published by The Indian State Broadcasting Service, Bombay, started on 22 December, 1935 and was the successor to the Indian Radio Times in English, which was published beginning in July 16 of 1927. From 22 August, 1937 onwards, it used to published by All India Radio, New Delhi. From 1950, it was turned into a weekly journal. Later, The Indian listener became "Akashvani" (English) w.e.f. January 5, 1958. It was made fortnightly journal again w.e.f July 1, 1983. Magdolna Hargittai uses over fifteen years of in-depth conversation with female physicists, chemists, biomedical researchers, and other scientists to form cohesive ideas on the state of the modern female scientist. The compilation, based on sixty conversations, examines unique challenges that women with serious scientific aspirations face. In addition to addressing challenges and the unjustifiable underrepresentation of women at the higher levels of academia, Hargittai takes a balanced approach by discussing how some of the most successful of these women have managed to obtain professional success and personal happiness. *Women Scientists* portrays scientists from different backgrounds, different geographical regions—eighteen countries from four continents—and leaders from a variety of professional backgrounds, including eight Nobel laureate women. The book is divided into three sections: "Husband and Wife Teams," "Women at the Top," and "In High Positions." Hargittai uses her own experience to introduce her first section on the lives of prominent scientific couples and addresses the joys and disadvantages of husband and wife teams. The second section is a comprehensive exploration of the struggles and triumphs of "women at the top." Hargittai introduces women from countries where relatively little has been written about female scientists. The final section focuses on women scientists involved with science administration and leadership. Hargittai's biographical sketches role models for budding scientists. The book is a much needed account of female presence and influence in the sciences.

America now is home to approximately five million Hindus and Jains. Their contribution to the economic and intellectual growth of the country is unquestionable. Dharma in America aims to explore the role of Hindu and Jain Americans in diverse fields such as: education and civic engagements medicine and healthcare music. Providing a concise history of

Hindus and Jains in the Americas over the last two centuries, Dharma in America also gives some insights into the ongoing issues and challenges these important ethnic and religious groups face in America today.

This is the second edition of a remarkable study of a young woman's defiant stand against Hindu orthodoxy and the colonial legal establishment in the late nineteenth century India. It revolves around a suit for 'restitution of conjugal rights' filed against Rukhmabai, who was married at age eleven and refused to go and live with her husband. This lucid and engaging account captures the dramatic unfolding of the litigation, as well as the huge social and political debate set off by it. The narrative skilfully weaves together the details of the case with larger issues of gender and law, colonialism, culture, reform, and modernity. This edition includes a new Afterword in which the author analyses a vexatious libel case into which the rival party dragged Rukhmabai with a view to breaking her will, even before the original suit has been settled. This book will interest students and scholars of gender studies, family law, feminist perspective of history, legal history, and also general readers.

Western Medicine and Public Health in Colonial Bombay, 1845–1895

Are Indian women powerful mother goddesses, or domestic handmaidens trailing behind men in literacy, wages, opportunities, and rights? Have they been agents of their own destinies, or voiceless victims of patriarchy? Behind these colorful over-simplifications lies the reality of many feminine personas belonging to various classes, ethnicities, religions, and castes. This two-volume set looks at Indian history from ancient to modern times, revealing precisely why ideas of gender rights were not static across eras or regions. Raman's work is a reflection on the various ways in which women in a non-Western culture have developed and expressed their own feminist agenda. Are Indian women powerful mother goddesses, or domestic handmaidens

trailing behind men in literacy, wages, opportunities, and rights? Have they been agents of their own destinies, or voiceless victims of patriarchy? Behind these colorful oversimplifications lies the reality of many feminine personas belonging to various classes, ethnicities, religions, and castes. This two-volume set looks at Indian history from ancient to modern times, revealing precisely why ideas of gender rights were not static across eras or regions. Raman's work is a reflection on the various ways in which women in a non-western culture have developed and expressed their own feminist agenda. Individual chapters highlight the enduring legacies of many important male and female figures, illustrating how each played a key role in modifying the substance of women's lives. Political movements are examined as well, such as the nationalist reform movement of 1947 in which the ideal of Indian womanhood became central to the nation and the push for independence. Also included is a survey of women in contemporary India and the role they played in the resurgence of militant Hindu nationalism. Aside from being an engaging and readable narrative of Indian history, this set integrates women's issues, roles, and achievements into the general study of the times, providing a clear presentation of the social, cultural, religious, political, and economic realities that have helped shape the identity of Indian women.

In this classic study of Pandita Ramabai's life, Uma Chakravarti brings to light one of the foremost thinkers of nineteenth-century India and one of its earliest feminists. A scholar and an eloquent speaker, Ramabai was no stranger to controversy. Her critique of Brahminical patriarchy was in sharp contrast to Annie Besant, who championed the cause of Hindu society. And in an act seen by contemporary Hindu society as a betrayal not only of her religion but of her nation, Ramabai - herself a high-caste Hindu widow - chose to convert to Christianity. Chakravarti's book stands out as one of the most important critiques of gender and power relations in colonial India, with particular emphasis on issues of class and caste. Published by Zubaan.

Examining the emerging figure of the woman doctor and her relationship to empire in Victorian culture, Narin Hassan traces both amateur and professional 'doctoring' by British women travelers in colonial India and the Middle East. Hassan sets the scene by offering examples from Victorian novels that reveal the rise of the woman doctor as a fictional trope.

Similarly, medical advice manuals by Victorian doctors aimed at families traveling overseas emphasized how women should maintain and manage healthy bodies in colonial locales. For Lucie Duff Gordon, Isabel Burton, Anna Leonowens, among others, doctoring natives secured them access to their private lives and cultural traditions. Medical texts and travel guides produced by practicing women doctors like Mary Scharlieb illustrate the relationship between medical progress and colonialism. They also helped support women's medical education in Britain and the colonies of India and the Middle East. Colonial subjects themselves produced texts in response to colonial and medical reform, and Hassan shows that a number of "New" Indian women, including Krupabai Sathianadhan, participated actively in the public sphere through their involvement in health reform. In her epilogue, Hassan considers the continuing tradition of women's autobiographical narrative inspired by travel and medical knowledge, showing that in the twentieth- and twenty-first century memoirs of South Asian and Middle Eastern women doctors, the problem of the "Woman Question" as shaped by medical discourses endures.

Women who emigrate to the US on 'dependent visas', to join their husbands working on H1B visas, often do not know what to expect. They uproot themselves from their homes and families and arrive in an alien land to begin life anew, clueless as to what this might entail. Strained marriages and lives thrown out of gear are only some of the complications that ensue. This book gives voice to some such 'visa wives' and their experiences, while offering practical advice on settling in, working, networking, assimilating and making friends, to those contemplating a move to the US.

The Life and Letters of Anandibai Joshee

True Tales of Amazing People Who Stood Up and Stood Out

In Indian society, women are traditionally discriminated against and excluded from political and family related decisions. Despite the large amount of work women must do on a daily basis to support their families, their opinions are rarely acknowledged and

their rights are limited. From the time they are born, young Indian girls are the victims of discrimination. Instead of going to school, girls often find themselves forced to work in order to help their families, often from a very young age. Even more worrisome, 25% of women marry before the age of 15 and very often, they marry against their will. This has profound consequences, notably on women's health and their precarious situation often prevents them from receiving proper health care. For many Indian women, poor treatment, violence and exploitation take place on daily basis. However, in the last decades, the situation of women in India has greatly improved.

Challenges faced by women- Education, Career and Identity' deals with the struggles women go through to get educated and empowered in a male- dominated society. Women education is still considered secondary and women are deprived of their basic rights in many areas. Women are still under the clutches of patriarchy. There are many misconceptions regarding women education and empowerment in Islam. This is a modest attempt to correct prejudices about women in Islam. Book starts with the importance of women education and status of women education in India. Author emphasis the importance of women education in Islam and tries to erase misconceptions regarding women in social context by enlightening minds with references from Holy Quran and Hadith (sayings of Prophet Muhammad pbuh). Why are women treated secondary in the family and the community? Why does Gender discrimination still persist? How long should we women tolerate inequality, injustice, discrimination, violence and abuse? Why men and society around impose restrictions and try to keep women under the clutches of dominance, when no religion denies women of their basic rights? Basic rights include education, empowerment, identity, rights in legal and financial matters and many more. Author points out the consequences of not educating women and denying them of their rights. Many examples of great women from Islamic and Indian history are presented who contributed by overcoming many challenges and barriers to give a bright and successful future for coming generations. The success stories of great women give inspiration to every person who reads.

The Sexual Life of English

“Medical knowledge is not communicable to the natives of this country.” With these words, James McAdam, Secretary of the Medical Board of Bombay, sounded the death-knell in 1832 of the pioneering medical school set up in Bombay by Governor Mountstuart Elphinstone. Sir Robert Grant, appointed Governor of Bombay in 1834, disagreed, however. He aimed at ‘the general improvement of medical and surgical science and practice among the native practitioners’. With Dr Charles Morehead, he created a medical college superior to those in Calcutta, and Madras. Parsi philanthropist Sir Jamsetjee Jejeebhoy single-handedly donated an entire hospital to complement this college. Graduates from these institutions, trained in scientific medicine of the highest standards, went on to serve their fellow countrymen with distinction. This book narrates how against great odds, Grant Medical College went on to rival medical colleges in Europe and America, and Dr Morehead was invited to help improve medical education at the University of London.

Revolutionary Women celebrates the amazing stories of 50 women of color who pushed boundaries, rewrote the rules, and inspired women everywhere to follow in their footsteps. Discover the remarkable true stories of a diverse group of women who were trailblazers and leaders in their field, becoming visible icons of excellence in their communities and beyond. From making their mark on the big screen and in the halls of NASA to ruling on the courts of the US Open and the Supreme Court, their incredible stories will inspire you to embrace your authentic self and live your life in full color. For fans of Ann Shen's beloved Bad Girls Throughout History, this spiritual successor celebrates the accomplishments of these incredible women alongside Ann Shen's signature artwork. From dancers, actors, and singers to scientists, astronauts, politicians, and activists, these women used their voices and their passions to change the world. They include: Gloria Estefan, one of the best-selling female music artists of all time. Anna Sui, an iconic fashion designer for over four decades. Bessie Stringfield, the motorcycle queen of Miami. Alexandria Ocasio-Cortez, the youngest woman ever sworn into Congress. Misty Copeland, the first Black woman principal dancer at American Ballet Theater. Joyce Chen, the first Chinese celebrity chef. Revolutionary Women captures their extraordinary stories in a beautiful and inspiring format that elevates their achievements. Readers will love the new take on Ann Shen's beloved first book, as well as the uplifting stories, beautiful and rich art, and the inspiration for readers to forge their own paths. BEAUTIFUL gift: This book combines fun and colorful illustrations with important history through the lens of intersectional feminism, celebrating women of color for the amazing things they accomplished, appealing to people of all ages and genders. Perfect for: Customers who also bought BAD GIRLS THROUGHOUT HISTORY or LEGENDARY LADIES Fans of Fashion, Art, and History Self-Proclaimed Feminists Based On The True 1777 Story Of Anandi Bai Joshi, India`S First Women Doctor, This Is A Powerful Novel On Heart-Foot Issues Which Also Records The Bitter And Intense Debates On The Condition Of Women, The Roe Of Education And The Need For Social Reform-Issues Still Very Alive To Day.

Looking at gender through multiple lenses, this volume seeks to understand what empowerment really means to women today. It examines the situation of women in, and their contribution to, politics, business, education, social and economic development, the

women's movement, health, law, insurgency and the arts. The volume analyses certain key issues of contemporary discourse including: • ownership of one's body and freedom of choice • redefinition of empowerment and leadership and how far we have achieved it • importance of equal access to education, employment and health • political participation and decision making, and • dichotomy between marginalisation of women on grounds of caste, class and religion in a society with changing laws on women's rights

Gender and Education in India

A Fragmented Feminism

Mr Doctor

Chandra explores how English became an Indian language during the colonial period of 1850-1930. Using archival and literary sources, she focuses on elite language education for girls and women.

"This book is a search for 'the real Anandibai Joshee' — a search in which the readers are invited to participate." In her short and eventful life, Anandibai Joshee, the first Indian woman to earn a medical degree, broke many stereotypes. Literate at a time when it was taboo for a girl to attend school or even 'pick up a paper', she was courageous, articulate, and assertive. And ambitious. Fuelled by a desire to improve the healthcare that was available to Indian women at that time, she travelled across the seas to the United States to study medicine. Meera Kosambi's biography of Anandibai is more than just a retelling of the life of a woman who was ahead of her times. Drawing on a host of narratives, Kosambi recovers Anandibai's many voices, which have been submerged in history — that of a conflicted feminist, a nationalist, and a reformer, among others — and her engagement with the world at large. This volume is a testament to Meera Kosambi's commitment to social history. When she passed away in 2015, she left an incomplete manuscript that has painstakingly been put together by the editors. Drawing on archival research, including a host of Anandibai's letters, her poems in Marathi, newspaper reports, and rare photographs, this book will be of immense interest to scholars and researchers of modern Indian history, sociology, gender, and South Asian studies. This book offers a variety of scholarly studies in the idea, situation, and definition-including the self-definition-of women in India, from the earliest historical period up to the present day. Both in its range of topics and depth of research, this volume creates a sustained focus that is not presently available in the literature of women in India. Faces of the Feminine in Ancient, Medieval, and Modern India comprises 25 essays contributed by a diverse mix of Indian, Canadian, American, and British women scholars, most of whom have lived in South Asia either for all of their lives or for extended periods. Arranged chronologically, these groundbreaking essays set aside the myths and prejudices that often clutter discussions about women in India. Part I, which is dedicated to the ancient period, defines women's positions as depicted in the sacred

law, considers subordinated women in major Hindu epics, describes women's roles in ritual and their understanding of religion, and examines the patriarchal organization of women's lives in Buddhism. Part II begins with an essay on Tantra, a major force in medieval India that influenced both Hinduism and Buddhism and placed women at the center of its sacred rites. Other essays in Part II look at the life and legends of a medieval woman saint poet, the portrayal of a Hindu goddess in medieval Bengal, and the role of women from Mughal harems in decision making. Part III describes the colonial perception of Indian women in the late nineteenth century and shows how women's self-perceptions have been expressed through their art and writing as well as through their political action in the twentieth century. Providing informed and balanced analysis of extensive primary source material, this book will be an essential resource for students of women's lives in India.

A Major Activity Of The Sahitya Akademi Is The Preparation Of An Encyclopaedia Of Indian Literature. The Venture, Covering Twenty-Two Languages Of India, Is The First Of Its Kind. Written In English, The Encyclopaedia Gives A Comprehensive Idea Of The Growth And Development Of Indian Literature. The Entries On Authors, Books And General Topics Have Been Tabulated By The Concerned Advisory Boards And Finalised By A Steering Committee. Hundreds Of Writers All Over The Country Contributed Articles On Various Topics. The Encyclopaedia, Planned As A Six-Volume Project, Has Been Brought Out. The Sahitya Akademi Embarked Upon This Project In Right Earnest In 1984. The Efforts Of The Highly Skilled And Professional Editorial Staff Started Showing Results And The First Volume Was Brought Out In 1987. The Second Volume Was Brought Out In 1988, The Third In 1989, The Fourth In 1991, The Fifth In 1992, And The Sixth Volume In 1994. All The Six Volumes Together Include Approximately 7500 Entries On Various Topics, Literary Trends And Movements, Eminent Authors And Significant Works. The First Three Volume Were Edited By Prof. Amaresh Datta, Fourth And Fifth Volume By Mohan Lal And Sixth Volume By Shri K.C.Dutt.

The Encyclopaedic Dictionary Of Marathi Literature Has Been Developed With A Specific Planning To Include Not Only Men Of Letters But Also All Aspects Characterising The Growth Of Marathi Literature. It Also Presents A Clear Picture Of Development Of Marathi Literature From Early Period To The Present Day. The Contributions Of Many Poets, Writers, Playwriters, Essayist And Critics Are Given Along With Their Biographical Accounts Supported By Bibliography. It Has Successfully Converted A Long Journey Of Marathi Since Saint Dnyaneshwar To Today S New Little Magazine Movement .The Encyclopaedic Dictionary Serves

The Purpose Of Research And Survey Of Marathi Literature Very Well, Bringing In Full Contributions Of Progressive Poets And Writers. It Is Bound To Be Gita For Researchers As Well As Every Common Marathi Individual As It Has Rich Reference Value. Is it possible to simultaneously belong to and be exiled from a community? Arguing that it is possible, the author uncovers the ways that the female body becomes a site of both oppression and resistance. She reveals common political and feminist alliances across geographic boundaries.

Meet the wonder women of Indian history! They flew planes, swam across oceans, led armies, performed stunts, built cities and captured historic moments on camera, despite being constantly told to stay home, because that's what 'good girls' did. These were women who dared to dream and worked hard to turn their dreams into reality, who shaped their own destinies and refused to let anyone tell them what to do. Featuring the amazing adventures of Janaki Ammal, Rani Abbakka, Nadia Wadia, Sarla Sharma Thakral, Rajkumari Amrit Kaur and many others, Unstoppable is a collection of 75 power-packed stories of the extraordinary Indian women who broke the rules to change the world around them for the better.

Women in World History brings together the most recent scholarship in women's and world history in a single volume covering the period from 1450 to the present, enabling readers to understand women's relationship to world developments over the past five hundred years. Women have served the world as unfree people, often forced to migrate as slaves, trafficked sex workers, and indentured laborers working off debts. Diseases have migrated through women's bodies and women themselves have deliberately spread religious belief and fervor as well as ideas. They have been global authors, soldiers, and astronauts encircling the globe and moving far beyond it. They have written classics in political and social thought and crafted literary and artistic works alongside others who were revolutionaries and reform-minded activists. Historical scholarship has shown that there is virtually no part of the world where women's presence is not manifest, whether in archives, oral testimonials, personal papers, the material record, evidence of disease and famine, myth and religious teachings, and myriad other forms of documentation. As these studies mount, the idea of surveying women's past on a global basis becomes daunting. This book aims to redress this situation and offer a synthetic world history of women in modern times.

75 Stories of Trailblazing Indian Women

This book studies the dialectic relationship between the image of the child and the toy in literary depictions of childhood in 19th- and 20th-century Anglo-American fiction. Drawing from the psychoanalytic theories of Sigmund Freud, Anna Freud, D.W. Winnicott, and Sudhir Kakar, it analyses themes such as the heterogeneity of childhood and the construction of the ideals of childhood. It explores the linkages between the

ideals of childhood in Britain and its travel to America and further dissemination in British India. It discusses the established tropes of childhood such as innocence, a formative period, the centrality of play, and the presence of a toy to argue that the mores of childhood are culturally constructed and lead to the reification of a child into an image of perfection. The author problematises the notion of essential innocence and discusses the repercussions of such stereotypes about childhood. The work also highlights parallels between the ideals of childhood established in 19th-century Britain and the portrayals of postcolonial Indian childhoods in 20th-century Indian English literature. *Toying with Childhood* will be useful for students and researchers of education, childhood studies, psychology, sociology, literature, gender studies, and development studies. It will also appeal to general readers interested in cultural perceptions of childhood, literary depictions of children, and the works of Sigmund Freud.

This book is a tribute to all the Doctors/ Nurses/ staff members and Police officers and all other Corona warriors. Who are there to protect us from COVID-19, without considering about their life they are in our service, from me this is a small tribute to them. Dr Aadidev the protagonist of this story, he is just a common person until he didn't put Dr. in front of his name, In this real world, there are only three real heroes, Doctors-Soldiers-Farmers. Doctors who give us second life, Soldiers our protectors and Farmers who give us food, and this story revolves around Doctors and Soldiers. Dr Aadidev and Ex-Soldier Kevin, they both are not only the characters of this story, but they are the symbol who represents Doctors/ Medical staff and Police officers/ Armed forces.

In a compelling study of Indian women, Geraldine Forbes considers their recent history from the nineteenth century under colonial rule to the twentieth century after Independence. She begins with the reform movement, established by men to educate women, and demonstrates how education changed women's lives enabling them to take part in public life. Through their own accounts of their lives and activities, she documents the formation of their organisations, their participation in the struggle for freedom, their role in the colonial economy and the development of the women's movement in India since 1947.

The first of many in the *Our Legendary Ladies* series. These books encourage parents to go beyond the basics and teach their children about history's amazing Harriet Tubman. Signed off by her leading historian. Megan Callea spent years working for the largest financial firms before deciding to pursue her dream of writing a children's series highlighting the life of history's legendary ladies. She encourages parents to not only read to their children at the youngest possible age but to go beyond the basics of numbers, colors and animals, and read about *Our Legendary Ladies*. Her passion is to have 100% accuracy, in doing so she works with leading historians and infants psychologists to ensure she is bringing you the best quality of book for your baby. Her first book in the series is due out January of 2018. AUTHOR HOME: Washington Township, NJ
