NASA research of Earth-Moon mechanics by astrophysicist Robert Newton leads mathematicians of MSU to a breakthrough in the chronology of world history and Russia. The oversize ominous figure of Ivan the Terrible, with his 7 wives and 4 sons, allegedly ruling from 1530 to 1584, was a collation of 4 different real persons. The official history hides the struggle of dynasties and civil wars of the Great Strife. The first Ivan IV accessed the throne in 1547, when he was barely 16, conquered Kazan in 1552, fell mentally ill and died in 1553. The second Ivan IV (Dimitry, the elder son of the first) inherited the throne, and Russia was ruled by a custodian council of boyars until he died in 1563. The third Ivan IV (second son of the first) inherited the throne, and Russia again was ruled by a custodian council of boyars until his death in 1572. The fourth Ivan IV (Simeon Ivan III) ruled until 1584. The figmental figure of Ivan the Terrible was fed into Russian history by German historians. Guess why?

NASA research of Earth-Moon mechanics by late astrophysicist Robert Newton leads MSU mathematicians to a breakthrough in the chronology and history of ancient Greece. The Issue With Troy shows the amazed reader that the whole Troy story was a swindle exercised by German "archeologist" adventurer Schliemann. Indeed, the consensual localization for Homer's Troy is Hisarlik near the Hellespont straits. Herr Heinrich "Indiana" Schliemann used this hypothesis for solemnly baptizing as "Troy" the 100 by 100 meter excavation (with dynamite) site of a minuscule ancient settlement. Soon he announced the finding of gold Priam artifacts that he himself designed and manufactured by Italian jewelers Bulgari. True name of Troy is Schliemannstadt?

NASA research of Earth-Moon mechanics by late astrophysicist Robert Newton leads mathematicians of MSU to a breakthrough in the consensual chronology and history of Eurasia. The Issue With Mongols is that this small nomad tribe did not know until 20th century how great a power they once were. Nor did Mongols know who Great Genghis Khan was and how he had conquered Eurasia, Russia, China. The "Mongolian Horde" was merely the Russian army. According to the official version of history, Russia remained under the political and military yoke of the Mongols for many centuries on end. The term "Mongol" is usually assumed to have always meant the same thing; however this turns out to be incorrect ??" the modern interpretation is of a relatively recent origin. Mongolia didn't exist as an independent state until the early 20th century! The word "Mongol" simply meant "the great one," and its association with nomadic tribes hailing from the steppes north of China is a later invention.

NASA research of Earth-Moon mechanics by astrophysicist Robert Newton leads mathematicians of Moscow State University to a breakthrough in the chronology of civilization and Eurasia. Swords and Mantles Tell History from the e-series History: Fiction or Science? reports about scores of cases of numerous allegedly unreadable inscriptions on ancient swords kept in European museums, about signs and symbols on coronation mantle of illiterate Charlemagne, etc., etc. Read and find out why! Charlemagne had a formula of governance written on his mantle in Russian (sic!). What a pity he could not read it, therefore his big empire was divided between his three small grandchildren. Good to know foreign languages!

An exploration of the megalithic complex at Göbekli Tepe, who built it, and how it gave rise to legends regarding the foundations of civilization • Details the layout, architecture, and exquisite carvings at Göbekli Tepe • Explores how it was built as a reaction to a global cataclysm • Explains that it was the Watchers of the Book of Enoch and the Anunnaki gods of Sumerian tradition who created it • Reveals the location of the remains of the Garden of Eden in the same region Built at the end of the last ice age, the mysterious stone temple complex of Göbekli Tepe in Turkey is one of the greatest challenges to 21st century archaeology. As much as 7,000 years older than the Great Pyramid and Stonehenge, its strange buildings and rings of T-shaped monoliths- built with stones weighing from 10 to 15 tons- show a level of sophistication and artistic achievement unmatched until the rise of the great civilizations of the ancient world, Sumer, Egypt, and Babylon. Chronicling his travels to Göbekli Tepe and surrounding sites, Andrew Collins details the layout, architecture, and exquisite relief carvings of ice age animals and human forms found at this 12,000-year-old megalithic complex, now recognized as the oldest stone architecture in the world. He explores how it was built as a reaction to a global cataclysm--the Great Flood in the Bible--and explains how it served as a gateway and map to the sky-world, the place of first creation, reached via a bright star in the constellation of Cygnus. He reveals those behind its construction as the Watchers of the Book of Enoch and the Anunnaki gods of Sumerian tradition. Unveiling Göbekli Tepe's foundational role in the rise of civilization, Collins shows how it is connected to humanity's creation in the Garden of Eden and the secrets Adam passed to his son Seth, the founder of an angelic race called the Sethites. In his search for Adam's legendary Cave of Treasures, the author discovers the Garden of Eden and the remains of the Tree of Life--in the same sacred region where Göbekli Tepe is being uncovered today.

NASA research of Earth-Moon mechanics by astrophysicist Robert Newton leads mathematicians of MSU to a breakthrough in the chronology of world history and Central Asia. The Issue With Tamerlane reports to the sceptic reader that oversized Tamerlane character reflects actually deeds and traits of two distinct persons. Moreover, not a drop of alleged Genghis blood in neither of them. Tamerlane the Ultimate Warrior was fallacious German collation of Timur Aksak the Iron Cripple of the end of 14th century and Mehmet (Mohammed) II who took Constantinople in 1453 A.D. Timur have allegedly crushed into smithereens Central Asia and Mehmet Byzantine. Too bad, Dr. Fomenko et al. found that the "Tamerlane" myth was injected into Russian history by German historians imported to Russia by Czar Peter I. This book contains enough solid evidence to silence any historian by the sheer power of facts and argumentation. Both Tamerlane ale and cocktail have red hues.

The word "horde" meant "armed people" in old Russian (cf. "order" in English, "ordre" in French, "Orden" in German). The protostate of "Horde from Pacific to Atlantic," or Great Tartary, was a true imbroglio of colonizations, wars, religions covering most of Eurasia in 12-16th centuries. The cathedrals, monuments, fortresses, relics, armours, swords, bibles, saints, warlords, artifacts, chronicles, maps and coins of the "Horde" abound but stay mostly misinterpreted. The European part of the Great Horde fell apart into English, French, German kingdoms in 14-16th centuries.

The ancient Egyptians have fascinated and enthralled millions down the centuries. With extensive scientific knowledge, splendid architecture, and many artistic and cultural achievements, their civilization stood apart as being ahead of its time. This compact and informative guide is perfect for all those studying ancient Egypt, visiting the sights, or curious to find out more about this fascinating period. Includes a wide range of topics such as geography, including how the Nile added to the success of their civilization; history, including a timeline spanning 3,000 years from 3100BC to 395AD and covering each dynastic period; religion, including the role of the gods and goddesses, and pharaohs, including Cheops, Nefertiti, and Tutankhamun. The section on life in ancient Egypt details the different levels in society, the jobs, family life, and leisure activities. Learning and knowledge are covered, focusing on the hieroglyphs and the scribes. The armies, weapons, and armor are discussed in the section on death in ancient Egypt. Lastly, contemporary Egypt is discussed, including archaeology, discoveries, and what a visit is like today.

NASA research of Earth-Moon mechanics by astrophysicist Robert Newton leads mathematicians of Moscow State University to a breakthrough in the chronology of civilization and China. The Issue With Chinese Astronomy is that it just cannot serve anymore as solid foundation of "ancient" Chinese history. It looks like "ancient" China is a misunderstanding at best. There are many preconceptions concerning the history of China. It is presumed to be exceptionally ancient, a lot more so than European history, and its datings are said to be perfectly reliable. The basics of Chinese chronology are believed to be so firm that it serves as a classical example of an indubitably ancient and reliable chronology. The authors give a brief description of the real situation with Chinese history and chronology as opposed to whatever is advertised. The authors are far from claiming that their reconstruction is complete. The work on the reconstruction of Chinese history has only just begun.

NASA research of Earth-Moon mechanics by astrophysicist Robert Newton leads mathematicians of MSU to a breakthrough in the chronology of civilization. Astronomy Vs. History dissects every historical age and analyses the data from every source imaginable ??" Greek and Egyptian chronology take a good beating, and it goes rapidly downhill from there. Almagest that is supposed to have been written in the 2nd century A.D. by Ptolemy dates to 16th century; Tycho Brahe, Ptolemy and Copernicus take the blame for taking part in creation of the legend of a mythical Classical Age that never was and misdating medieval events as very ancient ones. In Astronomy Vs. History we are reminded of the crucial role of eclipses in verifying the dating of major historical events, of stone Zodiacs containing the true dates of such events. Our perception of history begins to change dramatically even before we're through with Astronomy Vs. History.

The clearest, most accessible guide to observing the night sky. Introducing the Handbook of Stars and Planets - the perfect beginner's guide to the night sky! With a highly visual introduction that explains the basic concepts of astronomy and gives advice on the best methods and equipment for observation, including binoculars and telescopes, exploring the cosmos and more has never been easier or more accessible. Each of the planets in the Solar System is described and illustrated in detail, with images taken from space probes as well as from the ground, showing them as you can expect to see them. More than 160 star charts were made especially for this book by the Royal Greenwich Observatory. There is a separate detailed chart for each of the 88 constellations, adding up to a complete atlas of the sky. The text for each constellation reveals its history and mythology and lists notable stars, galaxies, nebulae, and other objects. Alongside the constellation profiles is a month-by-month guide, including a set of charts and a user-friendly text guide that picks out the highlights above your head each month. Soar into the pages of this awe-inspiring astronomy book to explore: - Introduction section provides an accessible primer on the basics of astronomy and skywatching - Equipment section includes a guide to the main kinds of binoculars, telescopes, and camera equipment - Practical advice also includes observing the sky with the naked eye - Profiles of planets and constellations include color-coded data tables, delivering fast facts for quick reference - Accessible text explains concepts clearly and guides the reader from beginner to intermediate-level astronomer This newly updated guide to the Solar System includes new discoveries, revised data, and the latest images from space probes! The revisions to constellation and monthly sky guides include new data on stars and other objects such as galaxies, as well as a refreshed guide to binoculars, telescopes, and cameras. Complete with jargon-free text written by one of the foremost popularizers of astronomy and an authority on the history of constellations, the DK Handbook of Stars and Planets is the perfect introduction to stargazing! So whether you're a budding astronomer or an intermediate space savvy, this great guide to the night sky is suitable for children aged 12+ and adults alike, and promises something for everyone to explore, discover and love!

NASA research of Earth-Moon mechanics by astrophysicist Robert Newton leads mathematicians of MSU to a breakthrough in the chronology of Apocalypse. The astronomical aspect of the Apocalypse stayed hidden for centuries. The Apocalypse as Seen by Astronomy has resurrected the astrological, i.e. astronomical ideas contained in the Apocalypse and extracted from it the precise date of its composition on the Isle of Patmos! St. Augustin was quite right saying, "Beware of mathematicians, especially when they speak the truth!" The only moment on the time axis when the constellations of the night sky visible from the Isle of Patmos correspond to the verbal Zodiac contained in the Revelation date to October 1486 A.D. and not to 56 A.D.! The Apocalypse text was provided to Erasmus by Johannes Reuchlin, his predecessor, founder of hebraism and master astrologist.

NASA research of Earth-Moon mechanics by astrophysicist Robert Newton leads mathematicians of MSU to a breakthrough in the chronology of Russia and world history. The Issue With Czar's Helmet from the e-series History: Fiction or Science? asks why the armour of Russian warlords of 14-16th centuries was all covered with Arabic inscriptions from Quran they could not possibly read. Or could they? Russian Czars Alexander Nevsky and Ivan the Terrible wore helmets with Arabic inscriptions. Were the thousands of helmets, swords, sabres, shields, armours with Arabic inscriptions kept in Armoury of Kremlin the rich spoils of war with Arabs, Turks, or presents of their ambassadors to Russian Czars? No, they are neither the spoils of war of victorious Russian Horde troops nor the presents from subjugated kingdoms and princes. They all were made in Russia by Russian craftsmen of 14th-17th centuries.

Non-fiction Biography / history Ireland - War of Independence/Civil War Description: An in-depth study of the death of Michael Collins, hero of the 1916 Easter Rising, and leader of Ireland's War of Independence. This book offers a startling new perspective on one of history's most notorious unsolved mysteries: his fatal shooting in 1922, while Commander-in-Chief of newly-independent Ireland. Its controversial reconstruction of events at Beal na mBlath may be shocking to some: yet demonstrably fits the known facts and eyewitness accounts. This is the first book on this famous "cold case" in decades; carrying on where John Feehan's landmark edition of 1991 left off. It presents the most complete overview of the evidence ever published; as well as an itemized catalogue of the various witnesses' mutual contradictions and corroborations."

NASA research of Earth-Moon mechanics by astrophysicist Robert Newton leads mathematicians of MSU to a breakthrough in the chronology of the world history and Eurasia. The Great or Russian Tartary was, according to Encyclopaedia Britannica's 1771 edition, the biggest state in the world! Dr Fomenko et al. found that: a) there was no such thing as the Tartar and Mongol invasion followed by three centuries of Tartar yoke; b) the so-called "Tartars and Mongols" were the actual ancestors of modern Russians, living in a bilingual state with Arabic spoken as Russian; c) the ancient Russian state was governed by a double structure of civil and military authorities; d) the Horde in old Russian ("Ordre" in French, "Order" in English, "Orden" in German) meant "military state"; e) "invasions" were punitive operations against the regions that attempted tax evasion. This enormous state has disappeared without a trace from all subsequent editions of Britannica. USSR follows suite.

NASA research of Earth-Moon mechanics by astrophysicist Robert Newton leads mathematicians of MSU to a breakthrough in the chronology of the civilization. Crusades and Exoduses disentangles the imbroglio of empires, kingdoms, religious wars, dynasties, battles in Eurasia from the point of view of New Chronology theory. Parallels with events in Europe and Middle East are quite abundant. We are being told that after some 1000 years of sound sleep Europeans suddenly woke up as Christians to the hilt, armed themselves, and started touring-crusading Middle East during 200 years to punish at last tormentors of Jesus, searching for the Saint Sepulcher, Grails, spears, and finished their tour with a bang by sacking Constantinople allegedly in 1204 A.D. Local populations became Muslims, crusaded back and built a Caliphate that span from Arabia to Morocco and North Africa. Was it really so?

NASA research of Earth-Moon mechanics by astrophysicist Robert Newton leads mathematicians of MSU to a breakthrough in the chronology of world history and Europe. It is common knowledge that the Classical Age was followed by many centuries of utter stagnation and decline with virtually nothing happening but wars and famine and the destruction of the priceless ancient monuments. Then, during the Renaissance, the classical authors reappear from oblivion, Latin and Greek become resurrected as the intelligentsia Esperanto of the Middle Ages, numerous manuscripts reappear from oblivion to be copied, enter wide circulation, and vanish again, never to be found. How preposterous would it be to suggest that there were no Dark Ages to separate the antiquity from the Renaissance and that the "Re-Naissance" was in fact the Naissance of the Western European culture as we know it?

From theatre to politics, no other single civilisation has influenced the Western world more profoundly than that of ancient Greece.

NASA research of Earth-Moon mechanics by astrophysicist Robert Newton leads mathematicians of MSU to a breakthrough in the chronology of civilization and its history. Maps and Coins Vs. History shows you that scores of maps and hoards of coins contradict consensual world history and chronology. Maps and Coins Vs. History questions the numismatics per se. Dr. Fomenko et al. take a close look at maps of 14-18th centuries that confirm the theory of the New Chronology and point to existence of an Empire present nearly over all of Eurasia. They analyze the spread all over Europe of hoards of coins, they note numerous peculiarities like coins of kings and princes minted with Arab and Turkic inscriptions. Why neither the coins, nor maps prior to the 15th century match the consensual history and chronology?

How the ancient world's greatest general fell in love with its greatest queen and sired its greatest empir In his new book, military historian Stephen Dando-Collins turns to one of the most celebrated chapters of ancient Roman history—Julius Caesar’s sojourn in Egypt and his love affair with 21-year-old Queen Cleopatra. He shows how Caesar’s force of less than 4,000 Romans, led by the 900 battle-tested veterans of the Sixth Legion, was able to kidnap the Egyptian royal family, the Egyptian rebels and consolidate Caesar’s rule over the Roman world. Filled with vivid battle scenes as well as intriguing details about Caesar and Cleopatra’s liaison, this latest installment in Dando-Collins’s chronicles of the Roman legions is a rare treat for ancient history buffs. Stephen Dando-Collins is the author of two previous military histories of Rome, Caesar’s Legion (paper: 0-471-68613-1; cloth: 0-471-09570-2) and Nero’s Killing Machine (0-471-67501-6)
