Do you want to make sure you · Don't invest your money in the next Enron? · Don't go to work for the next WorldCom right before the crash? · Identify and solve problems in your organization before they send it crashing to the ground? Marianne Jennings has spent a lifetime studying business ethics---and ethical failures. In demand nationwide as a speaker and analyst on business ethics, she takes her decades of findings and shows us in The Seven Signs of Ethical Collapse the reasons that companies and nonprofits undergo ethical collapse, including: · Pressure to maintain numbers · Fear and silence · Young 'uns and a larger-than-life CEO · A weak board · Conflicts · Innovation like no other · Belief that goodness in some areas atones for wrongdoing in others Don't watch the next accounting disaster take your hard-earned savings, or accept the perfect job only to find out your boss is cooking the books. If you're just interested in understanding the (not-so) ethical underpinnings of business today, The Seven Signs of Ethical Collapse is both a must-have tool and a fascinating window into today's business world.

Pete Griffow is the last person anyone would suspect of being a porn star. He's quiet, gawky, and can't even talk to guys without turning red. But on camera, he's a different person. In the porn world, he's Jaden Prime, a coquettish power bottom who's been tantalizing fans for over a year now. When Pete is given the opportunity to star in a huge summer production, sparks fly between him and his costar, Kyle Darko. Kyle is Pete's opposite: he's daring, achingly sexy, and in love with the sex industry. Their chemistry is palpable on and off screen, but dating on a porn set is tricky. Even pros struggle to separate fantasy from reality, especially with a script dictating their seduction. But what's building between them can't be ignored, and it's so much more than getting some "action."

*This Hugo Award finalist, “justifiably regarded as a classic” (SFReviews.net), is the tale of an epic space voyage where time dilation goes horribly wrong. Aboard the spacecraft Leonora Christine, fifty crewmembers, half men and half women, have embarked on a journey of discovery like no other to a planet thirty light-years away. Since their ship is not capable of traveling faster than light, the crew will be subject to the effects of time dilation and relativity. They will age five years on board the ship before reaching their destination, but thirty-three years will pass on Earth. Experienced scientists and researchers, they have come to terms with the time conditions of their space travel. Until . . . the Leonora Christine passes through an uncharted nebula, which damages the engine, making it impossible to decelerate the ship on the second half of their trip. To survive, the crewmembers have no choice but to bypass their destination and continue to accelerate toward the speed of light. But how will they keep hope alive and maintain order as they hurtle deeper into space with time passing more and more rapidly, and their ultimate fate unknown? With its combination of mind-blowing hard science and compelling human drama, Tau Zero is “the ultimate hard science novel!” (Mike Resnick).*

"Highly literate and entirely engrossing. One of the year's best literary thrillers." —The Washington Post It's twenty years since police detective Alan McAlpine has set foot in Patrickhill Station—and more than twenty years since he fell forever in love with the mute, faceless woman he called Anna as she lay dying in Glasgow's Western Infirmary. Daily he'd watched over her, and they had begun to communicate with each other, she by moving her wounded fingers. Her fingers could not tell the sad, unseasoned police cadet her name, however, or name for him the father of her newborn baby girl or identify the assailants who had flung the acid in her once incomparably beautiful face. Or tell him how she'd smuggled a cache of uncut diamonds into Scotland. Now McAlpine is back in Patrickhill, where he's been summoned to head up the investigation of a disturbing murder case. Two women—their arms outstretched, their legs together and feet crossed at the ankle—have already died at the hands of a man the press has tagged the Crucifixion Killer. With crimes in the present continually detouring both McAlpine and the elusive killer he pursues into an unredeemed past, the mystery in this steely, piercing psychological thriller is as gripping as its twists are surprising. And absolution proves to be extreme. Praise for CARO RAMSAY "While fellow-Scot Ian Rankin's narrative is unruly, Ramsay's is stately. It works because the story she tells is highly literate and entirely engrossing. McAlpine's passion leads the novel to a conclusion as powerful as it is unexpected. Absolution is among the year's best literary thrillers."—Patrick Anderson, The Washington Post "Let me recommend a first novel by Caro Ramsay, a Scottish author who is able to write scenes of heartbreaking tenderness nestled amid evocations of such grotesque violence that it is difficult to imagine that they can coexist as such sublime interlocking pieces of the whole. A noir police novel, like those by fellow Scottish author Ian Rankin, but with deeper psychological exploration. Absolution marks the beginning of what certainly will be a major career."—Otto Penzler, New York Sun

Business Law: Text & Cases - Commercial Law for Accountants

The Routledge Companion to Qualitative Accounting Research Methods

How to Spot Moral Meltdowns in Companies... Before It's Too Late

Upon its publication in 1963, Corley's Legal Environment of Business was the first and only business law textbook to emphasize public rather than private law, government regulation of business rather than contracts, and legal relationships rather than business transactions. A major innovation, it established a new course that the authors termed the legal environment of business. Over the years others have attempted to attain the success and stature of The Legal and Regulatory Environment of Business, but none has been able to match its timely, innovative coverage. Substantially updated, the 10th edition continues the text's reputation for ethics, authority and coverage of current areas of importance to business.

“This is the 18th Edition (and the 24th overall edition) of a business law text that first appeared in 1935. Throughout its more than 80 years of existence, this book has been a leader and an innovator in the fields of business law and the legal environment of business. One reason for the book’s success is its clear and comprehensive treatment of the standard topics that form the traditional business law curriculum. Another reason is its responsiveness to changes in these traditional subjects and to new views about that curriculum. In 1976, this textbook was the first to inject regulatory materials into a business law textbook, defining the “legal environment” approach to business law. Over the years, this textbook has also pioneered by introducing materials on business ethics, corporate social responsibility, global legal issues, and the law of an increasingly digital world. The 18th Edition continues to emphasize change by integrating these four areas into its pedagogy”--

Virtually everyone supports religious liberty, and virtually everyone opposes discrimination. But how do we handle the hard questions that arise when exercises of religious liberty seem to discriminate unjustly? How do we promote the common good while respecting conscience in a diverse society? This point-counterpoint book brings together leading voices in the culture wars to debate such questions: John Corvino, a longtime LGBT-rights advocate, opposite Ryan T. Anderson and Sherif Girgis, prominent young social conservatives. Many such questions have arisen in response to same-sex marriage: How should we treat county clerks who do not wish to authorize such marriages, for example; or bakers, florists, and photographers who do not wish to provide same-sex wedding services? But the conflicts extend well beyond the LGBT rights arena. How should we treat hospitals, schools, and adoption agencies that can’t in conscience follow antidiscrimination laws, healthcare mandates, and other regulations? Should corporations ever get exemptions? Should public officials? Should we keep controversial laws like the Religious Freedom Restoration Act, or pass new ones like the First Amendment Defense Act? Should the law give religion and conscience special protection at all, and if so, why? What counts as discrimination, and when is it unjust? What kinds of material and dignitary harms should the law try to fight-and what is dignitary harm, anyway? Beyond the law, how should we treat religious beliefs and practices we find mistaken or even oppressive? Should we tolerate them or actively discourage them? In point-counterpoint format, Corvino, Anderson and Girgis explore these questions and more. Although their differences run deep, they tackle them with civility, clarity, and flair. Their debate is an essential contribution to contemporary discussions about why religious liberty matters and what respecting it requires.
