**History Of England**

This book covers the emergence of the earliest English kingdoms to the establishment of the Anglo-Norman monarchy in 1087.

Professor Stenton examines the development of English society, describes the chief phases in the history of the Anglo-Saxon Church, and studies the unification of Britain begun by the kings of Mercia, and completed by the kings of Wessex. The result is a fascinating insight into this

## Access Free Anglo Saxon England Reissue With A New Cover Oxford History Of England

period of English history.

The discovery of the Staffordshire Hoard in 2009 has captured the imagination and stimulated renewed interest in the history and culture of the Anglo-Saxons. The discovery poses some interesting questions. Who owned the treasure and how did they acquire it? Was it made locally or did it originate elsewhere? Why was it buried in an obscure field in the Staffordshire countryside? To answer these questions, Martin Wall takes us on a journey into a period that still remains mysterious, into regions and countries long forgotten, such as Mercia and Northumbria. This is

England

a story of the Dark Ages and the people who lived in them, but darkness is in the eye of the beholder. This book challenges our notions of these times as barbaric and backward to reveal a civilization as complex, sophisticated and diverse as our own."

Anglo-Saxon England Oxford  
Paperbacks

This book is a comprehensive study of political thought at the court of King Alfred the Great (871–99). It explains the extraordinary burst of royal learned activity focused on inventive translations from Latin into Old English attributed to Alfred's own authorship. A full

England

exploration of context establishes these texts as part of a single discourse which placed Alfred himself at the heart of all rightful power and authority. A major theme is the relevance of Frankish and other European experiences, as sources of expertise and shared concerns, and for important contrasts with Alfredian thought and behaviour. Part I assesses Alfred's rule against West Saxon structures, showing the centrality of the royal household in the operation of power. Part II offers an intimate analysis of the royal texts, developing far-reaching implications for Alfredian kingship, communication and

lost calendar from Munich; Alfred's epistemological metaphors: eagan modes and scip modes; Bibliography for 2005.

This groundbreaking study of coinage in early medieval England is the first to take account of the very significant additions to the corpus of southern English coins discovered in recent years and to situate this evidence within the wider historical context of Anglo-Saxon England and its continental neighbours. Its nine chapters integrate historical and numismatic research to explore who made early medieval coinage, who used it and why. The currency emerges as a significant resource accessible across society and, through

## Access Free Anglo Saxon England Reissue With A New Cover Oxford History Of England

analysis of its production, circulation and use, the author shows that control over coinage could be a major asset. This control was guided as much by ideology as by economics and embraced several levels of power, from kings down to individual craftsmen. Thematic in approach, this innovative book offers an engaging, wide-ranging account of Anglo-Saxon coinage as a unique and revealing gauge for the interaction of society, economy and government. Latin books are among the most numerous surviving artifacts of the Late Antique, Mediaeval, and Renaissance periods in European history; written in a variety of formats and scripts, they preserve the literary,

Access Free Anglo Saxon  
England Reissue With A New  
Cover Oxford History Of  
England

philosophical, scientific, and religious heritage of the West. The Oxford Handbook of Latin Palaeography surveys these books, with special emphasis on the variety of scripts in which they were written.

Palaeography, in the strictest sense, examines how the changing styles of script and the fluctuating shapes of individual letters allow the date and the place of production of books to be determined. More broadly conceived, palaeography examines the totality of early book production, ownership, dissemination, and use. The Oxford Handbook of Latin Palaeography includes essays on major types of script (Uncial, Insular, Beneventan, Visigothic, Gothic, etc.), describing

## Access Free Anglo Saxon England Reissue With A New Cover Oxford History Of England

what defines these distinct script types, and outlining when and where they were used. It expands on previous handbooks of the subject by incorporating select essays on less well-studied periods and regions, in particular late mediaeval Eastern Europe. The Oxford Handbook of Latin Palaeography is also distinguished from prior handbooks by its extensive focus on codicology and on the cultural settings and contexts of mediaeval books. Essays treat of various important features, formats, styles, and genres of mediaeval books, and of representative mediaeval libraries as intellectual centers. Additional studies explore questions of orality and the

## Access Free Anglo Saxon England Reissue With A New Cover Oxford History Of England

written word, the book trade, glossing and glossaries, and manuscript cataloguing. The extensive plates and figures in the volume will provide readers with clear illustrations of the major points, and the succinct bibliographies in each essay will direct them to more detailed works in the field.

Anglo-Saxon lexicography studies Latin texts and words. The earliest English lexicographers are largely unidentifiable students, teachers, scholars and missionaries. Materials brought from abroad by early teachers were augmented by their teachings and passed on by their students. Lexicographical material deriving from the early Canterbury school

Access Free Anglo Saxon  
England Reissue With A New  
Cover Oxford History Of  
England

remains traceable in glossaries throughout this period, but new material was constantly added.

Aldhelm and Ælfric Bata, among others, wrote popular, much studied hermeneutic texts using rare, exotic words, often derived from glossaries, which then contributed to other glossaries. Ælfric of Eynsham is a rare identifiable early English lexicographer, unusual in his lack of interest in hermeneutic vocabulary. The focus is largely on context and the process of creation and intended use of glosses and glossaries. Several articles examine intellectual centres where scholars and texts came together, for example, Theodore and Hadrian in Canterbury; Aldhelm in

## Access Free Anglo Saxon England Reissue With A New Cover Oxford History Of England

Saxon England depict individuals as responsible agents in the assumption and performance of religious identities. To modern eyes, however, many of the 'choices' they make would actually appear to be compulsory. *Stealing Obedience* explores how a Christian notion of agent action – where freedom incurs responsibility – was a component of identity in the last hundred years of Anglo-Saxon England, and investigates where agency (in the modern sense) might be sought in these narratives. Katherine O'Brien O'Keeffe looks at Benedictine monasticism through the writings of Ælfric, Anselm, Osbern of Canterbury, and Goscelin of Saint-Bertin, as well as liturgy, canon and civil law, chronicle, dialogue, and hagiography, to analyse the practice of obedience in the monastic context.

## Access Free Anglo Saxon England Reissue With A New Cover Oxford History Of England

Stealing Obedience brings a highly original approach to the study of Anglo-Saxon narratives of obedience in the adoption of religious identity.

Bringing together scholarship on multilingual and intercultural medieval Britain like never before, The Encyclopedia of Medieval Literature in Britain comprises over 600 authoritative entries spanning key figures, contexts and influences in the literatures of Britain from the fifth to the sixteenth centuries. A uniquely multilingual and intercultural approach reflecting the latest scholarship, covering the entire medieval period and the full tapestry of literary languages comprises over 600 authoritative yet accessible entries on key figures, texts, critical debates, methodologies, cultural and isitroical contexts, and related terminology

The Culture of Translation in Anglo-Saxon England

The Property of a Gentleman Residing in the North of England (Classic Reprint)

Taking a similar approach to his successful *If Rome Hadn't Fallen*, Timothy Venning explores the various decision points in a fascinating period of British history and the alternative paths that it might have taken. Dr. Timothy Venning starts within an outline of the process by which much of Britain came to be settled by Germanic tribes after the end of Roman rule, as far as it can be determined from the sparse and fragmentary sources. He then moves on to discuss a series of scenarios, which might have altered the course of

## Access Free Anglo Saxon England Reissue With A New Cover Oxford History Of

subsequent history dramatically. For example, was a reconquest by the native British ever a possibility (under 'Arthur' or someone else)? Which of the Anglo-Saxon kingdoms might have united England sooner and would this have kept the Danes out? And, of course, what if Harold Godwinson had won at Hastings? While necessarily speculative, all the scenarios are discussed within the framework of a deep understanding of the major driving forces, tensions and trends that shaped British history and help to shed light upon them. In so doing they help the reader to understand why things panned out as they did, as well as what might have been.

Anglo-Saxon England is the only

*What did it mean to keep a*

**secret in early medieval  
England? It was a period  
during which the experience  
of secrecy was intensely  
bound to the belief that God  
knew all human secrets, yet  
the secrets of God remained  
unknowable to human beings.  
In Bonds of Secrecy, Benjamin  
A. Saltzman argues that this  
double-edged conception of  
secrecy and divinity  
profoundly affected the way  
believers acted and thought  
as subjects under the law, as  
the devout within  
monasteries, and as readers  
before books. One crucial way  
it did so was by forming an  
ethical relationship between  
the self and the world that  
was fundamentally different**

Access Free Anglo Saxon  
England Reissue With A New  
Cover Oxford History Of  
England

**from its modern reflex.**

**Whereas today the bearers of secrets might be judged for the consequences of their reticence or disclosure, Saltzman observes, in the early Middle Ages a person attempting to conceal a secret was judged for believing he or she could conceal it from God. In other words, to attempt to hide from God was to become ensnared in a serious sin, but to hide from the world while deliberately and humbly submitting to God's constant observation was often a hallmark of spiritual virtue. Looking to law codes and religious architecture, hagiographies and riddles,**

***Bonds of Secrecy shows how legal and monastic institutions harnessed the pervasive and complex belief in God's omniscience to produce an intense culture of scrutiny and a radical ethics of secrecy founded on the individual's belief that nothing could be hidden from God. According to Saltzman, this ethics of secrecy not only informed early medieval notions of mental activity and ideas about the mind but also profoundly shaped the practices of literary interpretation in ways that can inform our own contemporary approaches to reading texts from the past. Ecclesiastical History of***

Since its founding in 1943, Medievalia et Humanistica has won worldwide recognition as the first scholarly publication in America to devote itself entirely to medieval and Renaissance studies. Since 1970, a new series, sponsored by the Modern Language Association of America and edited by an international board of distinguished scholars and

critics, has published interdisciplinary articles. In yearly hardbound volumes, the new series publishes significant scholarship, criticism, and reviews treating all facets of medieval and Renaissance culture: history, art, literature, music, science, law, economics, and philosophy. Volume thirty-one in the new series contains six original and refereed articles that represent a reengagement with history. They focus on a variety of topics, ranging from reception theory in Andreas Capellanus and the ideal sovereign in Christine de Pizan to peasant rebel

leaders in late-medieval and early-modern Europe. Don Monson's article makes good usage of Jauss's reception theory and analyzes the third Dialogue of Book I, Chapter 6 of De Amore in a thorough and intelligent way. Important aspects of the relationship between "scientific" Latin treaties and Provençal courtly poetry are neatly demonstrated. Karen Gross examines structural and thematic resemblances between the Aeneid and De Casibus, arguing that Anchises' "pageant of future Roman worthies" (Aen. VI) is connected to the frame structure of De casibus. The

author is interested in "global similarities, not local verbal echoes," and believes that the "structure resonances" have implications for "how Boccaccio understood the interaction between history and poetry, between the living and the dead." Especially thought-provoking and original are the discussion of the motif of father/son piety and commemoration and the contrast of Virgil's fortuna in Roman history and Boccaccio's in world history. Daisy Delogu's article on Christine de Pizan is a timely one, and also represents reengagement
