Winner of the Whitbread Biography Award: A “profoundly moving [and] definitive” portrait of George Orwell, author of 1984 and larger-than-life literary genius (The Daily Telegraph). It was not easy to bury George Orwell. After a lifetime of iconoclasm, during which he professed no interest in religion and no affiliation with any church, he asked to be buried in an Anglican churchyard—but none would have him. Orwell’s friends fought for him to have a proper grave, however, and the author of 1984, Animal

Farm, and Homage to Catalonia, among other brilliant works of prose, poetry, and journalism, was laid to rest in a quiet country cemetery. Almost immediately, his legacy was in dispute. Orwell did not want any biographies written of him, but that has not stopped scholars from trying. Of all those published since the author's death in 1950, D. J. Taylor's prize-winning book is considered the most definitive. Born in India, Orwell spent his forty-six years of life traveling the British Empire and confronting the world head on. From the trenches of Spain to the top of bestseller lists, Taylor presents Orwell fully—as a writer, social critic, and human being.

American culture that “hits with the approximate force and effect of electroshock therapy” (The New York Times)—now featuring a new afterword by Andrew Ferguson in a twenty-fifth anniversary edition. In 1987, eminent political philosopher Allan Bloom published *The Closing of the American Mind*, an appraisal of contemporary America that “hits with the approximate force and effect of electroshock therapy” (The New York Times) and has not only been vindicated, but has also become more urgent today. In clear, spirited prose, Bloom argues that the social and political crises of contemporary America are part of a larger intellectual crisis: the result of a dangerous narrowing of curiosity

In *Salmon Wars*, investigative journalists Douglas Frantz and Catherine Collins bring readers to massive ocean feedlots where millions of salmon are crammed into parasite-plagued cages and fed a chemical-laced diet. The authors reveal the conditions inside hatcheries, where young salmon are treated like garbage, and at the farms that threaten our fragile coasts.

They draw colorful portraits of characters, such as the big salmon farmer who poisoned his own backyard, the fly-fishing activist who risked everything to ban salmon farms in Puget Sound, and the American researcher driven out of Norway for raising the alarm about dangerous contaminants in the fish. Frantz and Collins document how the industrialization of Atlantic salmon threatens this keystone species, endangers our health and environment,

When William Blackwood, George Eliot's publisher, first saw the manuscript of Felix Holt in 1866 he could not contain his enthusiasm; in a letter to a friend he described the novel as "a perfect marvel. The time is 1832 just after the passing of the Reform Bill, and surely such a...series of pictures of English Life, manners, and conversation never was drawn. You see and

hear the people speaking. Every individual character stands out a distinct figure." A political radical and a child of the working class, Felix has lost faith in a political system in which candidates never represent the interests of the working class. Harold Transome, the cynical son of wealthy Tory landowners, embraces radical politics for very different reasons. Both Harold and Felix vie for the affections of Esther Lyon, and she must weigh her feelings for them with the social and material goals she has set for herself. Their personal drama unfolds against the broad canvas of social and political

upheaval of 1830s England. This edition is based on the text of the first edition of the novel published in three volumes in 1866, and includes a full introduction, a wide range of appendices including reviews, as well as Eliot's "Address to Working Men, by Felix Holt"; "The Legal Plot of Felix Holt"; and a chronology of Eliot's life and career.

Set in 1830s England, Felix Holt tells the story of proud and sensitive Esther Lyon, who dreams of a life of refinement and must choose between wealthy Harold Transome and idealistic reformer Felix Holt.

Rather than sink into tragedy, they choose to gather to raise their spirits and money. "To despair was to wish back for something already lost. Or to prolong what was already unbearable." Forty years later the stories and history continue. With wit and sensitivity, Amy Tan examines the sometimes painful, often tender, and always deep connection between mothers and daughters. As each woman reveals her secrets,

Mothers boast or despair over daughters, and daughters roll their eyes even as they feel the inextricable tightening of their matriarchal ties. of life on this earth" and "How any animal is now living". The author has nicely elaborated through these Characters about the animals' misery and slavery. Animals complain that despite their hard labour, why then do they continue in the miserable condition? They also complain about human beings that they use to steal nearly the whole of their produce. Their main enemy is - Man. So, remove Man from the scene and the root cause of hunger and overwork will be abolished for ever. The book narrates about the agony of ill-treated farm animals. Then what decision they take and how this Animal Farm born, everything has become very interesting. The ultimate satire on fascism. A must-read book. Her maps of the ocean floor have been called "one of the most remarkable achievements in modern cartography", yet no one knows her name. Soundings is the story of the enigmatic, unknown woman behind one of the greatest achievements of the 20th century. Before Marie Tharp, geologist and gifted draftsman, the whole world, including most of the scientific community, thought the ocean floor was a vast expanse of

nothingness. In 1948, at age 28, Marie walked into the newly formed geophysical lab at Columbia University and practically demanded a job. The scientists at the lab were all male; the women who worked there were relegated to secretary or assistant. Through sheer willpower and obstinacy, Marie was given the job of interpreting the soundings (records of sonar pings measuring the ocean's depths) brought back from the ocean-going expeditions of her male colleagues. The marriage of artistry and science behind her analysis of this dry data gave birth to a major work: the first comprehensive map of the ocean floor, which laid the groundwork for proving the then-controversial theory of continental drift. When combined, Marie's scientific knowledge, her eye for detail

and her skill as an artist revealed not a vast empty plane, but an entire world of mountains and volcanoes, ridges and rifts, and a gateway to the past that allowed scientists the means to imagine how the continents and the oceans had been created over time. Just as Marie dedicated more than twenty years of her professional life to what became the Lamont Geological Observatory, engaged in the task of mapping every ocean on Earth, she dedicated her personal life to her great friendship with her co-worker, Bruce Heezen. Partners in work and in many ways, partners in life, Marie and Bruce were devoted to one another as they rose to greater and greater prominence in the scientific community, only to be envied and finally dismissed by their beloved institute.

They went on together, refining and perfecting their work and contributing not only to humanity's vision of the ocean floor, but to the way subsequent generations would view the Earth as a whole. With an imagination as intuitive as Marie's, brilliant young writer Hali Felt brings to vivid life the story of the pioneering scientist whose work became the basis for the work of others scientists for generations to come.

A Novel

From national bestselling author Nick McDonell, *The Council of Animals* is a captivating fable for humans of all ages—dreamers and cynics alike—who believe (if nothing else) in the power of timeless storytelling. “‘Now,’ continued the cat, ‘there is nothing more difficult than changing an animal’s mind. But I will say, in case I can change yours: humans are more useful to us outside our bellies than in.’” Perhaps. After *The Calamity*, the animals thought the humans had managed to do themselves in. But, it turns out, a few are cowering in makeshift villages. So the

animals—among them a cat, a dog, a crow, a baboon, a horse, and a bear—have convened to debate whether to help the last human stragglers . . . or to eat them. Rest assured, there is a happy ending. Sort of. Featuring illustrations by Steven Tabbutt
Set in the waning days of the British Empire in Burma (currently Myanmar), Burmese Days is a moving and insightful story of colonial life where socio-economic divisions are strictly upheld and corruption is rife within the local administration. An Indian, Dr. Veraswami has incurred the enmity of U Po Kyin, the local magistrate, and only membership in the white-only Club will protect him. John Flory, a

The first of George Orwell's novels, Burmese Days is based on Orwell's observations and experiences as a policeman in Burma in the 1920s, and explores such themes as imperialism and racism. First published in 1934, Burmese Days received a mixed reaction from the press, simultaneously lauded and criticized for its unflinching portrayal of colonial life. Science and Philosophy 8. The Mad Lover About the Book: The Most Dangerous Game, also published as The Hounds of Zaroff, is a short story by Richard Connell first published in Collier's magazine on January 19, 1924. It features a big-game hunter from New York who falls off a yacht and swims to an isolated island in the Caribbean where he is hunted by a Cossack aristocrat. The story is an adaptation of the big-game hunting safaris in Africa and South America that were fashionable among wealthy Americans in the 1920s. Big-game hunter Sanger Rainsford and his friend, Whitney, are traveling to the Amazon rainforest for a jaguar hunt. After a discussion about how they are "the hunters" instead of "the hunted," Whitney goes to bed and Rainsford hears gunshots. He climbs

onto the yacht's rail and accidentally falls overboard, swimming to Ship-Trap Island, which is notorious for shipwrecks. On the island, he finds a palatial chateau inhabited by two Cossacks: the owner, General Zaroff, and his gigantic deaf-mute servant, Ivan. Zaroff, another big-game hunter, knows of Rainsford from his published account of hunting snow leopards in Tibet. Over dinner, the middle-aged Zaroff explains that although he has been hunting animals since he was a boy, he has decided that killing big-game has become boring for him, so after escaping the Russian Revolution he moved to Ship-Trap Island and set it up to trick ships into wrecking themselves on the jagged rocks that surround it. He takes the survivors captive and hunts them for sport, giving

them food, clothing, a knife, and a three-hour head start, and using only a small-caliber pistol for himself. Any captives who can elude Zaroff, Ivan, and a pack of hunting dogs for three days are set free. He reveals that he has won every hunt to date. Captives are offered a choice between being hunted or turned over to Ivan, who once served as official knouter for The Great White Czar. Rainsford denounces the hunt as barbarism, but Zaroff replies by claiming that "life is for the strong." Realizing he has no way out, Rainsford reluctantly agrees to be hunted. During his head start, Rainsford lays an intricate trail in the forest and then climbs a tree. Zaroff finds him easily, but decides to play with him as a cat would with a mouse, standing underneath the tree Rainsford is hiding in,

smoking a cigarette, and then abruptly departing. After the failed attempt at eluding Zaroff, Rainsford builds a Malay man-catcher, a weighted log attached to a trigger. This contraption injures Zaroff's shoulder, causing him to return home for the night, but he shouts his respect for the trap before departing. The next day Rainsford creates a Burmese tiger pit, which kills one of Zaroff's hounds. He sacrifices his knife and ties it to a sapling to make another trap, which kills Ivan when he stumbles into it. To escape Zaroff and his approaching hounds, Rainsford dives off a cliff into the sea; Zaroff, disappointed at Rainsford's apparent suicide, returns home. Zaroff smokes a pipe by his fireplace, but two issues keep him from the peace of mind: the difficulty of replacing Ivan and the uncertainty of

whether Rainsford perished in his dive. About the Author : Richard Edward Connell, Jr. was an American author and journalist, best known for his short story "The Most Dangerous Game." At Soul Fire Farm, author Leah Penniman co-created the Black and Latino Farmers Immersion (BLFI) program as a container for new farmers to share growing skills in a culturally relevant and supportive environment led by people of color. Farming While Black organizes and expands upon the curriculum of the BLFI to provide readers with a concise guide to all aspects of small-scale farming, from business planning to preserving the harvest. Throughout the chapters Penniman uplifts the wisdom of the African diasporic farmers and activists whose work informs the techniques described--from whole farm planning,

From the bestselling author of Eventide, The Tie That Binds is a powerfully eloquent tribute to the arduous demands of rural America, and of the tenacity of the human spirit. Colorado, January 1977. Eighty-year-old Edith Goodnough lies in a hospital bed, IV taped to the back of her hand, police officer at her door. She is charged with murder. The clues: a sack of chicken feed slit with a knife, a milky-eyed dog tied outdoors one cold afternoon. The motives: the brutal business of farming and a family code of ethics as unforgiving as the winter prairie itself. Here, Kent Haruf delivers the sweeping

tale of a woman of the American High Plains, as told by her neighbor, Sanders Roscoe. As Roscoe shares what he knows, Edith's tragedies unfold: a childhood of pre-dawn chores, a mother's death, a violence that leaves a father dependent on his children, forever enraged. Here is the story of a woman who sacrifices her happiness in the name of family--and then, in one gesture, reclaims her freedom.

preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.
