ABOUT THE TESTThe Advanced Placement Program is designed to allow high school students to pursue college-level studies while attending high school. The three-hour five-minute AP U.S. History exam is usually given to high school students who have completed a year's study in a college-level U.S. History course. The test results are then used to determine the awarding of course credit and/or advanced course placement in college. According to the College Board, students taking this exam are called upon to demonstrate systematic factual knowledge and bring to bear critical, persuasive analysis of the full sweep of U.S. history. This is why we make every effort to establish and build upon context for you, rather than encouraging rote memorization of disconnected facts. The AP U.S. History Exam is divided into two sections: 1) Multiple-Choice: This section is composed of 80 multiple-choice questions designed to gauge your ability to understand and analyze U.S. history from the Colonial period to the present. The majority of the questions, however, are based on 19th- and 20th-century history. This section tests factual

knowledge, scope of preparation, and knowledge-based analytical skills. You'll have 55 minutes to complete this section, which accounts for 50 percent of your final grade. 2) Free-Response: This section is composed of three essay questions designed to measure your ability to write coherent, intelligent, well-organized essays on historical topics. The essays require you to demonstrate mastery of historical interpretation and the ability to express views and knowledge in writing. The essays may relate documents to different areas, analyze common themes of different time periods, or compare individual and group experiences which reflect socioeconomic, racial, gender, and ethnic differences. Part A consists of a mandatory 15-minute reading period, followed by 45 minutes during which you must answer a document-based question (DBQ), which changes from year to year. In Part B the student chooses to answer on two of the topics that are given. You will have 70 minutes to write these essays. The free-response section counts for 50 percent of your final grade. These topics are broken down into thirds: - Political Institutions (1/3rd)- Social and Economic Change (1/3rd)- Behavior and Public Policy, Diplomacy and International Relations, Intellectual and Cultural Development (1/3rd) The time periods covered are as follows: - Pre-Colonial through 1789 (1/6th of exam)- 1790-1914 (1/2 of exam)- 1915-present (1/3rd of exam) ABOUT THE REVIEW SECTION This book begins with REA's concise yet thorough 230-page review of U.S. history designed to acquaint you with the exam's scope of coverage. Our review covers these topics and historical time periods: - The Colonial Period (1500-1763)- The American Revolution (1763-1787)-

The United States Constitution (1787-1789)- The New National (1789-1824)- Jacksonian Democracy and Westward Expansion (1824-1850)- Sectional Conflict and The Causes of the Civil War (1850-1860)- The Civil War and Reconstruction (1860-1877)- Industrialism, War, and the Progressive Era (1877-1912)- Wilson and World War I (1912-1920)- The Roaring Twenties and Economic Collapse (1920-1929)- The Great Depression and the New Deal (1929-1941)- World War II and the Post-War Era (1941-1960)- The New Frontier, Vietnam, and Social Upheaval (1960-1972)- Watergate, Carter, and the New Conservatism (1972-2001)

SCORING THE EXAMThe multiple-choice section of the exam is scored by crediting each correct answer with one point and deducting one-fourth of a point for each incorrect answer. You will neither receive a credit nor suffer a deduction for unanswered questions. The free-response essays are graded by instructors and professors from across the country who come together each June for a week of non-stop AP essay grading. Each essay booklet is read and scored by several graders. Each grader provides a score for the individual essays. The DBQ is scored on a scale from 0 to 15, 0 being the lowest and 15 the highest. Each topic-based essay receives a score from 0 to 9. These scores are concealed so that each grader is unaware of the previous graders' assessments. When the essays have been graded completely, the scores are averaged-one score for each essay-so that the free-response section generates three scores. The total weight of the free-response section is 50 percent of the total score. Your work in the multiple-choice section counts for the other 50 percent. Each year, grades fluctuate

slightly because the grading scale is adjusted to take into account the performance of the total AP U.S. History test-taker population. When used with the corresponding chart, the scoring method we present here will strongly approximate the score you would receive if you were sitting for the actual AP U.S. History exam.

SCORING THE MULTIPLE-CHOICE SECTION For the multiple-choice section, use this formula to calculate your raw score: $\text{Number right} - (\text{number wrong} \times 1/4) = \text{raw score}$ (round to the nearest whole number)

SCORING THE FREE-RESPONSE SECTION For the free-response section, use this formula to calculate your raw score: $\text{DBQ} + \text{Essay \#1} + \text{Essay \#2} + \dots = \text{raw score}$ (round to the nearest whole number)

You may want to give your essays three different grades, such as a 13, 10, and an 8, and then calculate your score three ways: as if you did well, average, and poorly. This will give you a safe estimate of how you will do on the actual exam. Try to be objective about grading your own essays. If possible, have a friend, teacher, or parent grade them for you. Make sure your essays follow all of the AP requirements before you assess the score. The statistical formulations used by the AP Program preclude our REA practice-test scoring system from precisely replicating the procedures and determinations of the AP Program. Bear in mind that the cut-off point between each of the five AP grades typically shifts slightly from year to year. This occurs both because one year's exam cannot be expected to be exactly as difficult as another year's and because no two test-taker groups can be expected to be equally strong.

THE COMPOSITE SCORE To obtain your composite score, use this method: $1.13 \times \text{multiple choice raw score} =$

weighted multiple-choice score (do not round) $2.73 \times$ free response raw score = weighted free response score (do not round) Now, add the two weighted sections together and round to the nearest whole number. The result is your total composite score. See the range within which your score falls on this table to approximate your final grade: AP Grade / Composite Score Range

| 4 | 91-1133 |
| 3 | 74-902 |

These overall scores are interpreted as follows: 5-extremely well qualified; 4-well qualified; 3-qualified, 2-possibly qualified; and 1-no recommendation. Most colleges grant students who earn a 3 or better either college credit or advanced placement. Check with your high school's guidance office about specific requirements. Classic Books Library presents this brand new edition of “The Federalist Papers”, a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. “The Federalist”, as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist

The Comparative Review provides a thorough discussion of the material most often tested on the Comparative exam. Special emphasis is placed on the governments and politics of: - Britain - France - The former Soviet Union - The People's Republic of China A glossary for the Comparative Government and Politics exam enables you to brush up on terms that you are likely to encounter on this test. Scoring the Exam After the AP administrations, more than 1,700 college professors and secondary school teachers are brought together to grade the exams during the first two weeks of June. These readers are chosen from around the United States for their familiarity with the AP program. The Multiple-Choice sections of the Comparative Government & Politics and U.S. Government & Politics exams are scored by granting one point for each correct answer and deducting one-fourth of a point for each incorrect answer. Unanswered questions receive neither credit nor deduction. The Free-Response answers are read and scored using a

specific set of objective criteria, but the actual points available for each question may vary from administration to administration. For purposes of this discussion - and REA's practice tests - the Comparative exam questions will yield a score between 0 and 9 (with 0 being the lowest and 9 the highest) on Free-Response Part I, and a score of between 0 and 5 (with 0 being the lowest and 5 the highest) on Free-Response Part II. All four Free-Response items on our U.S. Government practice exam are scored on the 0-to-9 scale. Once the responses are graded, the scores can be converted. The AP Government and Politics exam is based on a 120-point scale. The breakdown of the percentages and points is as follows (note that the available free-response points will vary): Once raw scores have been obtained for each section, they are weighted to produce a composite score. Then the composite scores for each section are added together to form a total composite score for the exam. The range for the composite score is from 0 to 120. Finally, the composite score is translated into a range of from 1 to 5, with 1 being the lowest and 5 the highest. Scoring the Multiple-Choice Section Use this formula to calculate your raw score for the multiple-choice section: $(\# \text{ right answers}) - (\# \text{ wrong} \times 1/4) = \text{raw score}$ "round off to nearest whole number; if the number is less than zero, enter zero" Scoring the Free-Response Section The following guide explains typical free-

response scoring criteria: Score Explanation of Score 8-9 The thesis is extremely well developed and is supported with concrete evidence; all aspects of the question have been addressed thoroughly; discussions presented are balanced. 6-7 The thesis is defined and supported; the evidence provided is very organized; the essay may be slightly imbalanced with one strong argument and one weak argument and/or discuss one topic more thoroughly than the next; sporadic factual errors may appear. 5 A basic argument or thesis is provided; evidence given supports the argument or thesis, but does not clearly connect with the argument or thesis; only the formal facets of the question are dealt with, and informal facets are not adequately covered; not all aspects of the question are discussed. 4 The thesis is not organized and is not referred to in the essay; the essay is little more than a recounting of facts and events; the essay may be overloaded with data; only one facet of the questions may be discussed; numerous factual errors may appear. 3 The thesis is weak; evidence provided in support does not apply to the thesis; factual errors are apparent. 2 The thesis is very weak; little or no factual evidence is provided to support the thesis; irrelevant and inaccurate information appears. 1 An attempt is made to answer the question, but the support given is insignificant and the coverage of topics is incomplete. 0 The question is not answered with any

significance. Free-Response Part II (Comparative only) Score Explanation of Score 5 The thesis is extremely well developed and is supported with concrete evidence; all aspects of the question have been addressed thoroughly; discussions are presented in a balanced way. 4 The thesis is defined and supported; the evidence provided is very organized; the essay may be slightly imbalanced, with one strong argument and one weak argument; likewise, one topic may be more thoroughly explored than another; may be marred by sporadic factual errors. 3 A basic argument or thesis is presented; evidence given supports the argument or thesis, but does not clearly connect with the argument or thesis; only the formal facets of the question are dealt with, and informal facets are not adequately covered; not all aspects of the question are discussed. 2 The thesis is weak; evidence provided in support does not apply to the thesis; factual errors are apparent. 1 An attempt is made to answer the question, but the support given is insignificant and the coverage of topics is incomplete. 0 The question is not answered with any significance. It would be extremely helpful to find someone who is willing to score your essay - your teachers or anyone who is familiar with the test material. If you do, ask the person to assign each of your U.S. and Comparative (Part I) essays a score of 0 to 9. For your Comparative (Part II) essays, use the 0-to-5 scale. If you must grade your

own essays, try to be objective! In addition, you may want to give your essays three different grades. For instance, if you feel you did well, try giving the essay a score of 5, 6, or 7 to represent the various scores you may receive. By underestimating what your score may be, you are more likely to receive a better score on the actual exam. Use the following formulae to determine your raw score for the Free-Response section: United States Exam (Free-Response) Response (1) score $\times 1.66 =$ raw score Response (2) score $\times 1.66 =$ raw score Response (3) score $\times 1.66 =$ raw score Response (4) score $\times 1.66 =$ raw score Comparative Exam Response (1) score $\times 1.66 =$ raw score Response (2) score $\times 1.66 =$ raw score Response (3) score $\times 3 =$ raw score Response (4) score $\times 3 =$ raw score The Composite Score Once you have obtained your raw scores for both the Multiple-Choice and the Free-Response sections, add the scores together to get your composite score: United States Exam Multiple-Choice raw score + Free-Response raw score = composite score (round to nearest whole number) Score Essay 1 + Score Essay 2 + Score Essay 3 + Score Essay 4 = raw score Comparative Exam Multiple-Choice raw score + Free-Response raw score = composite score (round to nearest whole number) Now compare your composite score with the scale below: Composite Score / AP Grade 88 - 120 / 5 74 - 87 / 4 54 - 73 / 3 35 - 53 / 2 0 - 34 / 1 AP grades are interpreted as follows: 5-extremely well

qualified, 4-well qualified, 3-qualified, 2-possibly qualified, and 1-no recommendation. Scores that Earn College Credit and/or Advanced Placement Most colleges grant students who earn a 3 or above college credit and/or advanced placement. You should check with your school guidance office about specific college requirements. Studying for Your AP Examination It is never too early to start studying. The earlier you begin, the more time you will have to sharpen your skills. Do not procrastinate! Cramming is not an effective way to study, since it does not allow you the time needed to learn the test material. It is very important for you to choose the time and place for studying that works best for you. Some students may set aside a certain number of hours every morning to study, while others may choose to study at night before going to sleep. Other students may study during the day, while waiting on a line, or even while eating lunch. Only you can determine when and where your study time will be most effective. But, be consistent and use your time wisely. Work out a study routine and stick to it! When you take the practice exam(s), try to make your testing conditions as much like the actual test as possible. Turn your television and radio off, and sit down at a quiet table free from distraction. Make sure to time yourself. As you complete the practice test(s), score your test(s) and thoroughly review the explanations to the questions you answered incorrectly, but do not

review too much during any one sitting. Concentrate on one problem area at a time by reviewing the question and explanation, and by studying our review(s) until you are confident that you completely understand the material. Since you will be allowed to write in your test booklet during the actual exam, you may want to write in the margins and spaces of this book when practicing. However, do not make miscellaneous notes on your answer sheet. Mark your answers clearly and make sure the answer you have chosen corresponds to the question you are answering. Keep track of your scores! By doing so, you will be able to gauge your progress and discover general weaknesses in particular sections. You should carefully study the reviews that cover the topics causing you difficulty, as this will build your skills in those areas. To get the most out of your studying time, we recommend that you follow the Study Schedule which corresponds to the exam you are taking. It details how you can best budget your time. If you are taking both exams, do not try to study for each at the same time. Try alternating days by studying for the United States exam one day and the Comparative exam the next. Test-Taking Tips Although you may be unfamiliar with tests such as the Advanced Placement exams, there are many ways to acquaint yourself with this type of examination and help alleviate your test-taking anxieties. Listed below are ways to help yourself

become accustomed to the AP exam, some of which may also be applied to other standardized tests. Become comfortable with the format of the AP Examination in Government and Politics that you are taking. When you are practicing to take the exam(s), simulate the conditions under which you will be taking the actual test(s). You should practice under the same time constraints as well. Stay calm and pace yourself. After simulating the test only a couple of times, you will boost your chances of doing well, and you will be able to sit down for the actual test much more confidently. Know the directions and format for each section of the exam. Familiarizing yourself with the directions and format of the different test sections will not only save you time, but will also ensure that you are familiar enough with the AP exam to avoid nervousness (and the mistakes caused by being nervous). Work on the easier questions first. If you find yourself working too long on one question, make a mark next to it in your test booklet and continue. After you have answered all of the questions that you can, go back to the ones you have skipped. Use the process of elimination when you are unsure of an answer. If you can eliminate three of the answer choices, you have given yourself a fifty-fifty chance of getting the item correct since there will only be two choices left from which to make a guess. If you cannot eliminate at least three of the answer choices, you may choose not to guess, as you will

be penalized one-quarter of a point for every incorrect answer. Questions not answered will not be counted. Be sure that you are marking your answer in the circle that corresponds to the number of the question in the test booklet. Since the multiple-choice section is graded by machine, marking the wrong answer will throw off your score.

Teachers, too, will find this book an excellent resource for the Advanced Placement course in U.S. History. In fact, many AP instructors use it as a supplementary text because it so comprehensively supports and addresses specific curriculum objectives for the course and exam.

ABOUT THE TEST The Advanced Placement Program is designed to allow high school students to pursue college-level studies while attending high school. The three-hour five-minute AP U.S. History exam is usually given to high school students who have completed a year's study in a college-level U.S. History course. The test results are then used to determine the awarding of course credit and/or advanced course placement in college. According to the College Board, students taking this exam are called upon to demonstrate "systematic factual knowledge" and bring to bear critical, persuasive analysis of the full sweep of U.S. history. This is why we make every effort to establish and build upon context for you, rather than encouraging rote memorization of disconnected facts. The AP U.S. History Exam is divided into two sections: 1) ***Multiple-Choice***: This section is composed of 80 multiple-choice questions designed to gauge your ability to understand and analyze U.S. history from the Colonial period to the present. The

majority of the questions, however, are based on 19th- and 20th-century history. This section tests factual knowledge, scope of preparation, and knowledge-based analytical skills. You'll have 55 minutes to complete this section, which accounts for 50 percent of your final grade. 2) Free-Response: This section is composed of three essay questions designed to measure your ability to write coherent, intelligent, well-organized essays on historical topics. The essays require you to demonstrate mastery of historical interpretation and the ability to express views and knowledge in writing. The essays may relate documents to different areas, analyze common themes of different time periods, or compare individual and group experiences which reflect socioeconomic, racial, gender, and ethnic differences. Part A consists of a mandatory 15-minute reading period, followed by 45 minutes during which you must answer a document-based question (DBQ), which changes from year to year. In Part B the student chooses to answer on two of the topics that are given. You will have 70 minutes to write these essays. The free-response section counts for 50 percent of your final grade. These topics are broken down into thirds: - Political Institutions (1/3rd) - Social and Economic Change (1/3rd) - Behavior and Public Policy, Diplomacy and International Relations, Intellectual and Cultural Development (1/3rd) The time periods covered are as follows: - Pre-Colonial through 1789 (1/6th of exam) - 1790-1914 (1/2 of exam) - 1915-present (1/3rd of exam) ABOUT THE REVIEW SECTION This book begins with REA's concise yet thorough 230-page review of U.S. history designed to acquaint you with the exam's scope of coverage. Our review covers these topics and historical time periods: - The Colonial Period (1500-1763) - The American Revolution (1763-1787) - The United States Constitution (1787-1789) - The New National (1789-1824) - Jacksonian Democracy and Westward Expansion (1824-1850) - Sectional Conflict and The Causes of the Civil War (1850-1860) - The Civil War and Reconstruction (1860-1877) - Industrialism, War, and the Progressive Era

(1877-1912) - Wilson and World War I (1912-1920) - The Roaring Twenties and Economic Collapse (1920-1929) - The Great Depression and the New Deal (1929-1941) - World War II and the Post-War Era (1941-1960) - The New Frontier, Vietnam, and Social Upheaval (1960-1972) - Watergate, Carter, and the New Conservatism (1972-2001) **SCORING THE EXAM** The multiple-choice section of the exam is scored by crediting each correct answer with one point and deducting one-fourth of a point for each incorrect answer. You will neither receive a credit nor suffer a deduction for unanswered questions. The free-response essays are graded by instructors and professors from across the country who come together each June for a week of non-stop AP essay grading. Each essay booklet is read and scored by several graders. Each grader provides a score for the individual essays. The DBQ is scored on a scale from 0 to 15, 0 being the lowest and 15 the highest. Each topic-based essay receives a score from 0 to 9. These scores are concealed so that each grader is unaware of the previous graders' assessments. When the essays have been graded completely, the scores are averaged-one score for each essay-so that the free-response section generates three scores. The total weight of the free-response section is 50 percent of the total score. Your work in the multiple-choice section counts for the other 50 percent. Each year, grades fluctuate slightly because the grading scale is adjusted to take into account the performance of the total AP U.S. History test-taker population. When used with the corresponding chart, the scoring method we present here will strongly approximate the score you would receive if you were sitting for the actual AP U.S. History exam. **SCORING THE MULTIPLE-CHOICE SECTION** For the multiple-choice section, use this formula to calculate your raw score: $\text{Number right} - (\text{number wrong} \times 1/4) = \text{raw score (round to the nearest whole number)}$ **SCORING THE FREE-RESPONSE SECTION** For the free-response section, use this formula to calculate your raw score: $\text{DBQ} + \text{Essay \#1} + \text{Essay \#2} + \dots = \text{raw score (round to the nearest whole number)}$ You may

want to give your essays three different grades, such as a 13, 10, and an 8, and then calculate your score three ways: as if you di
