*Exploration of the interface between mystical theology and continental philosophy is a defining feature of the current intellectual and even devotional climate. But to what extent and in what depth are these disciplines actually speaking to one another: or even speaking about the same phenomena? This book draws together original contributions by leading and emerging international scholars, delineating emerging debates in this growing and dynamic field of research, and spanning mystical and philosophical traditions from the ancient, to the medieval, modern, and contemporary. At the heart of which lies Meister Eckhart, perhaps the single most influential Christian mystic for modern times. The book is organised around significant historical and contemporary figures who speak across the intersections of philosophy and theology, offering new insights into key interlocutors such as Pseudo-Dionysius, Augustine, Isaac Luria, Eckhart, Hegel, Heidegger, Marion, Kierkegaard, Deleuze, Laruelle, and Žižek. Designed both to contribute to current trends in mystical theology and philosophy, and elicit dialogue and debate from further afield, this book speaks within an emerging space exploring the retrieval of the mystical within a post-secular context.*

Working for the biggest stars in the world—Jennifer Lopez, P. Diddy, Alicia Keys, and Jessica Simpson, officially as a publicist but in reality, as a confidante—Rob Shuter has seen it all. In fifteen years as a celebrity publicist, Rob has been privileged to have a front-row seat to the most successful people in the world. Before Jessica Simpson told then-husband Nick Lachey that they were getting divorced, she called Rob. Jon Bon Jovi flew Rob to each of his shows on a private jet for the primary purpose of escorting out press before his fabulous hair flopped. Rob was responsible for making sure an Asian pear was within feet of Jennifer Lopez at any given moment, per her very specific demands. Being involved in the lives of the best and the brightest, Rob quickly discovered it wasn't talent all his super successful clients had in common. Rather, what all these extraordinary people share is they know exactly who they are—in just four words.

Where is your treasure? Consider the passion and commitment displayed by those searching for buried treasure. For most, it dominates their thinking, planning, and actions for a lifetime. You may not be a treasure hunter in the literal sense, but we all have our treasures - things we value highly and go to great lengths to acquire, honor, or serve. When you think about it, few things in our lives truly qualify as treasure. At a crossroads in his life, Kent Burns went in search of his treasure. The result? After fifteen years as an accountant, within sixty days, he made a life-changing decision to leave accounting and corporate America behind. He left a six-figure salary and took a 100 percent commission recruiting job that guaranteed him ZERO income. Within four years, he was the number one individual producer worldwide at the largest recruiting firm in the world. How did he do it? His treasure hunt led him to answer a simple three-word question: "What's Your Why?" The answer has changed his life forever. What about you? Has life ceased to be fulfilling? Do you feel trapped in your current business environment? Do you see apathy when you look at those you lead? Do you aspire to drive your organization to increasing levels of excellence? Understanding your Why will reveal the core factors that motivate you. Understanding your Why will lead you on a path toward a more meaningful life. It will also help you better understand those who work in your business. It will allow you to lead them to places they have never been. They will, in turn, take your business to places it has never been. So where is your treasure? If you've never been on a treasure hunt, perhaps now is your time. (c) Kent Burns 2006

The Title and Sub-Title of the book are, themselves the briefest of "teaser" synopsis. DEMOCRACY AND POWER IN THE SUDAN: How Decentralization Hurts Politically. "Decentralization" should be a positive portion of democracy. However, where power does tend to be absolute, decentralization is seen to be at variance with the views of those who enjoy power. The book goes on to state how most African politicians have wrongly conceived the idea of nationalism, hence, creating a misunderstanding around tribal sentiments they call "tribalism". Tribalism is, in fact, a portion of nationalism at the tribal level. Such sentiments deserve their place in any democracy, rather than to be smeared.

Pondering 7 June 22, 2012, 8:15 a.m. What benefit are penned words if they are meaningless? If I am penning simply to promote me, I am dead within. Some books are informative and entertaining, while others are a waste of trees. What have you been moved to read lately? What are you searching for an answer to? What is your burning desire to learn or understand? When you think you have that answer, ask yourself why. Inner conflict is a pretty good indicator of spiritual warfare. Does the preceding statement raise any red flags for you? At times, when I'm experiencing conflict within, it has always resulted from my human nature and Satan battling my spirit. I have penned about much of this; I've no doubt there will be more.
