This brand new, three-level series, provides coverage of the Cambridge Secondary 1 maths curriculum framework. Written by an experienced author team, the series comprises a comprehensive Student Book, extensive Workbook and supportive Teacher Guide. Student Book 7 provides comprehensive coverage of the Secondary 1 syllabus through 9 topic-based units. The series is influenced by a mastery approach, with topics being thoroughly embedded before learners move on. * New concepts are presented through worked examples, which lead learners, step-by-step, through the concepts, with clear and detailed explanations. * Links are made between topics, encouraging learners to build on relevant fluency from previously learnt topics, and practise mathematical concepts in a different context. * Learners build 21st-century skills such as mental maths strategies, pattern spotting and problem solving, enabling them to talk about mathematics with confidence.

* With challenge questions integrated throughout, learners can deepen their understanding. * Learners are encouraged to reflect on their learning, in order to build learner independence. * The series builds on the foundations laid down in primary maths, and prepares learners for embarking on IGCSE maths. Collins is working closely with Cambridge International Examinations towards endorsement of the series.

The Primary Checkpoints series is designed to provide ready-made stimulating activities. Familiarises students with a variety of assessment formats, such as, NAPLAN* Thematic units of work covering areas of the curriculum such as reading; language conventions and numeracy to provide students with solid and relevant practice towards assessment tasks at the appropriate Primary level. Each unit of work contains: • a text type, based on a theme that is relevant to the age and ability level of the student • reading comprehension • language convention • numeracy including mental arithmetic questions and problem solving Each of the units also includes motivation or encouragement pages in which students complete tasks related to other curriculum areas such as: • science • geography • history • health • nutrition and fitness • social issues Four Checkpoint Units to be completed in a 'test-like' or as a self-assessment activity. A removable answers insert.

This widely-used and highly-respected Student's Book, for Cambridge Secondary 1 Maths, is fully matched to the Curriculum Framework, Cambridge Checkpoint Tests and the Cambridge Progression Tests. It includes sections on calculations and mental strategies that provide accessible guidance through these difficult topics. There are also chapters that focus on ICT, investigations and problem-solving, helping your students to apply Maths to real-life situations.
