

## ***Application No 14 1788w Location Mere Farm Quarry***

*"Hampshire County was the first county wholly in the territory that is now West Virginia. The documents contained in this carefully compiled work are therefore the earliest records of West Virginia. They consist of alphabetically arranged abstracts of: (1) deeds, mortgages, leases, and other instruments from the 1760s to 1800; (2) state censuses of Hampshire County, 1782 and 1784; (3) Revolutionary pensioners in Hampshire County, 1835; (4) marriage bonds, 1824-28; (5) wills from the 1770s to the 1860s; and (6) early estate records. The index contains 11,000 entries, with women listed under both maiden name and married name where known" -- publisher website (January 2009).*

***'The revolution that is going on in me is that which has taken place in every artist who has studied Nature long and diligently and now seeks the remains of the great spirit of antiquity; his soul wells up, he feels a transfiguration of himself from within, a feeling of freer life, higher existence, lightness and grace.'* It is Mr Trevelyan's purpose, in this profoundly interesting book, to trace the course of this development in Goethe, to determine its extent, to test its sincerity. To this task he brings, not only a complete knowledge of Goethe's life and works and of classical literature, but also a fine critical**

*sense which enables him to direct his detailed knowledge towards a philosophical conclusion.'* So wrote Herbert Read in *The Spectator* in December 1941 on the first publication of *Goethe and the Greeks*. Trevelyan's account of Goethe's fascination with the Greeks, his striving to master their culture, his vision of Hellenic man, is judged not to have been supplanted by any later work in English. Professor Lloyd-Jones has written a substantial Foreword for this reissue of Trevelyan's book, giving his own assessment of Goethe's search for Hellenism and its influence on his work.

planetary nebula whose last thermal pulse produced a circumstellar shell similar to the one expected in the final days of our Sun's life; a piece of the only supernova remnant known visible to the unaided eye; the flattest galaxy known; the largest edge-on galaxy in the heavens; the brightest quasar; and the companion star to one of the first black hole candidates ever discovered. Each object is accompanied by beautiful photographs and sketches, original finder charts, visual histories and up-to-date astrophysical information to enrich the observing experience. Featuring galaxies, clusters and nebulae not covered in other Deep-Sky Companions books, this is a wonderful addition to the series and an essential guide for any deep-sky observer.

The Lakeside Annual Directory of the City of Chicago

In this path-breaking work, Susan Buck-Morss draws new connections between history, inequality, social conflict, and human emancipation. Hegel, Haiti, and Universal History

offers a fundamental reinterpretation of Hegel's master-slave dialectic and points to a way forward to free critical theoretical practice from the prison-house of its own debates. Historicizing the thought of Georg Wilhelm Friedrich Hegel and the actions taken in the Haitian Revolution, Buck-Morss examines the startling connections between the two and challenges us to widen the boundaries of our historical imagination. She finds that it is in the discontinuities of historical flow, the edges of human experience, and the unexpected linkages between cultures that the possibility to transcend limits is discovered. It is these flashes of clarity that open the potential for understanding in spite of cultural differences. What Buck-Morss proposes amounts to a "new humanism," one that goes beyond the usual ideological implications of such a phrase to embrace a radical neutrality that insists on the permeability of the space between opposing sides and as it reaches for a common humanity.--publisher description.
