am fortunate to have had a number of truly excellent students (Oxbridge and full UMS). Over the years I have ordered the transcript of all our school's A* papers and collated the essays. Where there were gaps I gave these students the past-paper essay titles and mark schemes and paid them to write 'model essays'. Then, as a trained marker, I edited them all to make sure they were written to an A* standard. A colleague of mine, who has also marked for AQA, then went through them as a third independent determination of their grade. We have used this collection of essays in our school

for a number of years with fantastic results. With the advent of the new specification, I have revisited them and made changes to reflect the new content. Topics that are no longer at A-level have been removed and new content added, which has meant a number of particular large changes in the field of Ecology. This has been a surprisingly onerous undertaking, but I am very proud of the result. Someone then suggested to me that I should publish my work and this is the product - an analysis of over 40 titles and 25 A* essays.
