

Aqa B1 Past Papers

This book contains all of the OCR Exam Past Papers for B1-B3 from 2012 to 2015. This book also contains 6 marker practice for modules B1 and B2. This book is for OCR students studying double or triple sciences with modules B1, B2 and B3.

Exam Board: OCR Level: GCSE Subject: Computer Science First Teaching: September 2016 First Exam: June 2018 Build student confidence and ensure successful progress through GCSE Computer Science. Our expert authors provide insight and guidance to meet the demands of the new OCR specification, with challenging tasks and activities to test the computational skills and knowledge required for success in their exams, and advice for successful completion of the non-examined assessment. -

Builds students' knowledge and confidence through detailed topic coverage and explanation of key terms - Develops computational thinking skills with practice exercises and problem-solving tasks - Ensures progression through GCSE with regular assessment questions, that can be developed with supporting Dynamic Learning digital resources - Instils a deeper understanding and awareness of computer science, and its applications and implications in the wider world

Three sets of ocean liners, each destined to be of three vessels, dominated the Atlantic in the Edwardian era. The race to build the biggest and the best began with Mauretania and Lusitania in 1906, followed by the White Star Line's Olympic and Titanic in 1911-12. Each of these pairs was to see a larger sister, developed as a result of changes needed or desired as a result of operating the two earlier vessels, with Cunard's being Aquitania and White Star's, the ill-fated Britannic. Germany's answer to these British behemoths was the Albert-Ballin designed trio of Imperator, Vaterland and Bismarck. Through misfortune or war, two of these vessels would sink but the others led useful lives, with Aquitania surviving two world wars before being scrapped. Designed to be the absolute engineering achievements of their time, these nine vessels dominated the Atlantic. J. Kent Layton tells the story of the Edwardian Superliners in this fabulously illustrated volume, showcasing many images previously unpublished and never before seen. Rarely can one describe a book as definitive, but this volume truly deserves the accolade.

All animals are equal but some animals are more equal than others. It's just an ordinary farm - until the animals revolt. They get rid of the irresponsible farmer. The other animals are sure that life is improving, but as systems are replaced and half-truths are retold, a new hierarchy emerges . . . Orwell's tale of propaganda, power and greed has never felt more pertinent. With an exciting new cover and inside illustrations by superstar Chris Mould.

GCSE Biology for AQA (grade 9-1)

AQA GCSE Foundation: Combined Science Trilogy and Entry Level Certificate Student Book

A student-friendly and engaging resource for the 2016 Edexcel GCSE Geography B specification, this brand new course is written to match the demands of the specification. As well as providing thorough and rigorous coverage of the spec, this book is designed to engage students in their learning and to motivate them to progress.

Carefully edited for modern readers to allow for easier reading Obsessed with the secret of creation, Swiss scientist Dr. Victor Frankenstein cobles together a body he's determined to bring to life. And one fateful night, he does. When the creature opens his eyes, the doctor is repulsed: his vision of perfection is, in fact, a hideous monster. Dr. Frankenstein abandons his creation, but the monster won't be ignored, setting in motion a chain of violence and terror that shadows Victor to his death. Mary Shelley's Frankenstein, a gripping story about the ethics of creation and the consequences of trauma, is one of the most influential Gothic novels in British literature. It is as relevant today as it is haunting.

The Strange Case of Dr. Jekyll and Mr. Hyde is about a London lawyer named Gabriel John Utterson who investigates strange occurrences between his old friend, Dr. Henry Jekyll, and the evil Edward Hyde. There are two personalities within Dr. Jekyll, one apparently good and the other evil; completely opposite levels of morality. The novel's impact is such that it has become a part of the language, with the very phrase "Jekyll and Hyde" coming to mean a person who is vastly different in moral character from one situation to the next. 'The Strange Case of Dr. Jekyll and Mr. Hyde' is a thrilling Gothic horror novel. John Utterson, a prosecutor, is on his weekly walk with his relative, who proceeds to tell him of an encounter with a man he had seen some months ago while coming home late at night from Cavendish Place. The tale describes a sinister figure named Edward Hyde who tramples a young girl, disappears into a door on the street, and re-emerges to pay off her relatives with 10 pounds in gold and a cheque signed by respectable gentleman Dr. Henry Jekyll (a client and friend of Utterson's) for 90 pounds. Jekyll had recently and suddenly changed his will to make Hyde the sole beneficiary. This development concerns and disturbs Utterson, who makes an effort to seek out Hyde. Utterson fears that Hyde is blackmailing Jekyll for his money. Upon finally managing to encounter Hyde, Hyde's ugliness, as if deformed, amazes Utterson. Although Utterson cannot say exactly how or why, Hyde provokes an instinctive feeling of revulsion in him. Much to Utterson's surprise, Hyde willingly offers Utterson his address. After one of Jekyll's dinner parties, Utterson stays behind to discuss the matter of Hyde with Jekyll. Utterson notices Jekyll turning pale, yet he assures Utterson that everything involving Hyde is in order and that he is to be left alone.

New student book to prepare lower-ability students for completing AQA Entry Level Certificate in Science or Foundation Combined Science: Trilogy. Carefully designed to break core concepts down into manageable chunks, with regular progress checks to build student confidence and identify those that are ready to move onto Combined Science: Trilogy.

The Strange Case of Dr. Jekyll and Mr. Hyde

AQA GCSE Physics Required Practicals Exam Practice Workbook

Dennis Kelly's play DNA centres on friendship, morality and responsibility in odd circumstances. When a group of young friends are faced with a terrible accident, they deliberately make the wrong choices to cover it up and find themselves in an unusually binding friendship where no one will own up to what they've done. The play began life as a National Theatre Connections commission in 2008 and has subsequently been produced, studied and toured around the world. DNA is published for the first time in the Methuen Drama Student Edition series with commentary and notes by Clare Finburgh Delijani, which look at the play's context, themes, dramatic form, staging possibilities and production history, plus offers suggestions for further reading.

This exam practice workbook offers targeted practice for the 10 AQA GCSE Physics Required Practicals. A variety of exam-style questions, expert hints on tackling the practicals questions, and tips on applying the skills to different contexts offer the best preparation for the 15% practicals requirement of GCSE Physics.

Exam Board: AQA Level: GCSE Subject: Food & Nutrition First Teaching: September 2016 First Exam: June 2018 Develop your students' knowledge and food preparation skills for the new GCSE; approved by AQA, this title caters to all ability levels, offers detailed assessment guidance and draws on the expertise of the UK's leading Hospitality and Catering publisher*. - Ensures your students understand even the most challenging topics, such as nutrition and food science, with clear, accessible explanations of all subject content and simple definitions of key words - Helps students apply their understanding of food, nutrition and healthy eating with engaging and cost-effective practical food preparation and cooking activities throughout - Supports all abilities and learning styles with varied activities that aid progression, including extension activities to challenge more able learners - Prepares students for Non-Exam Assessment with guidance on the Food Investigation and Food Preparation Assessment *According to the Educational Publishers' Council statistics

Simple. Clear. Structured. Whether you are sitting your med school finals, boards, or college fellowship exams, the methods detailed in OWN the ABG make the interpretation of any blood gas question a straightforward exercise. For those who take the time to work through this book the reward will be an understanding that applies in the examination hall, the rests room, and by the patient's bedside at 2am. Inside you will find 30 worked blood gas problems illustrating the four step method used to OWN the ABG, as well as comments referenced to the literature explaining the major themes of each question. There are a further 30 extended match questions designed to test your understanding, followed by explanatory notes on the major concepts in blood gas chemistry. All the questions and answers are detailed in both mmHg and kPa so that international clinicians can all learn to interpret the arterial blood gas. Difficult? Complicated? Confusing? Not any more! Pick up this book and OWN the ABG today.

Absolutely clarity is the aim with a new generation of revision guide for the 2020s. This guide has been expertly compiled and edited by successful former teachers of Computer Science, highly experienced examiners and a good dollop of scientific research into what makes revision most effective. Past examinations questions are essential to good preparation, improving understanding and confidence. This guide has combined revision with tips and more practice questions than you could shake a stick at. All the essential ingredients for getting a grade you can be really proud of. Each specification topic has been referenced and distilled into the key points to make in an examination for top marks. Questions on all topics assessing knowledge, application and analysis are all specifically and carefully devised throughout this book.

The only textbook that fully supports the Oxford AQA International GCSE Biology specification (9201), for first teaching in September 2016. The enquiry-based, international approach builds scientific skills and knowledge, preparing students for the Oxford AQA International GCSE exams and supporting their progression to further A Level study.

Science

DNA

Specifically tailored for the new 2016 AQA GCSE Science (9-1) specifications, this third edition supports your students on their journey from Key Stage 3 and through to success in the new linear GCSE qualifications. This series help students and teachers monitor progress, while supporting the increased demand, maths, and new practical requirements.

This text engages every student and stimulates their interest in science. It provides a simple and clear approach to all resources available, with all the help and support you need to teach the new specifications with ease and make the transition as smooth as possible.

Answering six mark questions in your GCSE is much more than just writing down six correct things. There is a skill to answering them that needs to be practiced. Here I have written 25 questions on each subject, given you the answers and guided you through how to answer to get full marks. The more you practice, the more confident you'll be in the exam! Example Question58 - Renewable and Non-Renewable Energy SourcesIn June 2017, for the first time, over 50% of energy in the UK was supplied by renewable energy. The UK government is leading a drive to promote the increased use of renewable energy sources for generating electricity. Evaluate the use of renewable and non-renewable energy sources.Planning.... " Evaluate give good points, bad points your option and justify your opinion" You can use a table for planning" What are the good points (aim for at least 2)?" What are the bad points (aim for at least 2)?" What is your opinion?" Explain why you have that opinion?" Don't stress too much about your opinion, the examiner is never
