Investigating concerns surrounding power inequalities, The Sociopolitics of English Language Testing takes a socially-situated view of language assessment, bringing sociopolitical understandings of language teaching, learning, and assessment to the forefront in the field. Within the broader discussion of the politics of test use, an international team of language and education experts address the issues of ideology, diversity, power, and dominance in English language testing. Through socially-sensitive theoretical as well as empirical discussion and investigation of English language testing, this book offers valuable insights, not only to applied linguists and the language education community who have focused on positivistic and cognitively-oriented conceptions of language testing, but to anyone who wishes to venture beyond the traditional bounds of the field.

An eye for an eye. It's very simple. You choose your homeland like a hyena picking and choosing where he steals his next meal from. Scavenger. Yes you grovel to the feet of Mengistu and when his people spit at you and kick you from the bowl you scuttle across the border. Scavenger. As a violent civil war rages back home in Ethiopia, teenager Alem and his father are in a bed and breakfast in Berkshire. It's his best holiday ever. The next morning his father is gone and has left a note explaining that he and his mother want to protect Alem from the war. This strange grey country of England is now his home. On his own, and in the hands of the social services and the Refugee Council, Alem lives from letter to letter, waiting to hear something from his father. Then he meets car-obsessed Mustapha, the lovely 'out-of-your-league' Ruth and dangerous Sweeney – three unexpected allies who spur him on in his fight to be seen as more than just the Refugee Boy. Lemn Sissay's remarkable stage adaptation of Benjamin Zephaniah's bestselling novel is published here in the Methuen Drama Student Edition series, featuring commentary & notes by Professor Lynette Goddard (Royal Holloway, University of London, UK) that help the student unpack the play's themes, language, structure and production history to date.

The 2012 GCSE English results prompted significant controversy, which ultimately resulted in an application for judicial review. This report sets out the background to these events and identifies lessons to be learned. The problems with GCSE English can be traced back to the 2007–09 development phase of the qualification– in particular the turbulence which resulted from the shift away from a mostly linear to a modular system, combined with a high proportion of controlled assessment and generous marking tolerances. Exam board experts raised concerns at the time, but these were not acted upon by the regulator (the then–interim Ofqual). Further difficulties arose because of pressures from the school accountability system. The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening, with consequences for grade awarding. The current status of Ofqual, as an independent regulator accountable to Parliament, is the right one. However, the Coalition Government is bringing in wholesale changes to GCSEs and A levels, to a tight timetable and at the same time. Ofqual must have systems in place. The Committee is also concerned that there is a rush towards separate exam systems for England, Wales and Northern Ireland, without careful reflection on what might be lost, or consensus that this is the right thing to do.

This book develops the reading and writing skills that students will be assessed on in the exams. Using a thematic approach that focuses on the AOs, with SPAG delivered in context, this book supports students of all abilities. Peer and self-assessment activities, end-of-chapter assessments and sample exam papers allow progress to be monitored.

Revised and updated to cover the set texts in the AQA B specification, this second edition focuses on the assessment objectives – showing students how to achieve maximum marks – and offers exam and coursework tips throughout to help students get good grades.

Apollo 11 astronaut Buzz Aldrin's courageous, candid memoir of his return to Earth after the historic moon landing and his personal struggle with fame and depression. "We landed with all the grace of a freight elevator," Buzz Aldrin relates in the opening passages of Return to Earth, remembering Command Module Columbia's abrupt descent into the gravity of the blue planet. With that splash, Aldrin takes readers on a journey through the human side of the space program, as one of the first two men to land on the moon learns to cope with the pressures of his new public persona. In honest and compelling prose, Aldrin reveals a side of instant fame for which West Point and NASA could never have prepared him. One day a fighter pilot and engineer, the next a cultural hero burdened with the adoration of thousands, Aldrin gives a poignant account of the affair that threatened his marriage, as well as his descent into alcoholism and depression that resulted from trying to be too many things to too many people. He didn't realize that when he landed on his home planet his odyssey had just begun. As Aldrin puts it, "I traveled to the moon, but the most significant voyage of my life began when I returned from where no man had been before." Return to Earth is a powerful and moving memoir that exposes the stresses suffered by those in the Apollo program and the price Buzz Aldrin paid when he became an American icon.

It seemed like any other season on Mount Everest. Ten expeditions from around the world were preparing for their summit push, gathered together to try for mountaineering's ultimate prize. Twenty-four hours later, eight of those climbers were dead, victims of the most devastating storm ever to hit Everest. On the North face of the mountain, a British expedition found itself in the thick of the drama. Against all odds, film-maker Matt Dickinson and professional climber Alan Hinkes managed to battle through hurricane-force winds to reach the summit. In Death Zone, Matt Dickinson describes the extraordinary event that put the disaster on the front cover of Time and Newsweek. The desperate attempts of teams on the southern side of the mountain, fatal errors that led to the deaths of three Indian climbers on the North Ridge and the moving story of Rob Hall, the New Zealand guide who stayed with his stricken client, and paid with his life. Based on interviews with the surviving climbers and the first-hand experience of having lived through the killer storm, this gripping non-fiction book tackles issues at the very heart of mountaineering. Death Zone is an extraordinary story of human triumph, folly and disaster.
