AQA GCSE English Language

The steady rise of Clint Eastwood's career parallels a pressing desire in American society over the past five decades for a figure and story of purpose, meaning, and redemption.

Eastwood has not only told and filmed that story, he has come to embody it for many in his public image and film

persona. Eastwood responds to a national yearning for a vision of individual action and initiative, personal responsibility, and potential for renewal. An iconic director and star for his westerns, urban thrillers, and adventure stories, Eastwood has taken film art to new horizons of meaning in a series of masterpieces that engage the ethical and moral consciousness of our times, including *Unforgiven*, *Million Dollar Baby*, and *Mystic River*. He revolutionized the war film with the unprecedented achievement of filming the opposing sides of the same historic battle in *Flags of Our Fathers* and *Letters from Iwo Jima*, using this saga to present a sharply critical representation of the new America that emerged out of the war, a society of images and spectacles. This timely examination of Clint Eastwood's oeuvre against the backdrop of contemporary America will be fascinating reading for students of film and popular culture, as well as readers with interests in Eastwood's work, and American film and culture. New student book to prepare lower-

ability students for completing AQA Entry Level Certificate in Science or Foundation Combined Science: Trilogy. Carefully designed to break core concepts down into manageable chunks, with regular progress checks to build student confidence and identify those that are ready to move onto Combined Science: Trilogy.

A beautiful and eerie story of love and memory from the author of *The Moon Field*.

This text offers comprehensive exam advice to help student prepare effectively for the exam. From everyday apps to complex algorithms, Ruha Benjamin cuts through tech-industry hype to understand how emerging technologies can reinforce White supremacy and deepen social inequity. Benjamin argues that automation, far from being a sinister story of racist programmers scheming on the dark web, has

the potential to hide, speed up, and deepen discrimination while appearing neutral and even benevolent when compared to the racism of a previous era. Presenting the concept of the “New Jim Code,” she shows how a range of discriminatory designs encode inequity by explicitly amplifying racial hierarchies; by ignoring but thereby replicating social divisions; or by aiming to fix racial bias but ultimately doing quite the opposite. Moreover, she makes a compelling case for race itself as a kind of technology, designed to stratify and sanctify social injustice in the architecture of everyday life. This illuminating guide provides conceptual tools for decoding tech promises with sociologically informed skepticism. In doing so, it challenges us to question not only the technologies we are sold but also the ones we ourselves manufacture. Visit the book's free Discussion Guide [here](#).

Encourage students to take an active role in citizenship with fully updated content that will allow them to understand the key issues and concepts they need to know using clear, detailed explanations of key terms, supported by real-life case studies that will bring the topic to life. GCSE Citizenship Edexcel Short Course Revision Guide

A Liverpoolian West Side Story, Blood Brothers is the story of twin brothers separated at birth because their mother cannot afford to keep them both. One of them is given away to wealthy Mrs Lyons and they grow up as friends in ignorance of their fraternity until the inevitable

quarrel unleashes a blood-bath. Blood Brothers was first performed at the Liverpool Playhouse in 1983 and subsequently transferred to the Lyric Theatre, London. It was revived in the West End in 1988 for a long-running production and opened on Broadway in 1993.
