

Aqa Gcse Resistant Materials Past Papers

This course for AQA GCSE Graphic Products has been replaced by a new specification for first teaching from September 2009.

Exam board: WJEC Eduqas Level: GCSE Subject: Design & Technology First teaching: September 2017 First exams: Summer 2019 Reinforce classroom learning and boost students' understanding of all materials with this textbook written for the WJEC Eduqas GCSE (9-1) Design & Technology specification. Written by leading D&T experts, this textbook will build your students' knowledge of the core principles, help to develop their designing and making skills and provide them with the opportunity to make sure they are ready to tackle both parts of the assessment. - Helps students clearly understand the core principles of all materials and general concepts of designing and making, as well as build their knowledge, understanding and skills for one material or system in more depth - Hones students' mathematical and scientific ability so they don't miss out on the easy marks - Features practice questions in the style of the written exam to make sure students are confident to tackle the written element of the assessment - Inspires and motivates students with stretch and challenge: activities designed to challenge the more able learners and to ensure progression to A-level

Ensure stress-free success in Controlled Assessment AQA GCSE D&T Resistant Materials Technology provides a unique blend of AQA approved print and online resources for the new 2009 specifications. Includes a Student's Book and online assessment materials delivered via kerboodle! You can personalise your students learning and track their progress online, whilst giving them the benefit of 24-hour access. Additional Information: Analysis Tools Case Studies WebQuests

The Strange Case of Dr. Jekyll and Mr. Hyde is about a London lawyer named Gabriel John Utterson who investigates strange occurrences between his old friend, Dr. Henry Jekyll, and the evil Edward Hyde. There are two personalities within Dr. Jekyll, one apparently good and the other evil; completely opposite levels of morality. The novel's impact is such that it has become a part of the language, with the very phrase "Jekyll and Hyde" coming to mean a person who is vastly different in moral character from one situation to the next. 'The Strange Case of Dr. Jekyll and Mr. Hyde' is a thrilling Gothic horror novel. John Utterson, a prosecutor, is on his weekly walk with his relative, who proceeds to tell him of an encounter with a man he had seen some months ago while coming home late at night from Cavendish Place. The tale describes a sinister figure named Edward Hyde who tramples a young girl, disappears into a door on the street, and re-emerges to pay off her relatives with 10 pounds in gold and a cheque signed by respectable gentleman Dr. Henry Jekyll (a client and friend of Utterson's) for 90 pounds. Jekyll had recently and suddenly changed his will to make Hyde the sole beneficiary. This development concerns and disturbs Utterson, who makes an effort to seek out Hyde. Utterson fears that Hyde is blackmailing Jekyll for his money. Upon finally managing to encounter Hyde, Hyde's ugliness, as if deformed, amazes Utterson. Although Utterson cannot say exactly how or why, Hyde provokes an instinctive feeling of revulsion in him. Much to Utterson's surprise, Hyde willingly offers Utterson his address. After one of Jekyll's dinner parties, Utterson stays behind to discuss the matter of Hyde with Jekyll. Utterson notices Jekyll turning pale, yet he assures Utterson that everything involving Hyde is in order and that he is to be left alone.

This volume was written by a team to classroom teachers and examiners to support pupils as they work through their GCSE course in design and technology. It is intended to guide them through the important stages of their coursework and to prepare for the final examination paper. It contains a mixture of extended projects, focused tasks and activities which together with the key points and sample examination questions support the NEAB syllabus. The Channel 4 television programme associated with this series provides an introduction to the whole course and there is a range of specific opportunities to view and integrate the content throughout the extended projects.

AQA GCSE 9-1 Chemistry Revision Guide: For the 2020 Autumn & 2021 Summer Exams (Collins GCSE Grade 9-1 Revision)

The Toxic Classroom offers a wide-ranging look at education today and explores in detail the pressures children experience as a result of constant change, digital technology and political interference. Beginning with what it is like to be a child in the classroom, the book goes on to provide a detailed analysis of the curriculum, assessment and accountability, school structures, educating for global citizenship and the plethora of social issues schools are now expected to solve. Written from the perspective of a successful headteacher with over 30 years' teaching experience, the book considers what needs to be done to put things right and outlines a more equitable and effective school system. Each chapter outlines the steps schools can implement immediately and the longer-term policy changes that are needed de-toxify the classroom and facilitate a genuine love of learning. Offering a challenging yet compelling argument for putting education back into the hands of teachers, this book will be of great interest both to the general reader and to those working within education such as teachers and professionals who wish to improve the ways in which children learn and develop.

Build in-depth understanding and inspire your students to tackle design challenges both practically and creatively, with a textbook that delivers the Core Technical plus Specialist Technical and Design & Making Principles needed for the 2017 AQA D&T GCSE. The insight of our author team will build topic knowledge, including the technical principles of materials with which you are less familiar, while focusing on the specialist principles of timber, metal-based materials and polymers in more depth, to ensure you can navigate the specification with confidence whilst your students' ideas flourish. · Trusted author team of specialist teachers and those with examining experience · Build topic knowledge with learning objectives directly linked to the specification and short activities to reinforce understanding · Develop mathematical and scientific knowledge and understanding with activities that link topics to maths and science · Inspire your students as they undertake the iterative design process, with examples of imaginative design-and-make tasks, and a look at how to approach the Non-Exam Assessment · Check knowledge and understanding with end of topic summaries and practice questions for the written exam

New editions of the bestselling Revise GCSE Study Guides with a fresh new look and updated content in line with curriculum changes. Revise GCSE contains everything students need to achieve the GCSE grade they want. Each title has been written by a GCSE examiner to help boost students' learning and focus their revision. Each title provides complete curriculum coverage with clearly marked exam board labels so students can easily adapt the content to fit the course they are studying. Revise GCSE is an ideal course companion throughout a student's GCSE study and acts as the ultimate Study Guide throughout their revision.

GCSE Design & Technology Resistant Materials AQA Revision Guide

Are your students getting lower marks in the written paper than the design and make element? Help them to achieve better results with this textbook, which has been created after listening to the needs of students and teachers. We understand that a revision guide is more than simply ticking off theory listed in the specification. Students need to know how and where to apply it, and understand why. Student projects are chosen to illustrate thecreativity at the heart of the subject and to inspire you to demonstrate, and the constant links between the projects and theory, will mean more motivated students with a far better understanding of the subject.

Artistic Design Notebook 8.5 in. x 11 in. For Creative Minds.

A new series of bespoke, full-coverage resources developed for the 2015 GCSE English qualifications. Endorsed for the AQA GCSE English Literature specification for first teaching from 2015, this print Student Book provides specific set text coverage for the specification. With progress at its heart and designed for classroom and independent use, students will build their skills through a range of active learning approaches, including class, group and individual activities. Incorporating differentiated support, activities and whole-text knowledge. An enhanced digital version and free Teacher's Resource are also available.

We have had lots of students contacting us to say how useful they've found this series of revision guides. So why have they found them so valuable? Students know just what they need to revise for each exam because each guide matches the specification exactly. Information is presented in a straightforward, user-friendly way. Content is organised into double-page spreads to make revision more manageable. Short questions at the end of each section really make students stop and think about the topic. Tips on common pitfalls and advice on how to tackle different types of exam question and exam preparation. Practice exam-style questions are included at the end of each module. The answers to all questions are in the back of the books, so students can work on their own.
