Internationally beloved opera star Deborah Voigt recounts her harrowing and ultimately successful private battles to overcome the addictions and self-destructive tendencies that nearly destroyed her life. *Call Me Debbie* is one of the most electrifying performances of Deborah Voigt's life. The brilliantly gifted opera soprano takes us behind the velvet curtains to tell her compelling story—a tale of success, addiction, music, and faith as dramatic as any role she has performed. For the first time, she talks about the events that led to her dangerous gastric bypass surgery in 2004 and its shocking aftermath: her substantial weight loss coupled with the “cross addiction” that led to severe alcoholism, frightening all-night blackouts, and suicide attempts. Ultimately, Voigt emerged from the darkness to achieve complete sobriety, thanks to a twelve-step program and a recommitment to her Christian faith. Colored by hilarious anecdotes and juicy gossip that illuminate what really goes on backstage, Voigt paints diverting portraits of the artists with whom she's worked, her most memorable moments onstage, and her secrets to great singing. She also offers fascinating insight into the roles she's played and the characters she loves, including Strauss's *Ariadne* and *Salome*, Puccini's *Minnie*, and Wagner's *Sieglinde*, *Isolde*, and *Brünnhilde*, sharing her intense preparation for playing them. Filled with eight pages of color photos, *Call Me Debbie* is an inspirational story that offers a unique look into the life of a modern artist and a remarkable woman.

Ages 12 years & over. A collection of stories from Rumi's classic opus *The Mathnawi*, this astounding compilation of over 24,000 verses is carefully adapted for younger audiences. Best known for his spiritual poetry and the whirling dance of sufi practice he inspired, Rumi's influence continues to spread around the world.

Brilliant. Colorful. Visionary. Tenacious. Witty. Since his appointment to the Supreme Court in 1986, Associate Justice Antonin Scalia has been described as all of these things and for good reason. He is perhaps the best-known justice on the Supreme Court today and certainly the most controversial. Yet most Americans have probably not read even one of his several hundred Supreme Court opinions. In *Scalia Dissents*, Kevin Ring, former counsel to the U.S. Senate's Constitution Subcommittee, lets Justice Scalia speak for himself. This volume—the first of its kind— showcases the quotable justice's take on many of today's most contentious constitutional debates. *Scalia Dissents* contains over a dozen of the justice's most compelling and controversial opinions. Ring also provides helpful background on the opinions and a primer on Justice Scalia's judicial philosophy. *Scalia Dissents* is the perfect book for readers who love scintillating prose and penetrating insight on the most important constitutional issues of our time.

Neo-Hasidism applies the Hasidic masters' spiritual insights—of God's presence everywhere, of seeking the magnificent within the everyday, in doing all things with love and joy, uplifting all of life service—to contemporary Judaism, as practiced by men and women who do not live within the strictly bounded world of the Hasidic community. This first-ever anthology of Neo-Hasidic philosophy and its progenitors: five great twentieth-century European and American Jewish thinkers—Hillel Zeitlin, Martin Buber, Abraham Joshua Heschel, Shlomo Carlebach, and Zalman Schachter-Shalomi—plus

thinkers reflect on the inner life of the individual and their dreams of creating a Neo-Hasidic spiritual community. The editors' introductions and notes analyze each thinker's contributions to Neo-Hasidism on the movement. Zeitlin and Buber initiated a renewal of Hasidism for the modern world; Heschel's work is quietly infused with Neo-Hasidic thought; Carlebach and Schachter-Shalomi re-created Chabad-Lubavitch Jews in the 1960s; and Green is the first American-born Jewish thinker fully identified with the movement. Previously unpublished materials by Carlebach and Schachter-Shalomi include an interview about his decision to leave Chabad-Lubavitch and embark on his own Neo-Hasidic path.

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer's language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most basic and interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here we describe developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and O (oh). Thus, DOL was almost always printed with "oh" rather than "zero". However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this path and appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems is profound.

A dark, engrossing, blood-drenched tale of the familiar threats to female power—and one girl's journey to regain it. Five starred reviews greeted this powerful story from Elana K. Arnold, author of the Printz Honor winner *Damsel*. You are alone in the woods, seen only by the unblinking yellow moon. Your hands are empty. You are nearly naked. And the wolf is angry. Since her grandmother became her caretaker when she was four years old, Bisou Martel has lived a quiet life in a little house in Seattle. She's kept mostly to herself. She's been good. But then comes the night of homecoming, when she finds herself running for her life over roots and between trees, a fury of claws and teeth behind her. A wolf attacks. Bisou fights back. A new moon rises. And with it, questions. About the blood in Bisou's past, and on her hands as she stumbles home. About broken boys and vicious wolves. About girls lost in the woods—frightened, but not alone.

A classic mystery from Dick Francis, the champion of English storytellers. Daniel Roke owns a stud farm in Australia. He's young, smart, hard-working and desperate for some excitement - all of which makes him the ideal candidate for the Earl of October, who has come visiting. The Earl is concerned about a horse-doping scandal that is destroying English racing. He wants to pay Daniel to come back with him, pose as a highly corruptible stable lad and discover who is behind it. Unfortunately, when Daniel agrees he doesn't realise how close he'll have to get to find the truth. Nor how determined the criminals will be to prevent him living long enough to tell anyone... Praise for Dick Francis: 'As a jockey, Dick Francis was unbeatable when he got into his stride. The same is true of his crime writing' Daily Mirror 'Dick Francis's fiction has a secret ingredient - his inimitable knack of grabbing the reader's attention on page one and holding it tight until the very end' Sunday Telegraph 'The narrative is brisk and gripping and the background researched with care . . . the entire story is a pleasure to relish' Scotsman 'Francis writing at his best' Evening Standard 'A regular winner . . . as smooth, swift and lean as ever' Sunday Express 'A super chiller and killer' New York Times Book Review Dick Francis was one of the most successful post-war National Hunt jockeys. The winner of over 350 races, he was champion jockey in 1953/1954 and rode for HM Queen Elizabeth, the Queen Mother, most famously on Devon Loch in the 1956 Grand National. On his retirement from the saddle, he published his autobiography, *The Sport of Queens*, before going on to write forty-three bestselling novels, a volume of short stories (*Field of 13*), and the biography of Lester Piggott. During his lifetime Dick Francis received many awards, amongst them the prestigious Crime Writers' Association's Cartier Diamond Dagger for his outstanding contribution to the genre, and three 'best novel' Edgar Allan Poe awards from The Mystery Writers of America. In 1996 he was named by them as Grand Master for a lifetime's achievement. In 1998 he was elected a fellow of the Royal Society of Literature, and was awarded a CBE in the Queen's Birthday Honours List of 2000. Dick Francis died in February 2010, at the age of eighty-nine, but he remains one of the greatest thriller writers of all time.

The high-stakes game of the underworld has new faces, working for and against Dawood Ibrahim - the shadowy, manipulative figure that pulls the strings. Dawood's own deputy turned arch-rival Chhota Rajan, thug-turned-politician Arun Gawli, Amar (Raavan) Naik and his engineer brother Ashwin Naik, and a host of other characters, big and small, walk the pages of this compelling history of the Maharashtrian mobsters who were once dubbed 'amchi muley', 'our boys', by Shiv Sena chief Bal Thackeray. Equally fascinating are the stories of the famous - and infamous - policemen and 'encounter specialists' who took the gangs on with great success and not too many scruples. Violence and deceit one expects to read of, but the strength of this book is also its ability to capture the mundane - almost naive - beginnings of what very quickly became the organized crime and brutal vendettas that held Mumbai to ransom through the last decades of the twentieth century. Meticulously researched and thrillingly told by the acknowledged expert on the underworld, this is faster-paced than *Dongri to Dubai*, and even more chilling in its implications for India and the subcontinent.
