This book showcases more than 220 stunning rooms selected by the editors of ELLE DECOR, the magazine that is the last word on exciting, cutting-edge, and eclectic style from around the world. A must for any decorating and design buff, it shows readers how to bring the flair, glamour, and individuality of the world's chicest spaces into their own homes. The rooms, which range from extravagant living spaces to sleek, state-of-the-art kitchens, baths, and dressing rooms, are organized into distinctive yet reader-friendly categories: "Classical," "Fanciful," "Functional," and "Personal." "What the Pros Know," which occurs throughout the pages, presents insights, ideas, and practical advice from top interior designers, architects, and homeowners. Every chapter also incorporates "Anatomy of a Room"—in which the magazine's editors explain how to make the inspiring ideas a reality. Packed with beautiful color images by today's top interiors photographers, straightforward tips, and ingenious pointers from top design talents Steven Gambrel, Kelly Wearstler, and a host of others, *The Height of Style* brings the magazine's distinctive, of-the-moment mix of culture, design, and fashion right into your living room. A vibrantly illustrated exploration of the creative, inclusive, and inspiring movement happening in today's Southern interior design *The American South* is a place steeped in history and tradition. We think of sweet tea, thick drawls, and even thicker summer air. It is also a place with a fraught history, complicated social norms, and dated perspectives. Yet among the makers and artists of the South, there is a powerful movement afoot. Alyssa Rosenheck shines a much-needed spotlight on a burgeoning community of people who are taking what's beloved, inherent, and honored in the South and making it their own. *The New Southern Style* tours more than 30 homes and includes interviews with the designers, artists, and creative entrepreneurs who are reinventing Southern design and culture. This beautifully illustrated book is sure to inspire the home and soul.

* * * 'Informative and entertaining, this publication is a feast for the eyes, while also thought provoking, and offers excellent inspiration for daydreaming about what makes the perfect, modern house.' Wallpaper 'A fascinating selection of innovative homes....this is a thoughtful journey through the evolution of domestic architecture.' Sunday Express Over the last century the way that we live at home has changed dramatically. Nothing short of a design revolution has transformed our houses and the spaces within them - moving from traditional

patterns of living all the way through to an era of more fluid, open-plan and modern styles. Whether we live in a new home or a period house, our spaces will have been shaped one way or another by the pioneering Modernists and Mid-century architects and designers who argued for a fresh way of life. Architectural and design writer Dominic Bradbury charts the course of this voyage all the way from the late 19th century through to the houses of today in this ground-breaking book. Over nineteen thematic chapters, he explains the way our houses have been reinvented, while taking in - along the way - the giants of Art Deco, influential Modernists including Le Corbusier and Frank Lloyd Wright, as well as post-war innovators such as Eero Saarinen and Philip Johnson. Taking us from the 20th to the 21st century, Bradbury explores the progress of 'modernity' itself and reveals the secret history of our very own homes. An in-depth look at the design process of James Huniford, who is renowned for his skill in juxtaposing opposites--contemporary with traditional, rustic with refined--to create a timeless whole. James Huniford, universally known as Ford, explores his design process thematically, with chapters on approaching a room, considering scale and proportion, selecting materials and art, using color effectively, and marrying form and function. His goal is to create "a modern sensibility of calm." Of special interest is his ability to create artworks out of found objects, compositions of tools, baskets, or metalwork that become compelling wall sculptures or freestanding pieces. Examples are drawn from a rich variety of projects--elegant Upper East Side apartments to raw lofts on the Lower East Side to contemporary condominiums in new "supertall" towers in Manhattan, country houses in Connecticut, Upstate New York, and Martha's Vineyard, and across the country in Nashville and Marin Country, California. Special insight into his process can be gleaned from his own homes, a loft in Tribeca and a historic house in Bridgehampton that he readily admits are laboratories for his ideas.

Elle Decor So Chic

A Taste for Modernism

James Huniford: At Home

From the editors of Elle Decor comes a richly illustrated overview of the quintessential French style of home design and

decorating, featuring an array of interiors, ranging from the eclectic to classic chic, that represent the influences, principles, and work of distinguished designers in eight chapters focusing on distinctive styles. 20,000 first printing.

The first book on the houses and interiors of a firm known for its sensitive and sumptuous residential work in traditional and contemporary styles. Whether for a plantation guesthouse in South Carolina or a Dutch Colonial home on Long Island Sound, Eric J. Smith's evocative designs are the result of thoughtful planning integrated with a deep understanding of his clients' lives and lifestyles, a design ethos beautifully evident in the book. From a Georgian home in California and a French Country home on Long Island to a Shelter Island fishing camp, Smith's work is at once an homage to tradition and an expression of the living beauties these traditions still offer. Over the course of a storied career, and often working with prestigious interior designers--including Alexa Hampton, David Easton, and William Diamond--Smith has garnered a reputation for a kind of personal architecture that is, in each case, in sync with the homeowner, whomever he or she may be, and the place, whether it is oceanfront, on a hillside, or set beside a lake or stream. Renewing Tradition features custom residential projects from New York to California, and Bermuda to the United Kingdom, and Smith's houses, apartments, and country cabins are a revelation, work to be savored and which will serve to inspire homeowners in search of a guide to achieving comfortable elegance in the home.

"This book is not for you. It is not for architectural academic elites. It is not for those who have gentrified our neighborhoods, overly intellectualized the profession, and ignored all contemporary Black theory within the discipline. You have made architecture a symbol of exclusion, oppression, and domination rather than expression, aspiration, and inspiration. This book is not for conformists-Black, White, or other." As architecture grapples with its own racist legacy, Hip-Hop Architecture outlines a powerful new manifesto-the voice of the underrepresented, marginalized, and voiceless within the discipline. Exploring the production of spaces, buildings, and urban environments that embody the creative energies in hip-hop, it is a newly expanding design philosophy which sees architecture as a distinct part of hip-hop's cultural expression, and which uses hip-hop as a lens through which to provoke new architectural ideas. Examining the present and the future of Hip-Hop Architecture, the book also explores its historical antecedents and its theory, placing it in a wider context both within architecture and within Black and African American movements. Throughout, the work is illustrated with inspirational case studies of architectural projects and creative practices, and interspersed with interludes and interviews with key architects, designers, and academics in the field. This is a vital and provocative work that will appeal to architects, designers, students, theorists, and anyone interested in a fresh view of architecture, design, race and culture. Includes Foreword by Michael Eric Dyson.

First survey of modernist and contemporary architecture and interiors in the richly layered architectural history of Santa Fe. Santa Fe Modern reveals the high desert landscape as an ideal setting for bold, abstracted forms of modernist houses. Wide swaths of glass, deep-set portals, long porches, and courtyards allow vistas, color, and light to become integral parts of the very being of the house, emboldening a way to experience a personal connection to the desert landscape. The architects featured draw from the New Mexican architectural heritage--they use ancient materials such as adobe in combination with steel and glass, and they use this language to the proportions and demands exacted by today's world. The houses they have designed are confident examples of architecture that is particular to the New Mexico landscape and climate, and yet simultaneously evoke the rigorous expression of modernism. The vigor and the allure of modern art and architecture hearten each other in a way that is visible and exciting. This book demonstrates the synergistic relationship between art, architecture, and the land.

Atomic Ranch is an in-depth exploration of post-World War II residential architecture in America. Mid-century ranches (1946-1970) range from the decidedly modern gable-roofed Joseph Eichler tracts in the San Francisco Bay area and butterfly wing houses in Palm Springs, Florida, to the unassuming brick or stucco L-shaped ranches and split-levels so common throughout the United States. Authors Michelle Gringeri-Brown and Jim Brown, founders and publishers of the popular quarterly *Atomic Ranch* magazine, extol the virtues of the tract, split-level, rambler home and its many unique qualities: private front facades, open floor plans, secluded bedroom wings, walls of glass, and an easy-living lifestyle. From updated homes with high-end Italian kitchens, terrazzo floors, and modern furniture to affordable homeowner renovations with eclectic thrift-store furnishings, *Atomic Ranch* presents twenty-five homes showcasing inspiring examples of stylish living through beautiful color photographs, including before and after shots, design-tip sidebars, and a thorough resource index. *Atomic Ranch* reveals: Hallmarks of the ranch style Inspiring original ranch homes Ranch house transformations and makeovers Preservation of mid-century neighborhoods Adding personality to a ranch home Yards and landscaping Plus, a helpful resource section and index!

Arthur Elrod was the most successful interior designer working in Palm Springs from 1954 to 1974. His forward-thinking midcentury design appeared in primary homes, second houses, spec houses, country clubs, and experimental houses—in the desert and across the US. He was charming, handsome, and worked tirelessly for his A-list clientele.

MR Architecture + Decor's work—which, true to its name, straddles the line between architecture and interior design—is driven by the belief that close collaborations with clients lead to personalized and intimate homes. The first collection of the firm's 20 years of work includes a brief history of the firm, founded by David Mann. Featuring seven never-before-seen projects, the text not only describes each project but also includes two distinct points of view: that of MR Architecture + Decor and that of the client or collaborator. More than 200 appealing photographs of some of the firm's gorgeous residential work are included, taken by such leading architecture and interior design photographers as François Dischinger, Eric Piasecki, Simon Upton, and Joshua McHugh. MR Architecture + Decor celebrates an architecture and design firm whose variety and depth of work, from Takashimaya, the legendary department store on Fifth Avenue, to log cabins in Montana, demonstrates the

power of creativity and collaboration.

In the summer of 1937, Walter Gropius, founder of the Bauhaus, rented a house on Planting Island, near the base of Cape Cod. Thus began a chapter in the history of modern architecture that has never been told _until now.

The area was a hotbed of intellectual currents from New York, Boston, Cambridge and the country's top schools of architecture and design. Avant-garde homes began to appear in the woods and on the dunes; by the 1970s, there were about 100 modern houses of interest here.

Resident Dog: Incredible Homes and the Dogs That Live There

The importance of protecting significant buildings from decay and destruction would seem to be undeniable. Yet whilst the majority of buildings of merit constructed before the Second World War have been highlighted as worthy of protection there is much indifference, and in some cases hostility towards many important post-war buildings. These deserve to receive wider formal recognition but in many cases continue to be mistreated or even demolished. This book examines many of the philosophical and practical issues surrounding the conservation of modern buildings and also the problems faced by building practitioners in dealing with buildings constructed in a wider range of styles and materials than at any other time. Climate change in particular has forced change in the way in which we think about buildings, with the pressures to address issues of energy efficiency becoming more urgent and likely to have consequences that may alter the perceived architectural and historic interest of modern and traditional buildings alike.

Elemental is an initiative creating innovative solutions for subsidized housing. The programs urban projects aim to improve social housing for poverty stricken families. Elemental organized an international architecture competition which resulted in 7 constructed projects throughout Chile as hybrids between house and building, pushing the limits of expansion and density. Built in central areas, these houses are half-constructed, offering the inhabitants the infrastructure to extend the house to personal needs. This book is a fascinating study of the successes and failures of the 'Element Houses.' ELEMENTAL is a Do Tank affiliated with the Pontificia Universidad Catlica de Chile and COPEC, implementing urban projects for social interest and public impact.
