**Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival. Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology. The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and**

Taryn Clark thought she'd outgrown the need to find her birth mother. She thought that a successful career and a comfortable life in the city were enough to be happy. Did she really need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still binding her heart. Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her musings, she never imagined a scenario where her mother might be Amish. She never imagined that the fabric of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means digging in the mud to do so. Now she's caught in the quicksand of a shocking discovery and the consequences of choices made, almost forty years ago. She'll risk everything to uncover the truth and to claim the family--and the roots--she so desperately craves.

Fans of #1 New York Times bestselling author Lora Leigh's scorching Breed series first met Cassie as a little girl in Elizabeth's Wolf. Now Cassie has finally come into her own as a young woman, and she's about to discover the one she is destined for—but it is unclear whether her fate is to be mated for life, or marked for death... The Breeds are humans altered before conception with the DNA of the predators of Earth. But although they all carry the genetic material of beasts within them, Cassandra Sinclair stands apart. A unique mix of wolf, coyote and human, she is revered by many—but preyed upon by others. She is fiercely protected by her community...but no one manages to stop her when she slips away one day to offer her body in exchange for her sister's safety. The man she succumbs to surprises her by unleashing her inner animal in ways she never dreamed possible—and provokes her deep, furious rage. To Cassie's shock, he is the mate she has long awaited. She may never be able to forgive his deception. Still, as dangerous enemies track her, and as the threat of all-out war between Breeds and the humans who despise them hovers in the air, they must join forces and hold fast to each other. But the passionate union between them holds a potential that could change the world—and some will do anything to stop it...

Children's classics from Alice in Wonderland to the works of Astrid Lindgren, Roald Dahl, J.K. Rowling and Philip Pullman are now generally recognized as literary achievements that from a translator's point of view are no less demanding than 'serious' (adult) literature. This volume attempts to explore the various challenges posed by the translation of children's literature and at the same time highlight some of the strategies that translators can and do follow when facing these challenges. A variety of translation theories and concepts are put to critical use, including Even-Zohar's polysystem theory, Toury's concept of norms, Venuti's views on foreignizing and domesticating translations and on the translator's (in)visibility, and Chesterman's prototypical approach. Topics include the ethics of translating for children, the importance of child(hood) images, the 'revelation' of the translator in prefaces, the role of translated children's books in the establishment of literary canons, the status of translations in the former East Germany; questions of taboo and censorship in the translation of adolescent novels, the collision of norms in different translations of a Swedish children's classic, the handling of 'cultural intertextuality' in the Spanish translations of contemporary British fantasy books, strategies for translating cultural markers such as juvenile expressions, functional shifts caused by different translation strategies dealing with character names, and complex translation strategies used in dealing with the dual audience in Hans Christian Andersen's fairy tales and in Salman Rushdie's *Haroun and the Sea of Stories*.

Following the Pulitzer prize-winning collection *Stag's Leap*, Sharon Olds gives us a stunning book of odes. Opening with the powerful and tender "Ode to the Hymen," Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of conscience that will be familiar from earlier collections, each episode and memory burnished by the wisdom and grace and humor of looking back. In such poems as "Ode to My Sister," "Ode of Broken Loyalty," "Ode to My Whiteness," "Blow Job Ode," and "Ode to the Last Thirty-Eight Trees in New York City Visible from This Window," Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the bodily joys and sorrows of childhood to the deaths of those dearest to us, Olds shapes the world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

Most phrases included in the dictionary are in active current use, making information about their meanings and usage essential to language learners at all levels of proficiency.

Idioms are the expressions peculiar to any language, and English is about as peculiar as languages come! Why do people "argue the toss"?; and how do people "bring home the bacon"? This volume provides a full and thorough guide to both the most recent and more archaic turns of phrase.
