***travel, Joyce E. Chaplin brilliantly tells the story of circumnavigation. Round About the Earth is a witty, erudite, and colorful account of the outrageous ambitions that have inspired men and women to circle the entire planet. For almost five hundred years, human beings have been finding ways to circle the Earth—by sail, steam, or liquid fuel; by cycling, driving, flying, going into orbit, even by using their own bodily power. The story begins with the first centuries of circumnavigation, when few survived the attempt: in 1519, Ferdinand Magellan left***

Starting with these dangerous voyages, Joyce Chaplin takes us on a trip of our own as we travel with Francis Drake, William Dampier, Louis-Antoine de Bougainville, and James Cook. Eventually sea travel grew much safer and passengers came on board. The most famous was Charles Darwin, but some intrepid women became circumnavigators too—a Lady Brasseley, for example. Steamships turned round-the-world travel into a luxurious experience, as with the tours of Thomas Cook & Son.
