Every day, Antonio Vivaldi composes a new orchestral piece, and every day, the orphan Candida transcribes Vivaldi's masterpiece into sheet music for the Invisible Orchestra. Nobody notices Candida or appreciates her hard work. But one day Candida accidentally slips a poem she wrote into the sheet music and the girl so often behind the shadows gets recognized for her own talents. Vivaldi really did have an Invisible Orchestra made up of orphan girls he taught to play. This beautiful book pays tribute to their inspiration.

How to use design as a tool to create not only things but ideas, to speculate about possible futures. Today designers often focus on making technology easy to use, sexy, and consumable. In *Speculative Everything*, Anthony Dunne and Fiona Raby propose a kind of design that is used as a tool to create not only things but ideas. For them, design is a means of speculating about how things could be—to imagine possible futures. This is not the usual sort of predicting or forecasting, spotting trends and extrapolating; these kinds of predictions have been proven wrong, again and again. Instead, Dunne and Raby pose “what if” questions that are intended to open debate and discussion about the kind of future people want (and do not want). *Speculative Everything* offers a tour through an emerging cultural landscape of design ideas, ideals, and approaches. Dunne and Raby cite examples from their own design and teaching and from other projects from fine art, design, architecture, cinema, and photography. They also draw on futurology, political theory, the philosophy of technology, and literary fiction. They show us, for example, ideas for a solar kitchen restaurant; a flypaper robotic clock; a menstruation machine; a cloud-seeding truck; a phantom-limb sensation recorder; and devices for food foraging that use the tools of synthetic biology. Dunne and Raby contend that if we speculate more about everything, reality will become more malleable. The ideas freed by speculative design increase the odds of achieving desirable futures.

Rosa sat so Martin could march. Martin marched so Barack could run. Barack ran so Our children can soar. This is the seed of a unique and inspirational picture book text, that is part historical, part poetry, and entirely inspirational. It symbolically takes the reader through the cumulative story of the US Civil Rights Movement, showing how select pioneers' achievements led up to this landmark moment, when we have elected our first black President. Each historical figure is rendered by a different award-winning African-American children's book illustrator, representing the singular and vibrant contribution that each figure made. Lending historical substance, the back matter includes brief biographies of: George Washington Carver, Jesse Owens, Hattie McDaniel, Ella Fitzgerald, Jackie Robinson, Rosa Parks, Ruby Bridges, Thurgood Marshall, Martin Luther King Jr., Barack Obama.

Explore the roots of rap in this stunning, rhyming, triple-timing picture book! A generation voicing stories, hopes, and fears founds a hip-hop nation. Say holler if you hear. The roots of rap and the history of hip-hop have origins that precede DJ Kool Herc and Grandmaster Flash. Kids will learn about how it evolved from folktales, spirituals, and poetry, to the showmanship of James Brown, to the culture of graffiti art and break dancing that formed around the art form and gave birth to the musical artists we know today. Written in lyrical rhythm by award-winning author and poet Carole Boston Weatherford and complete with flowing, vibrant illustrations by Frank Morrison, this book beautifully illustrates how hip-hop is a language spoken the whole world 'round, it and features a foreword by Swizz Beatz, a Grammy Award winning American hip-hop rapper, DJ, and record producer.

**The inspirational story of George Washington Carver and his childhood secret garden is brought to life in this picture book biography by the author-illustrator team behind *Muhammad Ali: A Champion Is Born*. When George Washington Carver was just a young child, he had a secret: a**

garden of his own. Here, he rolled dirt between his fingers to check if plants needed more rain or sun. He protected roots through harsh winters, so plants could be reborn in the spring. He trimmed flowers, spread soil, studied life cycles. And it was in this very place that George's love of nature sprouted into something so much more--his future. Gene Barretta's moving words and Frank Morrison's beautiful paintings tell the inspiring life and history of George Washington Carver, from a baby born into slavery to celebrated botanist, scientist, and inventor. His passion and determination are the seeds to this lasting story about triumph over hardship--a tale that begins in a secret garden.

Frank Quitely's amazing, finely detailed artwork has been gracing the pages of DC Comics since he began illustrating stories in THE BIG BOOK series, from DC's Paradox Press imprint, in the mid-90's. Quitely quickly earned a name for himself illustrating fellow Scotsman Grant Morrison's FLEX MENTALLO, JLA EARTH 2, as well as Neil Gaiman's SANDMAN: ENDLESS NIGHTS. Graphic Ink: The DC Comics Art of Frank Quitely collects all of Quitely's BIG BOOK stories, his ALL STAR SUPERMAN and BATMAN & ROBIN: REBORN covers and much, much more!

The X-Men have long been at odds with one man who has caused them so much torment throughout the years: the genetic terrorist known as Magneto, Master of Magnetism. They have battled him on many occasions as he fought against Charles Xavier's dream of peaceful coexistence between mutants and humans, preferring instead that mutants inherit the Earth. At last, the X-Men's greatest adversary was thought dead, finally ridding the world of his mutant menace. But instead, he was simply hiding, waiting in secret to make a move against the team that has thwarted his plans again and again. But where he was hiding will shatter the lives of everyone at Xavier's Mansion. Can the X-Men prevent his planned genocide of the entire human race?

Looking back at her lengthy career just four years before her death, modernist painter Nell Blaine said, "Art is central to my life. Not being able to make or see art would be a major deprivation." The Virginia native's creative path began early, and, during the course of her life, she overcame significant barriers in her quest to make and even see art, including serious vision problems, polio, and paralysis. And then there was her gender. In 1957 Blaine was hailed by Life magazine as someone to watch, profiled alongside four other emerging painters whom the journalist praised "not as notable women artists but as notable artists who happen to be women." In Central to Their Lives, twenty-six noted art historians offer scholarly insight into the achievements of female artists working in and inspired by the American South. Spanning the decades between the late 1890s and early 1960s, this volume examines the complex challenges these artists faced in a traditionally conservative region during a period in which women's social, cultural, and political roles were being redefined and reinterpreted. The presentation--and its companion exhibition--features artists from all of the Southern states, including Dusti Bong é , Anne Goldthwaite, Anna Hyatt Huntington, Ida Kohlmeyer, Lois Mailou Jones, Alma Thomas, and Helen Turner. These essays examine how the variables of historical gender norms, educational barriers, race, regionalism, sisterhood, suffrage, and modernism mitigated and motivated these women who were seeking expression on canvas or in clay. Whether working from studio space, in spare rooms at home, or on the world stage, these artists made remarkable contributions to the art world while fostering future generations of artists through instruction, incorporating new aesthetics into the fine arts, and challenging the status quo. Sylvia Yount, the Lawrence A. Fleischman Curator in Charge of the American Wing at the Metropolitan Museum of Art, provides a foreword to the volume. Contributors: Sara C. The story of Elgin Baylor, basketball icon and civil rights advocate, from an all-star team Hall-of-famer Elgin Baylor was one of basketball ' s all-time-greatest players—an innovative athlete, team player, and quiet force for change. One of the first professional African-American players, he inspired others on and off the court. But when traveling for away games, many hotels and restaurants turned Elgin away because he was black. One night, Elgin had enough and staged a one-man protest that captured the attention of the press, the public, and the NBA. Above the Rim is a poetic, exquisitely illustrated telling of the life of an underrecognized athlete and a celebration of standing up for what is right.

*Known for her portraits of family, friends, writers, poets, artists, students, singers, salesmen, activists, and more, Alice Neel created forthright, intimate, and, at times, humorous paintings that quietly engaged with political and social issues. In Alice Neel, Uptown, writer and curator Hilton Als brings together a body of paintings and works on paper of African-Americans, Latinos, Asians, and other people of color for the first time. Highlighting the innate diversity of Neel's approach, the selection looks at those whose portraits are often left out of the art-historical canon and how this extraordinary painter captured them; "what fascinated her was the breadth of humanity that she encountered," Als writes. The publication, which opens with a foreword by Jeremy Lewison, advisor to The Estate of Alice Neel, explores Neel's interest in the diversity of uptown New York and the variety of people amongst whom she lived. This group of portraits includes well-known figures such as playwright, actress, and author Alice Childress; the sociologist Horace R. Cayton, Jr.; the community activist Mercedes Arroyo; and the widely published academic Harold Cruse; alongside more anonymous individuals of a nurse, a ballet dancer, a taxi driver, a businessman, and a local kid who ran errands for Neel. In short and illuminating texts on specific works written in his characteristic narrative style, Als writes about the history of each sitter and offers insights into Neel and her work, while adding his own perspective. A contemporary and personal approach to the artist's oeuvre, Als's project is "an attempt to honor not only what Neel saw, but the generosity of her seeing." This catalogue is published on the occasion of the 2017 exhibitions of Neel's paintings and drawings at David Zwirner, New York, and Victoria Miro, London.*

*Art criticism is spurned by universities, but widely produced and read. It is seldom theorized and its history has hardly been investigated. The State of Art Criticism presents an international conversation among art historians and critics that considers the relation between criticism and art history and poses the question of whether criticism may become a university subject. Superman, dying from solar radiation, tries to make final preparations that will help humans defend themselves after his death while continuing to defend humanity from such foes as Lex Luthor. English journalist Frank Morison had a tremendous drive to learn of Christ. The strangeness of the Resurrection story had captured his attention, and, influenced by skeptic thinkers at the turn of the century, he set out to prove that the story of Christ's Resurrection was only a myth. His probings, however, led him to discover the validity of the biblical record in a moving, personal way. *Who Moved the Stone?* is considered by many to be a classic apologetic on the subject of the Resurrection. Morison includes a vivid and poignant account of Christ's betrayal, trial, and death as a backdrop to his retelling of the climactic Resurrection itself.—Print Ed. Reviews: "It is not only a study on the Resurrection account as the title seems to suggest, but it retells the whole passion of Jesus Christ. Because the author does not concern himself with textual criticism, he is able to impress on the reader a consistent picture of the events of Passion and Resurrection. For this reason the book will perform a helpful service to everyone who wants a reconstruction of those events."—Augustana Book News "A well-arranged summary of events relating to the resurrection of Christ and the pros and cons in the debate over their acceptance with emphasis on the latter."—Watchman Examiner "The story Mr. Morison has told of the betrayal and the trial of Christ is fascinating in its lucid, its almost incontrovertible, appeal to the reason. For me, he made those scenes live with a poignancy and vividness that I have found in no other account, not even in the various attempts that have been made to present the same facts in the guise of a novel."—J. D. Beresford

The Palgrave Handbook of Humour, History, and Methodology

**This handbook addresses the methodological problems and theoretical challenges that arise in attempting to understand and represent humour in specific historical contexts across cultural history. It explores problems involved in applying modern theories of humour to historically-distant contexts of humour and points to the importance of recognising the divergent assumptions made by different academic disciplines when approaching the topic. It explores problems of terminology, identification, classification, subjectivity of viewpoint, and the coherence of the object of study. It addresses specific theories, together with the needs of specific historical case-studies, as well as some of the challenges of presenting historical humour to contemporary audiences through translation and curation. In this way, the handbook aims to encourage a fresh exploration of methodological problems involved in studying the various significances both of the history of humour and of humour in history.**

**Jim Morrison... We all know the stories, but does anyone know the real man? If you don't know where the truth ends and the fiction begins, you're not alone. A misinformation barrage that started when Morrison was alive grew toxic in the years after his death. In an effort to disprove the lies and rumors, Frank Lisciandro, Jim's friend and film collaborator, gathered together more than a dozen of Morrison's friends for a series of interviews and conversations. From the transcripts of those talks Jim Morrison is candidly brought to light by the people who knew him, who were his pals, colleagues, mentors and lovers. *Jim Morrison: Friends Gathered Together* confronts and sweeps away the fantasy to illuminate an extraordinary man and gifted creative artist. The interviews and conversations covered a multitude of topics. The people who share their stories were themselves active participants in the West Coast music scene: musicians, concert promoters, publicists and band managers. Readers will discover funny stories, secrets revealed and truths more astounding than the fabrications published during and after Morrison's life. From his first year in high school and his student days at UCLA to the formation of The Doors and his rise to fame, the book weaves an amazing tapestry of information about Jim Morrison the poet, the brilliant lyricist, and the iconic singer and**

performer of The Doors. The book is a feast for Jim's fans worldwide and for curious readers who want to know the true Jim Morrison story. The conversations also offer a unique oral history of the turbulent Sixties when L.A.'s Sunset Strip was the focus of a cultural renaissance and musical revolution. The book contains 57 original Frank Lisciandro photographs, many never published before. Jim Morrison: Friends Gathered Together focuses on issues and occasions that illuminate an extraordinary man and gifted creative artist. By weighing the observations of those who knew him, the reader can reach his own conclusions about who Jim Morrison was and what he achieved. The result is a more accurate rendering, a more humane and truthful portrait.
