If you have ever pondered the mystery of Astral Projection, Astrology & Out-of-Body-Experiences & wondered if they are real then continue reading... The study of Astrology goes back thousands of years. Our ancient ancestors looked to the sky for many of their answers. Throughout most of its history, astrology was considered a scholarly tradition and was common in academic circles, often in close relation with astronomy, alchemy, meteorology, and medicine. Taking a look at the science, the facts and the speculation behind both the near-death experience and the concept of Astral Projection, this book will provide you with a solid introduction to the experience of travelling beyond your own physical reality. The book also covers the basic principles behind Astral Projection including everything you need to know to begin exploring the phenomenon for yourself. Using tried and tested methods, the book looks at how to prepare yourself to project beyond your own physical body, what to expect when you do and how take the first steps in order to achieve your first out-of-body experience. The keys to understanding astrology is by their groupings into elements, qualities, ruling planets and more. This book contains information on each of the traditional Western signs of the Zodiac. In a full new examination of the traditional Zodiac, this book looks at the popular interpretations of the signs and symbols it contains. In this Book you will discover the realities and benefits of Astral Travel along with a look at the dangers involved (and also how to deal with them). The information in the book is presented in a simple, easy to understand format and the exercises included in the book are designed to be easy for the beginner to both understand and put into practice. Inside the Book you'll also get: Zodiac Controversies Astrology In The Eyes Of Our Ancestors Astrological Charts And Their Significance Explanation Of Each Of The 12 Western Zodiac Signs Love And Relationship Profiles Of Each Zodiac Sign Personality And Compatibility Profiles Of Each Zodiac Sign Ideal Careers For the 12 Zodiac Signs Explore the symbolism, both ancient and modern The Facts, the Fiction and the Science behind Astral Travel The Basic "Rules" and Techniques of Astral Projection The Realities and Benefits of Astral Projection The Dangers of Astral Projection - And How to Protect Yourself And much, much more... The book also places them in context with their ancient meanings. While some astrological signs are easy to interpret, others have deeper meanings and associations now overlooked in the modern world. It's a journey through the fascinating human traits that the Zodiac provides a reference for and, like all exciting journeys, may contain a few surprises. Also containing an introduction examining why the sky (and what was going on up there) was so important to our ancestors, this book takes a deeper look at how the influence of the stars can fashion those of us who live our lives in their shadows. Esoteric Astrology – A New Astrology for a New Millennium Volume One - The Signs,

Planets and Houses of the Horoscope This publication takes a new and revitalised look at astrology. It is simple to understand, yet remains a powerful tool, capable of providing a solid foundation for the comprehension of this broad and magnificent subject. This textbook, like most of Dr. Baker's printed books, eBooks and DVDs, enhances your studies via many charts, lists, tables and images (over 100 in this one). This major work is a very comprehensive introduction for those who want to study this subject in earnest, and for the more advanced student it will serve as an essential reference manual. In today's computer-based world it is no longer necessary to spend hours calculating a horoscope when the most modest PCs can do it in seconds, and with 100% accuracy! Consequently the needless paraphernalia, usually associated with learning astrology, has been stripped away. Emphasis is placed on the application of astrology to the unique problems of the modern world, its use as a method of revealing purpose and meaning in life, and ultimately as a key to the psychosynthesis of personality. The horoscope is described in comprehensive detail, with special attention given to the esoteric ruling planets of the zodiac signs, which are more relevant than orthodox rulers in the charts of spiritually-minded people. The new rulers also accommodate the immense changes in external conditions and inner consciousness that have occurred in the last hundred years and are related to a new range of experience which the brain registers as the externa of the modern world. The significance of karma is represented for it gives dramatic effect to our daily actions, and the third factor of esoteric psychology, lying beyond our understanding of heredity and environment, is given full prominence. This integrative and enriching work can be read alone, as a fascinating introduction and foundation to the New Astrology, or can be followed up with the author's extensive range of astrological books and video tapes, audio lectures and the all-embracing Dictionary of Astrology for the 21st Century. Together they provide a complete system for the professional and novice alike, containing efficient and extraordinary techniques of interpretation which have never been used before and which halve the time required to assimilate and practise astrology. In this complete, step-by-step guide to determining astrological compatibility between two people, the author reveals insights into love relationships as well as connections that are often overlooked in other astrology books such as friendships, working relationships, and parent-child relationships. By comparing the charts of ordinary as well as famous couples, The Astrology of Whole Relationships delves deeply into emotional, intellectual, and sexual compatibility, how karma determines planetary positions, and important indicators of a soul mate connection between two people.

So you got your first astrology chart. Maybe an interpretation, too. But don't you want to know more? What is that big circle in the center? What are those strange, arcane symbols? What does it all mean? All of those questions, and many more, are fully answered in *What Astrology Can Do for You*. Stephanie Jean Clement, Ph.D., has been a board member of the American Federation of Astrologers for almost a decade. Her explanations of what you see on the horoscope are clear and easy to understand. Once you read this book you'll know the truth about what astrology is and what it is not. Then you'll really know how astrology can improve your life. This book explains that astrology is not like a psychic reading. Nor does it speak in generalities.
