A "witty guide" from the chef-owners of Brooklyn's neighborhood restaurant that "presents pared-down Italian food full of flavor, not pretense" (Bon Appétit). From urban singles to families with kids, local residents to the Hollywood set, everyone flocks to Frankies Spuntino—a tin-ceilinged, brick-walled restaurant in Brooklyn's Carroll Gardens—for food that is "completely satisfying" (wrote Frank Bruni in The New York Times). The two Franks, both veterans of gourmet kitchens, created a menu filled with new classics: Italian American comfort food re-imagined with great ingredients and greenmarket sides. This witty cookbook, with its gilded edges and embossed cover, may look old-fashioned, but

the recipes are just what we want to eat now. The entire Frankies menu is adapted here for the home cook—from small bites including Cremini Mushroom and Truffle Oil Crostini, to such salads as Escarole with Sliced Onion & Walnuts, to hearty main dishes including homemade Cavatelli with Hot Sausage & Browned Butter. With shortcuts and insider tricks gleaned from years in gourmet kitchens, easy tutorials on making fresh pasta or tying braciola, and an amusing discourse on Brooklyn-style Sunday “sauce” (ragu), The Frankies Spuntino Kitchen Companion & Kitchen Manual will seduce both experienced home cooks and a younger audience that is newer to the kitchen. “The team behind the popular Brooklyn eatery divulges light Italian secrets in this beautiful tome worthy of any bookshelf.” —Entertainment Weekly “When we’re craving the comforts of red sauce classics, the Frankie’s cookbook is full of reliable recipes guaranteed to keep us satiated.” —Time Out New York “A cookbook that’s as useful as it is artfully conceived.” —GQ

The United States is still fighting World War II. Cherry Ames is still an Army Nurse, this time aloft--as a flight nurse. Cherry is reunited with her corpsman Bunce--the two of them are in sole charge of ferrying severely wounded men out of the battlefield and to the nearest Army hospital. Much to Pilot Wade Cooper's chagrin, he has been taken off bomber duty to fly the wounded to safety--until Cherry makes him see otherwise. Off duty, the nurses "adopt" 6-year-old Muriel Grainger, who has known nothing but war in her short life, and whose mother has been killed by the Germans. Her father is often out on mysterious errands that cause some to label him a "spy." Cherry makes it her risky business to find out if this is truth or rumor.

"In this comprehensive and authoratative guide, Marianne Cusato explains why so many of today's traditional-style buildings miss the mark; describes the essential elements of a house, how they work together, and how to use them appropriately; and shows how to avoid common mistakes at every stage of the design and construction process"--Cover, p. 2.
