On 1 May 2006, the Auditing and Assurance Standards Board (AUASB) introduced a series of new legally enforceable Australian Auditing Standards (ASAs), effective 1 July 2006. Corporate collapses over the last five years, and subsequent criticisms of the audit role, have necessitated a review of the existing auditing standards to ensure audit quality, return stakeholder confidence in the reputation of the audit process, and reinstate to the profession the core audit qualities of reliability, transparency, trust and integrity.

As these standards will be effective for year-end audits after December 15, 2012, they will be covered on the CPA exam beginning in July 2013, when many current students will be taking the CPA exam after completing 150 hours of coursework. In addition, the Louwers book also brings the real world into the classroom through the addition of extensive Auditing Insights involving real issues facing today's professionals as well as the updated Apollo Shoes Casebook, the only stand-alone fraud audit case on the market
