Sometimes, you

can get the "friends & family discount" and get cargo hauled for a bargain. Of course, more trucks are available for a decent rate. But, mostly, drivers and

Download File

arrived.

Pricing guides are typically the origins of creating a powerful agreement-reality of what

constitutes fair business.

The used car industry was standardized

NADA Guides.

in price from shop to shop is the hourly rate for labor and the amount of mark-up on the parts. Trucking is an enormous \$700 billion / year industry. By comparison, the used car industry is

about half at
\$350 billion
per year. The
Kelley Blue
Books and NADA
Guides were
revised
accordingly,
every year, as
the used car
market changed
and new model
years were

Likewise,
revisions to
