Turf. Space. Territory. For thousands of years it's been worth fighting for, sometimes at all costs. Today, real estate remains one of the most coveted investment targets, and combat tactics are often necessary for financial victory. Real estate investing investing is financial, not military warfare. In the investment battlefields winners build war chests through territorial expansion. Losers retreat, surrendering land holdings. Military battles and real estate investing share the same goals and apply comparable techniques for building wealth and power. Investors who understand and apply proven warfare principles to real estate investing become the ultimate financial warriors... Combat Investors. Combat investing shapes you into a personal weapons system -- an effective combination of your personal operating style, financial capacity, and risk tolerance. You deploy elements from your investment arsenal, acting like a jet fighter, a tank, a bomber, a helicopter, an aircraft carrier, or a submarine. You know when to attack investments at close range (tank) or access hard-to-reach properties (helicopter). Different targets with different swag. That's the beauty of combat investing, the blending of the warrior spirit with real estate smarts. No right answer or personal style, just the hunger to succeed. Combat Investor: Real Estate Investment Warfare Guide is written with this principle in mind, teaching you to become a financial "land mind" by: * Honing your land-grabbing instincts * Providing a formula for a successful war chest, with techniques on assessing capital risks, measuring your thirst for competitive battle, and identifying your individual combat investor "style" * Targeting battlefields based upon locations and property types * Training you to fight in current and future investment battlefronts according to proven military tactics for striking profitable targets If you're starting to see real estate investing through the eyes of a warrior, then join the ranks of combat investors. Crack those knuckles and get going!

Buy bank-owned properties at fire-sale prices! Banks and lending institutions today own more than one million foreclosed properties, more are in the foreclosure pipeline. Banks desperately want to get these properties off their balance sheets, but there aren't enough buyers. The result is a soft real estate market with prices investors and homeowners may not see again in their lifetime. In recent years many bargain-hunting investors and homebuyers made the mistake of trying to get foreclosure prices via short sales and pre-foreclosure-- before the bank reclaimed the property. They've been burned by endless delays and uncertainty of the messy foreclosure process. With bank-owned properties, that's over. You deal directly with a motivated seller—the bank—and get the foreclosure price without the hassles and complexity of a short sale or pre-foreclosure. This book shows you how to negotiate the best possible terms with the real estate owned (or REO) department of a bank or lender, including step-by-step instructions and no-nonsense advice on finding great deals, estimating fair market value, and closing the deal. You don't need a ton of cash, because REO investing at fire-sale prices is affordable for almost any investor or homebuyer. Provides detailed, step-based guidance on buying REO properties Written by a super-successful REO investor with fifteen years of experience
