philosophers in the world gather in surprising places—preschools and playgrounds. They debate questions about metaphysics and morality, even though they've never heard the words and perhaps can't even tie their shoes. They're kids. And as Scott Hershovitz shows in this delightful debut, they're astoundingly good philosophers. Hershovitz has two young sons, Rex and Hank. From the time they could talk, he noticed that they raised philosophical questions and were determined to answer them. They re-created ancient arguments. And they advanced entirely new ones. That's not unusual, Hershovitz says. Every kid is a philosopher. Following an agenda

They explore punishment, authority, sex, gender, race, the nature of truth and knowledge, and the existence of God. Along the way, they get help from professional philosophers, famous and obscure. And they show that all of us have a lot to learn from listening to kids—and thinking with them. Hershovitz calls on us to support kids in their philosophical adventures. But more
