*The Gardeners' Chronicle*

*An Account of My Experiences with Psychic Phenomena*

*Italy*

*Judgmental Maps*

*Lonely Planet Morocco*

*Tanzania*

Introducing new reprints by and about Bishop James Pike: *The Other Side Search The Other Side* is a moving narrative of a father's efforts to save his son from enslavement to psychedelic drugs, a tragic story of a young and gifted man's premature death, a startling story of poltergeist occurrences that led the father and other witnesses to believe that from beyond the grave his son was trying to get in touch, a detailed account of how this communication proceeded during a time when the father was under accusation for heresy for believing too little. Above all, it is an analysis by one of America's keenest minds of what all these experiences may mean. *The Other Side* certainly reads like a suspenseful novel, yet every phrase of the narration is painstakingly documented by eyewitness accounts of the strange occurrences that led the Bishop Pike to consult mediums in England and America, and by several word-for-word tape recordings of such seances. All readers will find here an honest and lucid exploration of psychic phenomena, and those who have lost a loved one to suicide will find reason to take heart and find hope.

*Your City. Judged.* A sharp tongued and fierce witted full-color collection of maps of America's greatest cities in all their brutally honest glory. When you move to a new city you look at a map to get you where you need to be, but a Google Map of San Francisco won't tell you where you can get "Real Dim Sum" or where "The Worst Trader Joes Ever" is. Or if you're visiting Chicago, you might want to see the Magnificent Mile, but not know it's right next to where "Suburbanites Buy Drugs" and "Retired Mafioso." This is where Judgmental Maps comes in – a no holds barred look at city life that is at once a love letter and hate mail from the very people who live there. What started as a joke between comedian Trent Gillaspie and his friends in Denver, quickly grew into a viral sensation with a rabid and enthusiastic community labeling maps of their cities with names and descriptions we all think of, but are a bit too shy to say out loud. Collected here in a full color, beautifully packaged book with all new, never before published material, Judgmental Maps is laugh out loud funny from New York to Los Angeles, Minneapolis to Atlanta and offending everyone else in between.

New, expanded edition: the world's best-selling full-color travel guides just got better. This volume in the award-winning Eyewitness Travel Guide series shows Egypt as it has never been shown before. With the help of this guide, you can explore the pyramids using 3-D cutaways, bargain your way through the souqs, plan your Nile cruise - and even learn how to decipher basic hieroglyphics. Good maps and plenty of hotel and restaurant recommendations make sure your visit is fun and hassle-free.

Sample the beers, taste the high life, feast on the architecture - and when you've had your fill, chill out in the spa towns, discover the fairy-tale castles and breathe deep in Slovakia's glorious mountain scenery. Whether you want to party in Prague or hike in the High Tatras, you can connect with the heart of Europe through this inspiring guide.

Succinct in its treatment of the fundamentals, and interwoven with contextual explanation and analytical consideration of the key debates, Honeyball and Bowers' Textbook on Employment Law continues to provide readers with an accessible account of the subject. Including chapter introductions and new end-of-chapter summaries, students of employment law are guided through the intricacies, while further reading suggestions assist with independent research and essay preparation. The critical elements of individual and collective employment law are considered along with treatment of the relationship between UK and EU law, to give readers a wider view of the issues.

Hearings Before the Committee on the Judiciary, House of Representatives, Ninety-third Congress, Second Session, Pursuant to H. **Discusses the attractions, historic sites, accommodations, restaurants, nightlife, and local history of these three Belgian cities**

**What would you do if you discovered your whole life to be a lie? Daniel Henstock thinks he's an ordinary schoolboy but on his sixteenth birthday his world is turned upside down. He is the world's first one-hundred percent genetically-engineered human - assigned the codename Tiberius - and Gregory Dryden, the man responsible, wants him back so that he can continue his deadly experiments. Running for his life, Daniel flees to New York and is forced to go 'off-grid'.**

**In this near-future America, where the security-obsessed authorities require citizens to carry DNA cards, Daniel meets the feisty and beautiful Eleanor. But by falling for her, Daniel also puts her in terrible danger. Daniel pursues the facts about his origins but is hunted by an agent sent by Dryden to bring him to heel. Can Daniel find out the truth whilst trying to evade those who think they own him? As his enemies close in Daniel must draw on resources he never knew he had to win his freedom - but in doing so he may be walking into a deadly trap ... TIBERIUS FOUND is the first instalment in a thrilling series - The Emperor Initiative - that introduces an engaging new hero that will appeal to fans of Alex Rider and Jason Bourne.**

**The Lonely Planet City Guides provide insightful, opinionated reviews from experienced authors who know their town intimately. Smart and streetwise, and with a stunning contemporary design and attractive, full-colour sections throughout, each guide includes a map section with comprehensive geographical coverage."Powerpacked with information, all well ordered and laid out in an engaging and supportive tone." *With the help of Spectrum Algebra for grades 6 to 8, your child develops problem-solving math skills they can build on. This standards-based workbook focuses on middle school algebra concepts like equalities, inequalities, factors, fractions, proportions, functions, and more. Middle school is known for its challenges—let Spectrum ease some stress. Developed by education experts, the Spectrum Middle School Math series strengthens the important home-to-school connection and prepares children for math success. Filled with easy instructions and rigorous practice, Spectrum Algebra helps children soar in a standards-based classroom!*

*In western Mexico, far from the biggest resorts, Burton has discovered a region that has retained the ancient culture and traditions, the Mexico behind the mask. This guide includes suggestions for day trips and longer overnight routes, all within three hours driving time of Guadalajara, Chapala or Ajijic.*

*Adam Shaw had everything: A pretty wife, three smart kids, a great job, a big house. There was just one problem: he liked to drink. A lot. Piece by piece, his secure world disintegrates. By the time he has lost everything that gave meaning to his life it is too late. In his struggle to regain his life Adam must solve the devil's own dilemma: he finds he cannot trust the only organization that can help him back to sanity. Adam's death-struggle infects everyone around him: Gordon, the mysterious stranger who becomes his closest friend; Jackie, the compassionate woman who shows him the way back, and then leaves him; Scott, the young scientist who saves his life at sea; and Leslie, the beautiful nurse with whom he falls in love, but who refuses to accept him until he can sober up. Follow Adam into the abyss, and then back up into the sunlight. You won't be able to set this book down.*
