Scottish Legal System

An introduction to the history of the English language, from ancient times to the present day, including the histories of a selection of words in everyday use.

"e;Recognising the multi-faceted nature of this Scots law, Francis McManus and Eleanor Russell have produced this all-encompassing guide to delict. With numerous case studies and questions for discussion after each chapter, this is essential reading for all students encountering delict for the first time as well as practitioners who require a ready reference for their practice. The Scots law of delict encompasses a vast array of legal sources and contradictions. Many elements are modern and highly developed while others remain ancient and obscure. The majority of delictual principles are case law driven yet, increasingly, legislation plays a part. Further, although the concept of delict is limited to the Scottish jurisdiction, private international law cannot be ignored. "e;

Legal Method Essentials for Scots Law

The first comprehensive account of how the law and practice of child protection in Scotland has developed from its earliest origins to the present day, within the context of a changing world Key Features Places the Scottish juvenile court in worldwide perspective and explores why the juvenile court ideals remain central to the contemporary children's hearing system in Scotland, dealing with both child offenders and neglected and abused children.Gives detailed analysis of the legislation and explores the parliamentary debates surrounding Acts including the Children Act 1908, the Adoption of Children (Scotland) Act 1930, the Children and Young Persons (Scotland) Acts 1932 and 1937, the Children Act 1948, the Social Work (Scotland) Act 1968, the Children (Scotland) Act 1995 and the Children and Young People (Scotland) Act 2014Preserves in accessible form many long-forgotten legal and social aims, cases and secondary legislation Kenneth Norrie traces the assumptions that

Read Book Avizandum Statutes On Scots Public Law

underlay child protection law at particular periods of time and identifies the pressures for change - giving a clearer understanding of how and why the contemporary law is designed and operates as it does. Particular issues are traced in legislative detail, including court processes, the changing thresholds for state intervention, the increasing regulation of children's homes and foster care, the developing rules on corporal punishment and the earlier practice of compulsory emigration to the colonies of children removed from their parents. The transformation of adoption is also covered in comprehensive detail. In drawing out key themes and common threads, Norrie sets contemporary developments against their historical context and offers a fuller understanding of child protection law in Scotland.

The seventh edition of Textbook on Administrative Law continues to provide students with an accessible and stimulating guide to the subject. Practical in approach, the authors concentrate on fully analysing core topics, while at the same time setting them within a contextual and thematic framework.
