In the incomparable manner of his award-winning “The Book of Letters: A Mystical Alphabet”, Kushner now lifts up and shakes the dust off 30 primary religious words used to describe the spiritual dimension of our lives.

Proud of Their Heritage and Sustained by Their Faith, They Came to Tame a New Land She had promised herself that once they left the fjords of Norway, she would not look back. After three long years of scrimping and saving to buy tickets for their passage to America, Roald and Ingeborg Bjorklund, along with their son, Thorliff, finally arrive at the docks of New York free land that fed their dream and lured them from their beloved home high above the fjords of Norway in 1880. Together with Roald’s brother Carl and his family, they will build a good life in a new land that promises untold wealth and vast farmsteads for their children. As they join the throngs of countless immigrants passing through Castle Garden, they soon discover a new land envisioned it. Appalled by the horrid stories of fellow immigrants bilked of all their money and forced to live in squalid living conditions, the Bjorklunds continue their long journey by train as far as Grand Forks. From there a covered wagon takes them into Dakota Territory, where they settle on the banks of the Red River. But there was no way for them to foresee the hardships they would wrest a living from the indomitable land. The virgin prairie refuses to yield its treasure without a struggle. Will they be strong enough to overcome the hardships of that first winter?

Professionals in modern psychology, behavioral medicine, and psychoneuroimmunology are exploring ways in which we can "mentally" influence our own bodies through hypnosis, imagery, visualization, attention, intention, and other forms of self-regulation--for fostering physical and psychological health and well-being. Is it possible for us to use such techniques to influence others, even at a distance, for purposes of healing? Is it possible for us to influence the images, thoughts, behaviors, and physiological reactions of other persons--separated by distance--without conventional sensory means of interaction? Can these abilities extend to animals and even to cells (e.g., human red blood cells)? Might these abilities be involved in the efficacy of distant, mental, or spiritual healing and intercessory prayer? Might these influences even extend to events distant in time--even "backwards in time?" Do these influences have major implications for our scientific theories, our human identity, the interconnections between ourselves and nature, and our relationships with others? Careful laboratory work--described in detail in this book--suggests that the answer to all these questions is a resounding "Yes!" A personal introduction and 12 detailed chapters describe the evidence that supportst these important claims. The book also describes the factors that make such distant mental influences more or less likely, so that anyone might use these distant influence skills more effectively and consistently for their own benefit and for the benefit of others.

London - late 1880s. Alex - successful MBA, skeptical and materialistic executive, sees himself as a woman in a previous life. And, she’s about to have a miscarriage. This out-of-body experience, or regression, totally changes Alex’s present life.He recovers from a serious auto immune condition and forsakes the rat race of the business world to bring relief to others. And, through his treatment of others, he regresses to their previous lives.This book recounts, with incredible detail, the adventures of his clients’ previous lives.Readers learn about hypnosis techniques and other phenomena like déjà vu. Fear not, the book is not overly technical. The author debunks myths about hypnosis, explaining why his controlled techniques produce empirical results, notwithstanding the lack of acceptance by tradtion. This is the first time, but, feel like you once knew them or where there before? Mr. Raco’s clients expose how childhood memories and previous lives contribute to our present consciousness - our very souls. It goes beyond our brains, before our present beings, and after our deaths. The book describes Mr. Raco’s initial heavy skepticism of regression therapy. But it describes the real experiences of others who have had similar experiences. How problems can be solved or reduced by reworking traumatic memories - in this and in previous lifetimes.A book in which topics such as parenting, soulmates, emotional dependency and the love for animals become alive through the lives of soldiers, monks, thieves, singers, slaves, dwarfs, ancient Romans, medieval peasants and warriors.It is a statistical and empirical investigation from a professional perspective. A great instrument for the psychological well-being and personal growth of all of us. A book that will change your life.

Artificial intelligence and machine learning are replacing human work, even in marketing, just as has happened in the past in other manufacturing sectors. Experts haven’t yet understood what is happening, and they continue to recommend the strategic marketing model. If marketing was an exact science then it may be reduced, with the scientific method, systemically and severely to observable and repeatable events which have precise and recognizable causes. So from these events could be developed one or more algorithm, on the basis of which it would be possible to create an automatic software able to handle scientifically each marketing campaign. Soon humans, advisers, which work strategically and scientifically would be replaced by machines. Thanks to the web’s giants today everyone can have access to the most advanced marketing technologies easily and at low prices. This is no longer sufficient, and makes no difference anymore. What makes the difference today are: feelings, stories, experiences, meditation, emotions, irrationality, creativity, intuition... in one word the Magic! Spiritual Marketing is a system that wants go beyond the limits of traditional and strategic marketing choosing ideas and concepts of spiritual origin instead of the strict and at this point ineffective present paradigm. The author analyzes how some states of the soul with spiritual nature can lift up consultation and marketing strategy at an higher level, also because of techniques that derive from coaching and neuro-linguistic programming. He describes as an holistic approach, in concrete situations, can direct to an unpredictable and extraordinary solutions and intuitions.

A healing path using the power of dreams, theater, poetry, and shamanism

- Shows how psychological realizations can cause true transformation when manifested by concrete poetic acts
- Includes many examples of the surreal but successful actions Jodorowsky has prescribed to those seeking his help

While living in Mexico, Alejandro Jodorowsky became familiar with the colorful and effective cures provided by folk healers. He realized that it is easier for the unconscious to understand the language of dreams than that of rationality. Illness can even be seen as a physical dream that reveals unresolved emotional and psychological problems. Psychomagic presents the shamanic and genealogical principles Jodorowsky discovered to create a healing therapy that could use the powers of dreams, art, and theater to empower individuals to heal wounds that in some cases had traveled through generations. The concrete and often surreal poetic actions Jodorowsky employs are part of an elaborate strategy intended to break apart the dysfunctional persona with whom the patient identifies in order to connect with a deeper self. That is when true transformation can manifest. For a young man who complained that he lived only in his head and was unable to grab hold of reality and advance toward the financial autonomy he desired, Jodorowsky gave the prescription to paste two gold coins to the soles of his shoes so that all day he would be walking on gold. A judge whose vanity was ruling his every move was given the task of dressing like a tramp and begging outside one of the fashionable restaurants he loved to frequent while pulling glass doll eyes out of his pockets. The lesson for him was that if a tramp can fill his pockets with eyeballs, then they must be of no value, and thus the eyes of others should have no bearing on who you are and what you do. Taking his patients directly at their words, Jodorowsky takes the same elements associated with a negative emotional charge and recasts them in an action that will make them positive and enable them to pay the psychological debts hindering their lives.

"Icke lays out in dot-connected detail a lifetime of research and insight about our 'computer'-simulated reality, the holographic universe, and the hidden non-human forces that are manipulating human life via hybrid bloodline families and networks into a global Orwellian state of total control!"--P. This introduction to Nichiren Buddhism explores the philosophical intricacies of life and reveals the wonder inherent in the phases of birth, aging, and death. Core concepts of Nichiren Buddhism, such as the 10 worlds and the nine consciousnesses, illustrate the profundity of human existence. This book provides Buddhists with the tools they need to fully appreciate the connectedness of all beings and to revolutionize their spiritual lives based on this insight. Also explored are how suffering can be transformed to personal fulfillment and the well-being of others and how modern scientific research accords with ancient Buddhist views. Ultimately, this is both a work of popular philosophy and a book of compelling, compassionate inspiration for Buddhists and non-Buddhists alike that fosters a greater understanding of Nichiren Buddhism.

"Why would you want to deny that you possibly could be a Spirit intransient, that you possibly could be more than your body, that you possibly could be more than what you have worked for all your life? And why would you want to deny that? Why would you not want to even consider it? Well, to deny that God lives within you is to deny that which is termed your ability for unlimited knowingness, your ability for unlimited love, your ability for unlimited power, your ability to manifest what was called in elder times the kingdom of heaven." – Ramtha

Unlocking the Mysteries of Birth and Death

Who Are We Really?

Ho scoperto nel tempo, di essere un alpinista del Sé, così, continuando ad andare in montagna fuori e dentro di me, sono diventato una guida alpina. La vetta? L’ho conosciuta in gioventù, un mattino d’amore per Me e per tutti e tutto ciò che mi circondava. Averne fatto esperienza, mi ha guidato per tutta la vita. Quello stesso giorno, sono ruzzolato giù dalla cima, oggi so che era necessario che accadesse, per consentirmi di divenire esperto dei sentieri d’avvicinamento e delle tecniche di scalata. Così, ecco, questo lavoro altro non è se non un manuale e un corso di alpinismo interiore. Possa questo mio scritto guidare anche Te verso la grazia di ricordare Chi Sei e ispirare chi, come me, ha scelto di aiutare gli altri per essere d’aiuto a se stesso.

The vast majority of us unknowingly suffer from a slave mentality. We constantly experience the psychological phenomena of cognitive dissonance, where our beliefs and behaviour are in conflict, and Stockholm syndrome – the traumatic bonding with a captor. Our ability to decode reality is linked to what we are able to perceive. Icke believes our reality has been hijacked by an invisible force the Gnostics used to call Archons. He maintains that we are headed towards a cashless world and human settlements which are projected as local community initiatives but are actually centralized systems of control. Our health is being systematically weakened: if you are sick, you are easier to control. Icke’s dystopian view of the future assumes that the masses will stay glued to their TVs, locked forever into the hive mind of the Matrix, which says "I have no power". Can humanity break free? Through truth and love we can become who and what we really are.

This book offers sociological and structural descriptions of language varieties used in over 2 dozen Jewish communities around the world, along with synthesizing and theoretical chapters. Language descriptions focus on historical development, contemporary use, regional and social variation, structural features, and Hebrew/Aramaic loanwords. The book covers commonly researched language varieties, like Yiddish, Judeo-Spanish, and Judeo-Arabic, as well as less commonly researched ones, like Judeo-Tat, Jewish Swedish, and Hebraized Amharic in Israel today.

Most people know that there are 70 million Baby Boomers in America today...but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron – both of whom are in their mid-20s – show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in Millionaire by Thirty, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they’re 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

"The Naked Man is the fourth and final volume [of Mythologiques], written by the most influential and probably the most controversial anthropologist of our time. . . . Myths from North and South America are set side by side to show their transformations: in passing from person to person and place to place, a myth can change its content and yet retain its structural principles. . . . Apart from the complicated transformations discovered and the fascinating constructions placed on these, the stories themselves provide a feast."—Betty Abel, Contemporary Review "Lévi-Strauss uses the structural method he developed to analyze and 'decode' the mythology of native North Americans, focusing on the area west of the Rockies. . . . [The author] takes the opportunity to refute arguments against his method; his chapter 'Finale' is a defense of structural analysis as well as the closing statement of this four-volume opus which started with an 'Overture' in The Raw and the Cooked "—Library Journal "The culmination of one of the major intellectual feats of our time."—Paul Stuewe, Quill and Quire

L'antica disciplina giapponese del Reiki porta gli allievi a entrare in connessione profonda con il creato. Mikao Usui - un vero maestro spirituale e amante della conoscenza - è l'uomo che ne ha scoperto il potere. Dario Canil, che tra i primi ha portato il Reiki in Italia diffondendone la pratica e le tecniche, racconta in questo libro come è entrato in contatto con questa mitica figura di maestro della luce, che in Giappone è considerato uno dei più grandi saggi di sempre. Da quando Frank Arjava Petter ha «scoperto» la tomba di Usui e ne ha parlato a Canil, l'autore ha indagato in profondità tra storia e leggenda, per ricostruirne le vicende e riscoprirne gli insegnamenti. Durante questo viaggio a ritroso nell'evoluzione del Reiki ha riordinato e dato una forma nuova a tutto quello che aveva appreso fino a quel momento. Questo libro è il distillato della sua ricerca spirituale perché, come scrive, il Reiki è «un'esperienza diretta che coinvolge i più lucidi e raffinati processi intuitivi liberi da pregiudizi e si contrappone all'esperienza indiretta del dover credere».
