Many Christians question whether prophecy is stil a valid gift in today's world. In this practical, biblical examination of the gift of prophecy, you'll get a clear picture of what prophecy is and how it works - in the lives of individuals through personal prophecy and in entire churches and groups through corporate prophecy.

We live in a cynical age in which only one prejudice is tolerated--anti-Christian bigotry. Yet despite the unbridled slanders and attacks against the faith, one powerful truth is undeniable: if Christ had never been born, nearly every facet of human life would be much more miserable than it is today. Arranged topically and presenting compelling, little-known historical facts, What If Jesus Had Never Been Born? clearly demonstrates that an enormous array of benefits to humankind--from economics to art to government, science to civil liberties, morality to health, and beyond--would never have occurred had Jesus Christ not lived.

Pountain explores a wide range of texts from poetry, through newspaper articles and political documents, to a Bunuel film script and a love letter. With keypoints and a careful indexing and cross-referencing system this book can be used as a freestanding history of the language independently of the illustrative texts themselves.

A Practical Guide to Praise & Worship

Used as a text internationally, Exploring Worship lays a scriptural foundation for understanding what praise and worship really is, and then provides a practical framework for implementing praise and worship at the local church level. This is one of the foremost worship texts used today by Bible Schools, Universities, and local church worship ministries. The "Revised/Updated version" makes Exploring Worship once again a relevant equipping tool to today's worshipers. "I am totally unaware of a more comprehensive treatment of this subject in any book, including those of mine. It should be read by all worshipers, and should be required study for all who aspire to lead congregational worship." - Dr. Judson Cornwall, from the foreword Chilean writers Marta Brunet, María Luisa Bombal, and Diamela Eltit present a female subject that resists legal imperatives, sexual contracts, and the patriarchal literary canon. From different perspectives and through different aesthetic paradigms, the narratives of these authors question modernity in Chile as a masculinist itinerary shaped by authoritarianism and Catholic ideology. Through the reexamination of the concept of passion and recovering its meaning in the Greek pathos, subjectivity is here posed as an individual's ethical tendency that expresses the subject's character. Challenging the Christian patriarchal view of passion as sin and vice and the economic definition of it as interest and calculation that modernity adds on, these texts position passion against binary Western epistemology, moral judgment, and social usefulness. Passion, understood in this way, allows the examination of three historical moments of the Catholic authoritarian Chilean modernity that this literature disputes. In all three moments, the narratives selected denounce calculation, interest, and logical rationality as the tools for the reorientation of the passions or what is the same, the suppression of contestatory claims. Gender, in these three aesthetic projects, is a form of marginalization embedded in a state authoritarian morality and law regulated by marriage and the family. In this context, female aggression and unconventional sexuality become a double threat to masculinity and to the process of modernization. These writers challenge a logocentric linguistic system through discursive strategies that organize a new narrative model, showing that motherhood and womanhood inevitably conflict in the public sphere and rights of citizenship. Throughout the literary imaginaries of the twentieth century there is a reiteration of an authoritarian patriarchal pattern that permeates the social arena as well as the female subject, revealing the contradictions of the Chilean modernity/modernization process. The nation appears invariably determined by semi-feudal and semi-modern structures as well as split female modern subjects. Noticing this has led the author to write this book and investigate specifically the ways the discourse of modernity conflicts with the marriage contract in the construction of feminine subjectivity. Marriage is one of the modern protocols that resolve sexual difference through a pact that proclaims male protection in exchange for female obedience. Subordination of difference becomes the overarching feature guiding an incomplete modernity and its attainment in a hierarchical society. By custom and law women are dependent on their fathers and husbands while in the public discourse they are offered the independence and autonomy of being modern. This irreconcilable contradiction marks female experiences and alternatives in a world that holds on to old patriarchal mores while claiming to be liberal and modern. This book will intrigue literary scholars, feminist critics, and cultural critics interested in literary and resistance movements in Chile and Latin America, and well as readers alert to critiques of capitalism and modernization.

Arise, shine, for your light has come, and the glory of the Lord has risen upon you. For the darkness shall cover the earth and deep darkness the peoples; but the Lord shall rise upon you, and His glory shall be seen upon you. —Isaiah 60:1-2, MEV

The Historia del Nuevo Mundo, set down by Father Bernabe Cobo during the first half of the seventeenth century, represents a singularly valuable source on Inca culture. Working directly from the original document, Roland Hamilton has translated that part of Cobo's massive manuscripts that focuses on the history of the kingdom of Peru. The volume includes a general account of the aspect, character, and dress of the Indians as well as a superb treatise on the Incas—their legends, history, and social institutions.

The chapters in this volume on the nature of Spiritual Authority are drawn from a series of messages delivered by the great Chinese preacher-teacher, Watchman Nee, during a training period for Christian workers in China in 1948.

To know the Holy Spirit is to know Him as an ever-present, loving Friend and mighty Helper. From the Scriptures, Charles H. Spurgeon shows that the Holy Spirit wants to be our Comforter, Teacher, and mighty Advocate. The miraculous life the early Christians lived amazed the world and “turned it upside down.” Today, many are experiencing the same healing, miracles, and other gifts of the Holy Spirit, along with the love, joy, and peace that He freely gives. Discover how you can walk daily in the presence of the Holy Spirit and experience His miracle-working power in your own life.

More than ever, Christians need to know what the Bible actually teaches about parenting, and put it into practice. In Successful Christian Parenting, pastor/teacher John MacArthur presents time-proven principles of biblical parenting clearly and carefully to help parents make sense of their duties before God and to bring up their children in the ways of the Lord.

Originally published in 1960, The Constitution of Liberty delineates and defends the principles of a free society and traces the origin, rise, and decline of the rule of law. Casting a skeptical eye on the growth of the welfare state, Hayek examines the challenges to freedom posed by an ever expanding government as well as its corrosive effect on the creation, preservation, and utilization of knowledge. In distinction to those who confidently call for the state to play a greater role in society, Hayek puts forward a nuanced argument for prudence. Guided by this quality, he elegantly demonstrates that a free market system in a democratic polity—under the rule of law and with strong constitutional protections of individual rights—represents the best chance for the continuing existence of liberty.

Striking a balance between skepticism and hope, Hayek's profound insights remain strikingly vital half a century on. This definitive edition of The Constitution of Liberty will give a new generation the opportunity to learn from Hayek's enduring wisdom.

In 1996 physicist Alan Sokal published an essay in Social Text--an influential academic journal of cultural studies--touting the deep similarities between quantum gravitational theory and postmodern philosophy. Soon thereafter, the essay was revealed as a brilliant parody, a catalog of nonsense written in the cutting-edge but impenetrable lingo of postmodern theorists. The event sparked a furious debate in academic circles and made the headlines of newspapers in the U.S. and abroad. Now in Fashionable Nonsense: Postmodern Intellectuals' Abuse of Science, Sokal and his fellow physicist Jean Bricmont expand from where the hoax left off. In a delightfully witty and clear voice, the two thoughtfully and thoroughly dismantle the pseudo-scientific writings of some of the most fashionable French and American intellectuals. More generally, they challenge the widespread notion that scientific theories are mere "narrations" or social constructions.

C. H. Spurgeon writes, “Only God can justify the ungodly, but He can do it to perfection. He casts our sins behind His back; He blots them out. He says that though they be sought for, they shall not be found.” In an age of limited travel and isolated nations, C.H. Spurgeon preached to over 10,000,000 people in person—sometimes up to 10 times per week. It is in this classic work that Spurgeon most clearly present the message of salvation—man’s ultimate need and God’s unique provision—both simply and sincerely, for honest seekers and zealous witnesses alike.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." —an excerpt

Leading Prophetic Voice Reveals New Insight on Defeating an Ancient Evil According to leading prophetic voice Jennifer LeClaire, the subversive Jezebel spirit continues to deceive many. She shows, with keen biblical insight, that Jezebel does much more than most believers thought—and that it's time to expose the deceit and defeat the spirit's insidious work. By pulling back the curtain on this seducing principality, LeClaire picks up where other books on Jezebel leave off. She demonstrates biblically not only that the Jezebel spirit uses control as a weapon but that it is a mastermind of immorality and outright idolatry. She also gives spiritual warriors the real-world strategies needed for defeating this dark spirit in the lives of God's people.

An Account of the Indians' Customs and Their Origin, Together with a Treatise on Inca Legends, History, and Social Institutions

Nothing else damages the earth's environment more than our cities. As the world's population has grown, our cities have burgeoned, and their impact on the environment worsened. Meanwhile, from the isolated, gated communities within Houston and Los Angeles, to the millions of residents of Bombay living in squalor, the city has failed to serve its ideal function—as the cradle of civilization, the engine of culture, and the inspiration for community and citizenship. In Cities for a Small Planet, Sir Richard Rogers, one of the world's leading architects and the designer of the Pompidou Center in Paris, demonstrates how future cities could provide the springboard for restoring humanity's harmony with its environment. Rogers outlines the disastrous impact cities have had and will continue to have on our world, from waste-saturated Tokyo Bay, to the massive plumes of pollution caused by London's traffic, to the depleted water resources of Mexico City. He traces these problems to the underlying social and cultural values that create them—unchecked commercial zeal, selfish individualism, and a lack of community. Bringing to bear concepts such as that of “open-minded” space—places within cities that serve multiple functions such as markets, parks, and sidewalk cafes—he explains how urban design can be used to give citizens a sense of shared experience. The city built with comfortable and safe public space can bring diverse groups together and breed a sense of tolerance, awareness, identity, and mutual respect. He calls for a new theoretical shift in the way cities do business and interact with the environment, arguing that many products come to market and are sold without figuring their social or environmental cost. Rogers goes on to describe the city of the future: one that is sustainable within its own environment; that can make a positive impact on its surroundings; that encourages communication among its citizens; that is compact and focused around neighborhoods; and that is beautiful, a city whose buildings and spaces spark the creative potential of its inhabitants.As our population grows larger, our planet grows smaller. Cities for a Small Planet is a passionate and eloquent blueprint for the cities we must create in response, cities that provide for the needs of both their residents and the earth on which they live.
