Over two hundred and thirty years ago the Fallocaust happened, killing almost everything that lived and creating what is now known as the greywastes. A dead wasteland where cannibalism is a necessity, death your reality, and life before the radiation nothing but pictures in dog-eared magazines. Reaver is a greywaster, living in a small block controlled by a distant ruler said to have started the Fallocaust. He is a product of the savage world he was raised in and prides himself on being cold and cruel. Then someone new to his town catches his eye, someone different than everyone else. Without knowing why he starts to silently stalk him, unaware of where it will lead him.

Attuned to a world of natural signs—the stars, the winds, the curl of ocean swells—Polynesian explorers navigated for thousands of miles without charts or instruments. They sailed against prevailing winds and currents aboard powerful double canoes to settle the vast Pacific Ocean. And they did this when Greek mariners still hugged the coast of an inland sea, and Europe was populated by stone-age farmers. Yet by the turn of the twentieth century, this story had been lost and Polynesians had become an oppressed minority in their own land. Then, in 1975, a replica of an ancient Hawaiian canoe—Hōkūle‘a—was launched to sail the ancient star paths, and help Hawaiians reclaim pride in the accomplishments of their ancestors. Hawaiki

Rising tells this story in the words of the men and women who created and sailed aboard Hōkūle‘a. They speak of growing up at a time when their Hawaiian culture was in danger of extinction; of their vision of sailing ancestral sea-routes; and of the heartbreaking loss of Eddie Aikau in a courageous effort to save his crewmates when Hōkūle‘a capsized in a raging storm. We join a young Hawaiian, Nainoa Thompson, as he rediscovers the ancient star signs that guided his ancestors, navigates Hōkūle‘a to Tahiti, and becomes the first Hawaiian to find distant landfall without charts or instruments in a thousand years. Hawaiiki Rising is the saga of an astonishing revival of indigenous culture by voyagers who took hold of the old story and sailed deep into their ancestral past.

**NAMED A BEST BOOK OF THE YEAR BY BOOKPAGE AND LIBRARY JOURNAL** The Crimson Petal and the White meets Fight Club: A page-turning novel set in the world of female pugilists and their patrons in late eighteenth-century England. Moving from a filthy brothel to a fine manor house, from the world of street fighters to the world of champions, *The Fair Fight* is a vivid, propulsive historical novel announcing the arrival of a dynamic new talent. Born in a brothel, Ruth doesn't

That is until she meets pugilist patron George Dryer and discovers her true calling—fighting bare knuckles in the prize rings of Bristol. Manor-born Charlotte has a different cross to bear. Scarred by smallpox, stifled by her social and romantic options, and trapped in twisted power games with her wastrel brother, she is desperate for an escape. After a disastrous, life-changing fight sidelines Ruth, the two women meet, and it alters the perspectives of both of them. When Charlotte presents Ruth with an extraordinary proposition, Ruth pushes dainty Charlotte to enter the ring herself and learn the power of her own strength. A gripping, page-turning story about people struggling to transcend the circumstances into which they were born and fighting for their own places in society, *The Fair Fight* is a raucous, intoxicating tale of courage, reinvention, and fighting one's way to the top.

**Wealth can be transferred on death in a number of different ways, most commonly by will. Yet a person can also use a variety of other means to benefit someone on death. Examples include donations mortis causa, joint tenancies, trusts, life-insurance contracts and nominations in pension and retirement plans. In the US, these modes of transfer are grouped under the category of 'will-substitutes' and are generally treated as testamentary dispositions. Much has been written about the effect of the use of will-substitutes in the US, but little is generally known about developments in other jurisdictions. For the first time, this collection of contributions**

**looks at will-substitutes from a comparative perspective. It examines mechanisms that pass wealth on death across a number of common law, civil law and mixed legal jurisdictions, and explores the rationale behind their use. It analyses them from different viewpoints, including those of owners of businesses, investors, as well as creditors, family members and dependants. The aims of the volume are to show the complexity and dynamics of wealth transfers on death across jurisdictions, to identify patterns between jurisdictions, and to report the attitudes towards the different modes of transfer in light of their utility and the potential frictions they give rise to with policies and principles underpinning current laws.**

*This report makes recommendations for reform of the law and presents two draft Bills to implement the necessary changes. Firstly, The draft Inheritance and Trustees' Powers Bill includes reforms that would: ensure that where a couple are married or in a civil partnership, assets pass on intestacy to the surviving spouse in all cases where there are no children or other descendants; simplify the sharing of assets on intestacy where the deceased was survived by a spouse and children or other descendants; protect children who suffer the death of a parent from the risk of losing an inheritance from that parent in the event that they are adopted after the death; amend the*

Secondly, The draft Inheritance (Cohabitants) Bill contains further provisions that would give certain unmarried partners who have lived together for five years the right to inherit on each other's death under the intestacy rules. Where the couple have a child together, this entitlement would accrue after two years' cohabitation, provided the child was living with the couple when the deceased died.*

Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival. Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology.

The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive

health, behavioral disease, aging,race/racism and health, mental health, and healers and healing.
