

## Battle For The Nether Book Two In The

This adventure series is created especially for readers who love the fight of good vs. evil, magical academies like Hogwarts in the Harry Potter saga, and games like Minecraft, Terraria, and Pokemon GO. Entity303, the cruel villain who has poisoned vanilla Minecraft with dangerous and bizarre mods, was able to escape the sky-islands of Mystcraft, leaving the surface of Minecraft in a giant rocket. Gameknight999 knows Weaver must be sent back into the past so the timeline can be repaired and the eventual destruction of all the Minecraft worlds can be stopped. But to send him back, they must find the time-traveling portal that brought Weaver to the future. And only Entity303 knows the location. They have no choice; Gameknight999 and his friends must follow behind, landing on a strange and barren lunar landscape, a world stranger and more alien (in more ways than one) than any other Minecraft mod. It's here that they must battle outer space mobs, combat monster bosses, and find Entity303. But as they close in on the terrible user, Gameknight999 will discover Entity303's real scheme, and the very thought of what the evil user plans will fill everyone with terror. Can the User-that-is-not-a-user catch Entity303 as he travels through the cold reaches of universe, before it's too late? Come along with Gameknight999 on his most thrilling adventure yet, to a biome unlike anything else in the Overworld: outer space!

An evil army threatens to destroy all of Minecraft in the third Gameknight999 adventure! The ghastr king Malacoda and the terrible enderman Erebus have led their monster army to the server that houses the Source, with plans to destroy Minecraft and all the digital lives on its servers before escaping once and for all into the real world. Only Gameknight999, the User-that-is-not-a-user, and his small army of NPCs can stop them. But the monster horde is growing bigger by the day, as if they are being helped by an unknown someone . . . or something. A secret lurks in the shadows as Gameknight and his friends race across the server, a secret with evil glowing white eyes. To defeat the monsters of the night, Gameknight will first need to find out how monsters are being created so quickly. His quest will eventually take his army into a different dimension altogether, where an island floats ominously in the Void and a deadly creature flaps its gigantic wings . . . The four volumes of Andrea Spalding's Summer of Magic Quartet are among her most exciting work. The White Horse Talisman was nominated for the Silver Birch, Hackmatack and Manitoba Readers' Choice Awards. Dance of the Stones was also a Silver Birch nominee. Heart of the Hill left one of her four characters in grave danger. Now, as the Dark Being discovers our planet and takes one of the children hostage, the others must restore the balance between light and dark, but at what cost?

Melissa is waiting for the "new life" that her mother Sharlene has promised her since a fire devastated their family. But nothing ever seems to change. Melissa has difficulty making friends at school, they never have enough money and her little brother Cody is a brat. When Sharlene announces that they will be spending the month of August at a remote cabin on a wilderness lake, Melissa is less than thrilled. But there is more to do at the lake than she expected, and she is surprised to learn that her mother knows how to paddle a canoe, fish and make bannock and s'mores. On an island in the middle of the lake, Melissa meets Alice, a strange girl who is writing a fantasy novel. Alice shares her tree fort on the island with Melissa, and while at first Melissa is attracted to Alice's strong personality and her stories of her "perfect family," she becomes increasingly uneasy around Alice. As Melissa's relationship with her mother improves and her confidence increases, she is able to hold her own with Alice and start to appreciate her own imperfect family.

Gameknight999 reenters Minecraft to find it completely changed. There are new monsters that he's never seen before: giants and skeleton druids and pinch beetles and king spiders and mistwolves. Villages are larger than ever, and more heavily fortified;

Minecraft had become much more dangerous. Even the very trees had changed, with some of them reaching up taller than the User-that-is-not-a-user ever thought was imaginable. There's a diamond block portal outside of Crafter's village, and rumors are spreading that a strange user was seen coming out of the portal with a young boy, before they disappeared into another portal, leaving behind a square hole one block deep with a ring of flowers around it. Gameknight recognizes it as the portal to reach the Twilight Forest mod. But how can there be mods here in the vanilla Minecraft? The User-that-is-not-a-user follows the trail, and finds odd mentions of "303" and "White Castle." But what do the clues mean? Just how dangerous is this new user to Minecraft, and where is he taking the young NPC? Only Gameknight999 will be able to find out. Gameknight999 is hot on the trail of Entity303, who has kidnapped Weaver. He follows the mysterious villain into the strange mod world of Mystcraft, with green skies, trees with blue leaves, floating islands, and a blood-red moon. Entity303 makes his way to a tower made of sparkling blue crystals, where he steals a linked book from the User-that-is-not-a-user, disappearing into one of Mystcraft's many ages. Without the linked book, Gameknight has no way of ever leaving Mystcraft and returning to the Overworld. And besides, he can't leave with rescuing Weaver and sending him back to the past, which would repair Minecraft's timeline, making things right in the game once again. The User-that-is-not-a-user has no choice but to visit each age, in hopes of finding the right one. But in the process he'll discover an unsettling truth about Entity303, and the deadly monsters the villain has left in wait for him.
