For over a decade, a lucky few were able to learn with this wonderful new system. It uses color as educational scaffolding and aligns with universal learning theory. Imagine your child, no matter the age or ability, being able to finally make music and enjoy the process! Since 2015, this system became known as the Musicolor Method. There are teachers all over the world now using this ingenious method. If you want to share the joy of music with your children, grandchildren or students, and want to spare them the pain of traditional methods, give this a try. It's the world's #1 way to teach and learn music instantly! "I wish I had learned this way. My teacher was so boring and I gave up after a few weeks of torture." - Parent of a Musicolor student. "You're method is amazing - especially for kids on the autism spectrum. It's so intuitive!" - Parent of a Musicolor student. "It's an amazing way to start kids on piano and music in general." - KF - Musicolor Teacher

Most beginner songbooks aren't especially inspiring for pianists who are just getting started. Just because you are a beginner doesn't mean you don't want to make beautiful and moving music! This book allows beginners and early intermediate students to play songs that are interesting, emotional, jazzy, fun and engaging. Whether children or adults, pianists find themselves LOVING to play these songs and feeling like real musical artists, not just someone who can play "Row, Row, Row Your Boat" and other simple melodies that lack rich musical textures and emotions. From songs that can be played by students in early level books to pieces that will be enjoyed by students in their second and third year of studies, "Looks Easy, Sounds Hard" will be a well-loved companion to your musical studies. Julie has recorded all of the songs from Looks Easy, Sounds Hard and put them on YouTube so that students can hear what they will sound like with practice. The information about how to watch/listen to the videos is at the bottom of each song. More books by Julie Hanney coming soon: Looks Easy, Sounds Hard - Duets Looks Easy, Sounds Hard - Jazzy Tunes Looks Easy, Sounds Hard - Classical Melodies Looks Easy, Sounds Hard - How to Write Your Own Songs Looks Easy, Sounds Hard - For Intermediate Pianists About the Composer: Julie Hanney is a performer, teacher, music director and published composer of works for many different instruments, including several for choir and piano that were published under her previous name, Julie Wheeler. She received a B.A. in Music from the University of Oregon where she studied piano with Victor Steinhardt. She also did graduate studies in composition with Dr. Robert Kyr. Julie maintains a private piano teaching studio and has released two solo piano albums: "Painting in Sound" and "A Peace-Filled Christmas." She loves inspiring her students of all ages to truly enjoy playing the piano. Expressing yourself through music is one of the great joys on earth, and it is Julie's hope that "Looks Easy, Sounds Hard" will inspire people young and old to play with freedom, passion, joy and creativity. purchased in physical and digital formats through the CD Baby Store or on Amazon.com. Notes from Julie Hanney about Looks Easy, Sounds Hard: - The look on a musician's face when they begin making "real music" that sounds good to them - this is the motivation behind Looks Easy, Sounds Hard. In the first year or two of lessons most of the songs in beginning books aren't particularly inspiring or beautiful. "Old MacDonald Had a Farm," "Twinkle, Twinkle Little Star" and "Yankee Doodle" are classics, but students of all ages yearn to play music that is intriguing, expressive, jazzy and/or sounds like music they would hear in a movie. The songs in this book fit the bill with a variety of moods and genres, each one accessible to beginning students. I hope you enjoy playing these songs and that they inspire you to play with joy, play often and share your musical gifts with the world. We can better understand the people from all corners of the world, in all their incredible diversity. In many ways, music is a universal language, crossing borders and opening up a whole new world to our minds. We've gathered 51 different national songs including lyrics adapted especially for beginners. They include classic sheet music, letter-coded notation, and online audio tracks. You will enjoy folk music, children's songs, hymns, popular melodies, and dances. This songbook is suitable for any keyboard musical instrument: piano, synthesizer, accordion, melodica, even for percussion instruments such as xylophone or marimba. This book is for adults who are absolute beginners in music. You don't have to read sheet music or have any kind of musical background. Some melodies have been changed and simplified and can be played with just one hand. If you are a beginner, playing by notes can be difficult. It is easier to begin to play by following letters. You just need to get and apply stickers with the note letters on your piano keys. Also, we have added a QR code to all songs. You can follow the link and listen to the rhythm before beginning to play. Contents A Barata Diz Que Tem. Song from Portugal Annie Laurie. Song from Scotland Baidin Fheilimi. How can piano teachers successfully foster student participation and growth from the outset? How can teachers prepare and sustain their influential work with beginner student musicians? This book presents answers to these questions by making important connections with current music education research, masters of the performance world, music philosophers, and the author's 30-year career as a piano pedagogy instructor in Canada, the USA, Australia, New Zealand, and Japan. It investigates the multilayered role piano teachers play right from the very beginning – the formative first four to five years during which teachers empower students to explore and expand their own emerging musical foundations. This book offers a humane, emancipatory, and generous approach to teaching by grappling with some of the most fundamental issues behind and consequences of studio music teaching. More experiential than abstract and cerebral, it demonstrates how teaching beginner piano students involves an attentiveness to musical concerns like our connection to music, learning to play by ear and by reading, caring for music, the importance of tone and technique, and helping students develop fluency through their accumulated repertoire. Teaching beginner students also draws on personal aspects like independence and authenticity, the moral and ethical dignity associated with democratic relationships, and meaningful conversations with parents. Further, another layer of teaching beginners acknowledges both sides of the coin in terms of growth and rest, teaching what is and what might be, as well as supporting and challenging student development. In this view, how teachers fuel authentic student musicians from the beginning is intimately connected to the knowledge, beliefs, and values that permeate their thoughts and actions in everyday life. Fundamentals of Piano Pedagogy stands out as

a much-needed instructional resource with immense personal, practical, social, philosophical, educational, and cultural relevance for today's studio music teachers. Its humanistic and holistic approach invites teachers to consider not only who they are and what music means to them, but also what they have yet to imagine about themselves, about music, their students, and life.

Learning to read and write music is very similar to learning a new language. Music theory is the study of the fundamental elements of music and how it is written. Music Theory For Beginners was developed for anyone interested in learning to read and write music, a task that can be quite daunting for novices. This book, however, will allay any fears and set you on the path to learning what all those dots, lines, and symbols actually mean. It provides the necessary scholarly muscle to entice and inform the reader, yet it does not require any prior knowledge of music or force the reader to wade through hundreds of pages of jargon and details.

Whether your goal is to gain a cursory understanding of music, become fluent in reading music, or start composing your own music, this text will provide everything you need for a solid foundation in music theory. Anyone can pick up Music Theory For Beginners and instantly start learning about--and understanding--music theory.

requests for something easier and more geared towards an absolute beginner... So, I created: Christmas Music for Beginning Piano! In this book, you will find two arrangements of each song, plus a simple lead-sheet (melody with chord symbols). Both arrangements split the melody between both hands, and nearly all of the songs are arranged so that the hands do not change position. The first arrangement of each piece is the melody only and has a diagram showing where to place the hands on the keyboard, while the second arrangement adds harmony, making the arrangement self-accompanying. Lyrics are not included in these arrangements, but the lead-sheet arrangement contains the first verse or chorus fitting the arrangement. I did it this way for two reasons: 1. This is not a sing-along song book, but a book for beginning piano players looking for familiar music that they can play right away. 2. I did not want the clutter of the lyrics on the piano arrangements. I lead-sheet arrangements with lyrics for convenience. Songs: Angels From the Realms of Glory, Angels We Have Heard on High, Auld Lang Syne, Away in a Manger, The Boar's Head Carol, Bring a Torch, Carol of the Bells, Christ Was Born on Christmas Day, Coventry Carol, Deck the Halls, Ding Dong! International songs are one of the most exciting and appealing avenues to introducing children to new and different cultures through music. We've gathered 45 different national songs adapted especially for kalimba, including lyrics, classical sheet music, number-coded notation, and online audio tracks. The songbook is colorfully designed with national patterns. You will enjoy folk music,

children's songs, hymns, popular melodies, and dances. This educational book will help you begin to play music easily. If you are a beginner, playing by notes can be difficult. It is easier to play the finger piano by following numbers. Our sheet music is universal and suitable for any 8-, 10- or 17- note kalimba or mbira. Some melodies might have been changed and simplified to be played within one octave. If your thumb piano has flat keys, it is recommended that you use classic sheet music for the piano. Also, we have added a QR code to all songs. You can follow the link and listen to the rhythm before beginning to play. One of the biggest mistakes when someone starts learning to play the piano is playing songs with their index finger instead of using all fingers and both hands. Most piano sheet music for kids has notes for practicing with the right hand only, which encourages the 'plinky-plonk' playing that children should avoid. In this book, however, all songs have treble and bass clef notes for practicing with both hands! So, suppose you are looking for a diverse collection of 55 large print piano songs for children, young learners, or adult students that are simple enough for beginners to play and show letters (note names), numbers (fingerings), and lyrics. In that case, this is the perfect book for you. In this book, you will get: 55 EASY PIANO SONGS FOR KIDS - All songs have been arranged especially for young learners. This means that all complex chords and rhythms have been simplified. Also, all the pieces are kept relatively short, only one or two pages long. This will allow your child to enter the magic world of piano without frustration. FROM EASIEST TO HARDEST - Are you tired of searching for piano

pieces with the appropriate difficulty? At the beginning of this book, you will find very simple songs, and then they gradually get more challenging as the book progresses. This will keep your child motivated and enable them to progress through the levels. **DIFFERENT TYPES OF SONGS** - You will get a diverse selection of pieces: well-known children's songs and nursery rhymes and simplified classical pieces, as well as famous English evergreens and international folk songs. This varied selection of easy sheet music will fuel your kid's enjoyment when practicing the piano. **WITH LETTERS AND NUMBERS** - The most straightforward songs in this book are presented with letters above the music notes to help you know what keys to press. However, as the pieces get more complex, the note names have been deliberately left out to encourage note recognition. All songs include finger placements (numbers) in problem areas. **LARGE PRINT** - Most music notes for beginners are pretty small, so learners struggle to read them without squinting. To avoid this, all songs in this book have a clear layout and large print for students to follow the pieces easily. **NOTES FOR BOTH HANDS** - Most easy piano pieces for children have notes for practicing one hand only, encouraging them to play songs with only their index finger. The proper technique, however, is playing with all fingers and both hands. That's why all pieces in this book are in both treble and bass clef (i.e., both right and left hand). **BONUS: FREE AUDIO FILES TO DOWNLOAD** - Do you want to get an idea of what a piece should sound like? If you are unsure how to play a piece, our audio files will help you get a feel for the melody. Buy this book **NOW** and enter the splendid world of piano and music! Ideal also as a wonderful birthday present or Christmas gift. This piano songbook includes the best classical songs for piano.
