Kim felt sickness sweep over her as she watched little Grace dust off her dirty hands. Blonde curls tumbled around her face. Then, Grace disappeared into the crowd. Kim wanted to pause the recording, run outside and grab her to stop what was about to happen. One August afternoon, eight-year-old Grace Lennard skips into the garden of the childcare centre she attends and vanishes into thin air. Rushing to the scene of Grace's disappearance, Detective Kim Stone finds a chilling piece of evidence: the engraved heart bracelet belonging to Melody Jones – the little girl who was taken from a playground exactly twenty-five years ago. Hours before, Steven Harte had walked into Halesowen police station and confessed to having information that would lead Kim to Melody. And he told Kim she'd have a more urgent problem to deal with first. Now Kim must play Steven's twisted game if she's to find Grace alive. With only twenty-four hours to make every second of Steven's interrogation count, and scan his behaviour for hidden clues, Kim and her team soon link Steven to the abduction of several vulnerable girls – two were kept for a year and then released, unharmed – but where are Melody and the others? Then small bones are discovered in the grounds of a local park, and Kim fears the worst. Kim may think she's close to convicting a killer, but the case has got even more complex. A chilling figure from Kim's past is about to reveal a shocking secret that will hit her where it hurts the most. Can Kim put aside her own demons, save Grace and the other missing girls before more innocent lives are lost? An edge-of-your-seat thriller that will leave your heart in your mouth. Pulitzer Prize-winning journalist Anthony M. DeStefano's latest in-depth history of organized crime exposes the truth behind the mafia crew that took down John Gotti. **THE BOSS OF BOSSES** Pulitzer Prize-winning journalist Anthony M. DeStefano exposes the rise and fall of Vito Genovese in this first comprehensive biography of the legendary mafioso—from his childhood in Naples, Italy, and the beginnings of his bullet-ridden criminal career on lower Manhattan's mean streets, through his self-exile in the mid-1930s back to his homeland where he ran a black market operation under the fascist regime of Benito Mussolini, and his return to New York where Genovese made a fortune as the head of an illegal narcotics empire. As a member of Giuseppe "Joe the Boss" Masseria's gang in New York City, Genovese ran rackets before joining forces with Lucky Luciano, Frank Costello, Meyer Lansky, and Bugsy Siegel as bootleggers during Prohibition. He helped orchestrate Masseria's slaughter on behalf of Brooklyn crime lord Salvatore Maranzano, consolidating his position and power before ensuring Maranzano, too, was knocked off. For the next three decades, Vito Genovese—shrewd, merciless, and utterly savage—killed countless gangsters in his bid to become the *capo di tutti i capi*—boss of bosses—in the American Mafia. Don Vito would betray some of the mafia's most notorious bosses, including Albert Anastasia and Frank Costello, to eventually seize control of the Luciano crime family, one that still bears the Genovese name today. Praise for Anthony M. DeStefano's *Gotti's Boys* "DeStefano explores John Gotti's rise to the head of the Gambino family . . . Aficionados are sure to relish the finer, exhaustively researched details." *Publishers Weekly* "A thrilling ride . . . DeStefano has written another excellent biography of a memorable group of gangsters and an excellent addition to the history of the Teflon Don." *Booklist*

How to Love and Inspire Your Man After Prison is the first definitive guide for women in relationships with men involved in the Criminal Justice System. It is a potentially life-changing and life-saving book with powerful insights, practical advice and energizing inspiration. The hundreds of thousands of wives and partners of current, former, and future inmates; families, friends and loved ones of current, former, and future inmates; criminal justice professionals; and anyone interested in the corrections system and/or the betterment of society. all will find this book indispensable.

Many people think prisons are all the same—rows of cells filled with violent men who officials rule with an iron fist. Yet, life behind bars varies in incredible ways. In some facilities, prison officials govern with care and attention to prisoners' needs. In others, officials have remarkably little influence on the everyday life of prisoners, sometimes not even providing necessities like food and clean water. Why does prison social order around the world look so remarkably different? In *The Puzzle of Prison Order*, David Skarbek develops a theory of why prisons and prison life vary so much. He finds that how they're governed—sometimes by the state, and sometimes by the prisoners—matters the most. He investigates life in a wide array of prisons—in Brazil, Bolivia, Norway, a prisoner of war camp, England and Wales, women's prisons in California, and a gay and transgender housing unit in the Los Angeles County Jail—to understand the hierarchy of life on the inside. Drawing on economics and a vast empirical literature on legal systems, Skarbek offers a framework to not only understand why life on the inside varies in such fascinating and novel ways, but also how social order evolves and takes root behind bars.

Rodricus Crawford was sentenced to die for the murder of his beautiful baby boy. After years on death row, evidence confirmed what Crawford had claimed all along: he was innocent, and his son had died from an undiagnosed illness. In Smoke but No Fire, former New York City public defender Jessica S. Henry tells the heartbreaking stories of innocent people convicted of crimes that simply never occurred. A suicide is mislabeled a homicide. An accidental fire is mislabeled an arson. A false allegation of assault is invented to resolve a custody dispute. Henry exposes a deeply flawed criminal justice system that allows—even encourages—these no-crime wrongful convictions to regularly occur. This eye-opening book grapples with the chilling reality that far too many innocent people spend real years behind bars for fictional crimes.

An urgent exposé of the mental health crisis in our courts, jails, and prisons America has made mental illness a crime. Jails in New York, Los Angeles, and Chicago each house more people with mental illnesses than any hospital. As many as half of all people in America's jails and prisons have a psychiatric disorder. One in four fatal police shootings involves a person with such disorders. In this revelatory book, journalist Alisa Roth goes deep inside the criminal justice system to show how and why it has become a warehouse where inmates are denied proper treatment, abused, and punished in ways that make them sicker. Through intimate stories of people in the system and those trying to fix it, Roth reveals the hidden forces behind this crisis and suggests how a fairer and more humane approach might look. Insane is a galvanizing wake-up call for criminal justice reformers and anyone concerned about the plight of our most vulnerable.

Bestselling author of Fire and Fury and chronicler of the Trump White House Michael Wolff dissects more of the major monsters, media whores, and vainglorious figures of our time. His scalpel opens their lives, careers, and always equivocal endgames with the same vividness and wit he brought to his disemboweling of the former president. These brilliant and biting profiles form a mesmerizing portrait of the hubris, overreach, and nearly inevitable self-destruction of some of the most famous faces from the Clinton era through the Trump years. When the mighty fall, they do it with drama and with a dust cloud of gossip. This collection pulls from new and unpublished work—recent reporting about Tucker Carlson, Jared Kushner, Harvey Weinstein, Ronan Farrow, and Jeffrey Epstein—and twenty years of coverage of the most notable egomaniacs of the time—among them, Hillary Clinton, Michael Bloomberg, Andrew Cuomo, Rudy Giuliani, Arianna Huffington, Roger Ailes, Boris Johnson, and Rupert Murdoch—creating a lasting statement on the corrosive influence of fame. Ultimately, this is an examination of how the quest for fame, notoriety, and power became the driving force of culture and politics, the drug that alters all public personalities. And how their need, their desperation, and their ruthlessness became the toxic grease that keeps the world spinning. You know the people here by name and reputation, but it's guaranteed that after this book you will never see them the same way again or fail to recognize the scorched earth the famous leave behind them.

The Pushcart Prize-winning poet's memoir of his criminal youth and years in prison: a "brave and heartbreaking" tale of triumph over brutal adversity (The Nation). Jimmy Santiago Baca's "astonishing narrative" of his life before, during, and immediately after the years he spent in the maximum-security prison garnered tremendous critical acclaim. An important chronicle that "affirms the triumph of the human spirit," it went on to win the prestigious 2001 International Prize (Arizona Daily Star). Long considered one of the best poets in America today, Baca was illiterate at the age of twenty-one when he was sentenced to five years in Florence State Prison for selling drugs in Arizona. This raw, unflinching memoir is the remarkable tale of how he emerged after his years in the penitentiary—much of it spent in isolation—with the ability to read and a passion for writing poetry. A heartbreaking and hilarious memoir by iCarly and Sam & Cat star Jennette McCurdy about her struggles as a former child actor—including eating disorders, addiction, and a complicated relationship with her overbearing mother—and how she retook control of her life. Jennette McCurdy was six years old when she had her first acting audition. Her mother's dream was for her only daughter to become a star, and Jennette would do anything to make her mother happy. So she went along with what Mom called "calorie restriction," eating little and weighing herself five times a day. She endured extensive at-home makeovers while Mom chided, "Your eyelashes are invisible, okay? You think Dakota Fanning doesn't tint hers?" She was even showered by Mom until age sixteen while sharing her diaries, email, and all her income. In *I'm Glad My Mom Died*, Jennette recounts all this in unflinching detail—just as she chronicles what happens when the dream finally comes true. Cast in a new Nickelodeon series called iCarly, she is thrust into fame. Though Mom is ecstatic, emailing fan club moderators and getting on a first-name basis with the paparazzi ("Hi Gale!"), Jennette is riddled with anxiety, shame, and self-loathing, which manifest into eating disorders, addiction, and a series of unhealthy relationships. These issues only get worse when, soon after taking the lead in the iCarly spinoff Sam & Cat alongside Ariana Grande, her mother dies of cancer. Finally, after discovering therapy and quitting acting, Jennette embarks on recovery and decides for the first time in her life what she really wants. Told with refreshing candor and dark humor, *I'm Glad My Mom Died* is an inspiring story of resilience, independence, and the joy of shampooing your own hair.

There is a simple and inexpensive solution to many of our country's most pressing problems: Prison Education. Educating our prisoners has proven to be the most effective and the least costly answer to reducing recidivism - and if we can reduce recidivism by even a modest 10% we can reduce our national and states' budgets by \$60 billion to \$70 billion every year! We can reduce crime significantly and make our communities safer. And we can transform wasted individuals who know no other way to survive except crime into productive, tax-paying citizens who support their families and get them off welfare, citizens who live as consumers, further supporting the national economy. People who have been educated almost always see to it that their children are educated, so it would mean a continuing decrease in crime and expenditures for new prison facilities year after year. It works! It's been studied. It's been proven. And, sadly, it's been ignored. Today, prison education is almost non-existent. In the face of overwhelming evidence, policy makers and the general public still do not support post-secondary higher education in prisons. Year after year, even basic correctional educational programs are further reduced. Computers are not allowed. The results? Prisoner unrest and violence. Then we need even more money for additional security. This book was written to explain the enormity of its impact, not just on prisoners, but on our entire society and our nation's prosperity and safety, in the hope that greater understanding will result in wise legislative action for our common good. Prison education is a concept whose time has

come. It is time to stop studying the issue and stop discoursing. It is time to start the ball rolling and do something about it.

A New York Times bestselling author—and “a mythmaker for the millennium, a wiseacre wiseman” (New York Times Book Review)—delivers a surreal and elaborate quest that takes readers from Tokyo to the remote mountains of northern Japan, where the unnamed protagonist has a surprising confrontation with his demons. An advertising executive receives a postcard from a friend and casually appropriates the image for an advertisement. What he doesn't realize is that included in the scene is a mutant sheep with a star on its back, and in using this photo he has unwittingly captured the attention of a man who offers a menacing ultimatum: find the sheep or face dire consequences.

In this madcap journey, a bestselling journalist investigates psychopaths and the industry of doctors, scientists, and everyone else who studies them. The Psychopath Test is a fascinating journey through the minds of madness. Jon Ronson's exploration of a potential hoax being played on the world's top neurologists takes him, unexpectedly, into the heart of the madness industry. An influential psychologist who is convinced that many important CEOs and politicians are, in fact, psychopaths teaches Ronson how to spot these high-flying individuals by looking out for little telltale verbal and nonverbal clues. And so Ronson, armed with his new psychopath-spotting abilities, enters the corridors of power. He spends time with a death-squad leader institutionalized for mortgage fraud in Cocksackie, New York; a legendary CEO whose psychopathy has been speculated about in the press; and a patient in an asylum for the criminally insane who insists he's sane and certainly not a psychopath. Ronson not only solves the mystery of the hoax but also discovers, disturbingly, that sometimes the personalities at the helm of the madness industry are, with their drives and obsessions, as mad in their own way as those they study. And that relatively ordinary people are, more and more, defined by their maddest edges.

Juan Martinez, the fiery prosecutor who convicted notorious murderess Jodi Arias for the disturbing killing of Travis Alexander, speaks for the first time about the shocking investigation and sensational trial that captivated the nation. Through two trials, America watched with baited breath as Juan Martinez fought relentlessly to convict Jodi Arias of Murder One for viciously stabbing her ex-boyfriend Travis Alexander to death. What emerged was a story wrought with sex, manipulation, and deceit that stunned the public at every turn. Arias, always playing the wronged and innocent woman, changed her story continually as her bizarre behavior surrounding the crime and its aftermath came to light. Unwavering, Arias and her defense team continued to play off the salacious details of the case, until she was finally found guilty and—controversially—sentenced to life behind bars. Now, speaking openly for the first time, prosecutor Juan Martinez will unearth new details from the investigation that were never revealed at trial, exploring key facts from the case and the pieces of evidence he chose to keep close to the vest. Throughout the trials, his bullish and unfaltering prosecution strategy was both commended and criticized, and in his book, Martinez will illuminate the unique tactics he utilized in this case and how they lead to a successful conviction, and-for the first time-discuss how he felt losing the death penalty sentence he'd pursued for years. Going beyond the news reports, Martinez will explore the truth behind the multiple facades of Jodi Arias. Sparring with her from across the stand, Martinez came to know Arias like no one else could, dissecting what it took for a seemingly normal girl to become a deluded, cunning, and unrepentant murderer. With new stories from behind the scenes of the trial and Martinez's own take on his defendant, the book takes you inside the mind of Jodi Arias like never before. Complete with 16 pages of photos from the case and trial, this book is the definitive account of the case that shocked America.

A memoir of a decade in prison by a well-educated young addict known as the "Apologetic Bandit" In 2003, fresh out of NYU, Daniel Genis was working in publishing as his writer father had always expected. But he was also hiding a serious heroin addiction that led him into debt and burglary. After he was arrested for robbing people at knifepoint in 2003, Daniel Genis was nicknamed the "apologetic bandit" in the press, given his habit of apologizing to his victims as he took their cash. He was sentenced to twelve years (ten with good behavior), surviving the decade by reading 1,046 books, weightlifting, having philosophical discussions with various inmates, encountering violence on a daily basis, working at a series of prison jobs, and in general observing an existence for which nothing in his life had prepared him. *Sentence* is one of the most striking prison memoirs--and memoirs in general--in recent years--written with intelligence, wit, empathy, and remarkable style. Genis is the son of a famous Soviet émigré writer, broadcaster, and culture critic in Russia. He grew up in a home whose visitors included Mikhail Baryshnikov; Russian nuclear physicist Andrei Sakharov; authors Kurt Vonnegut, Umberto Eco, and Norman Mailer; and Czech film director Milos Forman. The education and culture so prized by his family were his lifeline during his decade in prison, and he describes in unsparing and vivid detail the realities of daily life in the New York penal system, from Rikers Island through a series of upstate institutions. He learns about the social strata of gangs, the "court" system that sets geographic boundaries in prison yards, how sex was

obtained, the black market of drugs and more practical goods, the inventiveness required for everyday tasks such as cooking, and how debilitating solitary confinement actually is--all while trying to preserve his relationship with his recently married wife. Daniel Genis's debut has the potential to be both a critical and popular success, for few books have portrayed prison so vividly or with such insight.

Baz Dreisinger travels behind bars in nine countries to rethink the state of justice in a global context Beginning in Africa and ending in Europe, Incarceration Nations is a first-person odyssey through the prison systems of the world. Professor, journalist, and founder of the Prison-to-College-Pipeline, Dreisinger looks into the human stories of incarcerated men and women and those who imprison them, creating a jarring, poignant view of a world to which most are denied access, and a rethinking of one of America's most far-reaching global exports: the modern prison complex. From serving as a restorative justice facilitator in a notorious South African prison and working with genocide survivors in Rwanda, to launching a creative writing class in an overcrowded Ugandan prison and coordinating a drama workshop for women prisoners in Thailand, Dreisinger examines the world behind bars with equal parts empathy and intellect. She journeys to Jamaica to visit a prison music program, to Singapore to learn about approaches to prisoner reentry, to Australia to grapple with the bottom line of private prisons, to a federal supermax in Brazil to confront the horrors of solitary confinement, and finally to the so-called model prisons of Norway. Incarceration Nations concludes with climactic lessons about the past, present, and future of justice.

"A thrilling page-turner about the pursuit of justice" (New York Post), this is the definitive story of the case against Jeffrey Epstein, Ghislaine Maxwell, and the corrupt system that

supported them, told in thrilling detail by the lawyer who has represented their victims for more than a decade. In June 2008, Florida-based victims' rights attorney Bradley J. Edwards was thirty-two years old and had just started his own law firm when a young woman named Courtney Wild came to see him. She told a shocking story of having been sexually coerced at the age of fourteen by a wealthy man in Palm Beach named Jeffrey Epstein. Edwards, who had never heard of Epstein, had no idea that this moment would change the course of his life. Over the next ten years, Edwards devoted himself to bringing Epstein to justice, and came close to losing everything in the process. Edwards tracked down and represented more than twenty of Epstein's victims, shined a light on his shadowy network of accomplices, including Ghislaine Maxwell, and uncovered the scope of his sexually exploitative organization, which reached into the highest levels of American society. In this "revelatory exploration of the long fight to bring a monstrous man to justice" (Kirkus Reviews, starred review), Edwards gives his riveting, blow-by-blow account of battling Epstein on behalf of his clients, and provides stunning details never shared before. Epstein and his cadre of high-priced lawyers were able to manipulate the FBI and the Justice Department, but despite making threats and attempting schemes straight out of a spy movie, Epstein couldn't stop Edwards, his small team of committed lawyers, and, most of all, the victims, who were dead-set on seeing their abuser finally put behind bars. *Behind Bars* is the indispensable reference book for composers, arrangers, teachers and students of composition, editors, and music processors. A groundbreaking contribution to the study of nontheatrical film exhibition, *Carceral Fantasies* tells the little-known story of how cinema found a home in the U.S. penitentiary system and how the prison emerged as a setting and narrative trope in modern cinema. Focusing on films shown in prisons before 1935, Alison Griffiths explores the unique experience of viewing cinema while incarcerated and the complex cultural roots of cinematic renderings of prison life. Griffiths considers a diverse mix of cinematic genres, from early actualities and reenactments of notorious executions to reformist exposés of the 1920s. She connects an early fascination with cinematic images of punishment and execution, especially electrocutions, to the attractions of the nineteenth-century carnival electrical wonder show and *Phantasmagoria* (a ghost show using magic lantern projections and special effects). Griffiths draws upon convict writing, prison annual reports, and the popular press obsession with prison-house cinema to document the integration of film into

existing reformist and educational activities and film's psychic extension of flights of fancy undertaken by inmates in their cells. Combining penal history with visual and film studies and theories surrounding media's sensual effects, Carceral Fantasies illuminates how filmic representations of the penal system enacted ideas about modernity, gender, the body, and the public, shaping both the social experience of cinema and the public's understanding of the modern prison.
