Shakespeare's The Merchant of Venice occupies a unique place in world culture. As the fictional, albeit iconic, character of Shylock has been interpreted as exotic outsider, social pariah, melodramatic villain and tragic victim, the play, which has been performed and read in dozens of languages, has served as a lens for examining ideas and images of the Jew at various historical moments. In the last two hundred years, many of the play's stage interpreters, spectators, readers and adapters have themselves been Jews, whose responses are often embedded in literary, theatrical and musical works. This volume examines the ever-expanding body of Jewish responses to Shakespeare's most Jewishly relevant play.

Looking back at her lengthy career just four years before her death, modernist painter Nell Blaine said, "Art is central to my life. Not being able to make or see art would be a major deprivation." The Virginia native's creative path began early and, during the course of her life, she overcame significant barriers in her quest to make and even see art, including serious vision problems, polio, and paralysis. And then there was her gender. In 1957 Blaine was hailed by Life magazine as someone to watch, profiled alongside four other emerging painters whom the journalist praised "not as notable women artists but as notable artists who happen to be women." In *Central to Their Lives*, twenty-six noted art historians offer scholarly insight into the achievements of female artists working in and inspired by the American South. Spanning the

decades between the late 1890s and early 1960s, this volume examines the complex challenges these artists faced in a traditionally conservative region during a period in which women's social, cultural, and political roles were being redefined and reinterpreted. The presentation—and its companion exhibition—features artists from all of the Southern states, including Dusti Bongé, Anne Goldthwaite, Anna Hyatt Huntington, Ida Kohlmeyer, Lois Mailou Jones, Alma Thomas, and Helen Turner. These essays examine how the variables of historical gender norms, educational barriers, race, regionalism, sisterhood, suffrage, and modernism mitigated and motivated these women who were seeking expression on canvas or in clay. Whether working from studio space, in spare rooms at home, or on the world stage, these artists made remarkable contributions to the art world while fostering future generations of artists through instruction, incorporating new aesthetics into the fine arts, and challenging the status quo. Sylvia Yount, the Lawrence A. Fleischman Curator in Charge of the American Wing at the Metropolitan Museum of Art, provides a foreword to the volume.

A collection of the best gay and lesbian cartoonists in America today, compiled from the 12-issue comic series *Gay Comix* and other national and regional gay periodicals.

Identifies villains from comic books, movies, television, comic strips, and literature, and includes information about each one's costume, first appearance, and background

Explores Black representation in fantasy genres and comic books. Characters like Black Panther, Storm, Luke Cage, Miles Morales, and Black Lightning are part of a growing cohort of black superheroes on TV and in film. Though comic books are often derided as naïve and childish, these larger-than-life superheroes demonstrate how this genre can serve as the catalyst for engaging the Black radical imagination. *Keeping It Unreal: Comics and Black Queer Fantasy* is an exploration of how fantasies of Black power and triumph fashion theoretical, political, and aesthetic challenges to—and respite from—white supremacy and anti-Blackness. It examines representations of Blackness in fantasy-infused genres: superhero comic books, erotic comics, fantasy and science-fiction genre literature, as well as contemporary literary “realist” fiction centering fantastic conceits. Darieck Scott offers a rich meditation on the relationship between fantasy and reality, and between the imagination and being, as he weaves his personal recollections of his encounters with superhero comics with interpretive readings of figures like the Black Panther and Blade, as well as theorists such as Frantz Fanon, Eve Sedgwick, Leo Bersani, Saidiya Hartman, and Gore Vidal. *Keeping It Unreal* represents an in-depth

theoretical consideration of the intersections of superhero comics, Blackness, and queerness, and draws on a variety of fields of inquiry. Reading new life into Afrofuturist traditions and fantasy genres, Darieck Scott seeks to rescue the fantasy and the fantastic to challenge, revoke, and expand our assumptions about what is normal, real, and marked human.

Naturalism in the American Theatre

A moving story of grief, honesty, and the healing power of art — the ties that bind us together, even when those we love are gone. Melanie and Damon are both living in the shadow of loss. For Melanie, it's the loss of her larger-than-life artist mother, taken by cancer well before her time. For Damon, it's the loss of his best friend, Carlos, who took his own life. As they struggle to fill the empty spaces their loved ones left behind, fate conspires to bring them together. Damon takes pictures with Carlos's camera to try to understand his choices, and Melanie begins painting as a way of feeling closer to her mother. But when the two join their school's production of Othello, the play they both hoped would be a distraction becomes a test of who they truly are, both together and on their own. And more than anything else, they discover that it just might be possible to live their lives without completely letting go of their sadness. Praise for Speak of Me As I Am:

"Debut author Belasco adeptly captures the tribulations of high school life while also celebrating art's ability to help clarify and contextualize its joys and sorrows. . . . The novel's most intriguing character . . . is grief itself, which the author illuminates, examines, and dissects with a surgeon's precision and the gentle touch of an artist. A stirring account of the trials of adolescence." —Kirkus Reviews "This book will undoubtedly be compared to Rainbow Rowell's *Eleanor & Park*. . . . Teens seeking a quieter but no less moving story will find this book a perfect read." —Booklist "Never maudlin, always authentic, the portrayal of their struggles to deal with grief and with love will resonate with many teens." —VOYA "A good purchase for realistic fiction collections and for readers looking for books about survivor's guilt and healing." —School Library Journal "Belasco's novel sends a powerful message about the complicated nature of grief. . . . This powerful, emotional work should be earmarked to be a favorite with teen readers." —BookPage

Two formidable artists have shown respect for the integrity of each other's work here and the result is magnificent." —Independent "Bob Dylan's back catalogue is used to glorious effect in Conor McPherson's astonishing cross-section of hope and stoic suffering . . . It is the constant dialogue between the drama and the songs that makes this show exceptional." —Guardian "Beguiling and soulful and quietly, exquisitely, heartbreaking. A very special piece of theatre." —Evening Standard "A populous, otherworldly play that combines the hard grit of the Great Depression with something numinous and mysterious." —Telegraph Duluth, Minnesota. 1934. A pioneer of stage naturalism, David Belasco has come to be universally recognized as one of the first important directors in the history of the American stage. Lise-Lone Marker's book is a full-length stylistic analysis and re-evaluation of his scenic art. Based on a rich body of primary sources, among which are Belasco's promptbooks and papers, the book synthesizes the aims, methods, and techniques inherent in the naturalistic production style that Belasco developed during the six decades of his career. The elements of that style—the magic reality of his stage settings, his innovations in plastic lighting, his directorial method—are also seen in the context of theatrical developments elsewhere. On the basis of this synthesis. Professor Marker reconstructs and analyzes four of Belasco's most important productions, each representative of a distinct phase of his directorial art. Her explorations uncover much new information about Belasco and the American theatre around the turn of the century. Originally published in 1975. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. Food: The Key Concepts presents an exciting, coherent and interdisciplinary introduction to food studies for the beginning reader. Food Studies is an increasingly complex field, drawing on disciplines as diverse as Sociology, Anthropology and Cultural Studies at one end and Economics, Politics and Agricultural Science at the other. In order to clarify the issues, Food: The Key Concepts distills food choices down to three competing considerations: consumer identity; matters of convenience and price; and an awareness of the consequences of what is consumed. The book concludes with an examination of two very different future scenarios for feeding the world's population: the technological fix, which looks to science to provide the solution to our future food needs; and the anthropological fix, which hopes to change our expectations and behaviors. Throughout, the analysis is illustrated with lively case studies. Bulleted chapter summaries, questions and guides to further reading are also provided.

The coauthor of *Flight of the Buffalo* and one of America's top executives present a revolutionary program filled with a wealth of tips and techniques that will help any organization rise to the pinnacle of success during times of change and insecurity. Originally published as *Soaring with the Phoenix*. Reprint. "Warren Belasco is a witty, wonderfully observant guide to the hopes and fears that every era projects onto its culinary future. This enlightening study reads like time-travel for foodies."—Laura Shapiro, author of *Something From the Oven: Reinventing Dinner in 1950s America* "In his insightful look at human imaginings about their food and its future sufficiency, Warren Belasco makes use of everything from academic papers, films, and fiction to journalism, advertising and world's fairs to trace a pattern of public concern over two centuries. His wide-ranging scholarship humbles all would-be futurists by reminding us that ours is not the first generation, nor is it likely to be the last, to argue inconclusively about whether we can best feed the world with more spoons, better manners or a larger pie. Truly painless education; a wonderful read!"—Joan Dye Gussow, author *This Organic Life* "Warren Belasco serves up an intellectual feast, brilliantly dissecting two centuries of expectations regarding the future of food and hunger. *Meals to Come* provides an essential guide to thinking clearly about the worrisome question as to whether the world can ever be adequately and equitably fed."—Joseph J.
