*Latinx children navigating identity, citizenship, and belonging in a divided America* An estimated sixty million people in the United States are of Latinx descent, with youth under the age of eighteen making up two-thirds of this swiftly growing demographic. In *Growing Up Latinx*, Jesica Siham Fernández explores the lives of Latinx youth as they grapple with their social and political identities from an early age, and pursue a sense of belonging in their schools and communities as they face an increasingly hostile political climate. Drawing on interviews with nine-to-twelve-year-olds, Fernández gives us rare insight into how Latinx youth understand their own citizenship and bravely forge opportunities to be seen, to be heard, and to belong. With a compassionate eye, she shows us how they strive to identify, and ultimately redefine, what it means to come of age—and fight for their rights—in a country that does not always recognize them. Fernández follows Latinx youth as they navigate family, school, community, and country ties, richly detailing their hopes and dreams as they begin to advocate for their right to be treated as citizens in full. *Growing Up Latinx* invites us to witness the inspiring power of young people as they develop and make heard their political voices, broadening our understanding of citizenship.

*Raw, real, and relatable, this book is your guide to navigating life's fires. Bianca Olthoff is here to show that our struggles and hardships may be the fire that refines us instead of destroys us, brings us hope instead of despair, and leads us right into the arms of a God who loves us. Play with Fire, the debut book by popular speaker and teacher Bianca Juarez Olthoff, is the reminder that God isn't waiting until you have more resources or a spouse or a job so he can use you. He's ready to use you now. Using the mythical creature, the Phoenix, which was also referenced by early church leaders, she parallels this story with God's work in her own life, highlighting the beauty of reinvention with fire as both the impetus and the method for change. Olthoff reminds us that we serve a God who is redemptive and can take the worst situations and use them for His glory. Play With Fire is a Bible-infused message that will help women discover: The way out of the middle is moving forward The personal and powerful nature of the Holy Spirit The power and sacrifice of transformation The unique calling and purpose of life involves transformation With Olthoff's distinct style, strong storytelling gifts, and powerful bible teaching, Play with Fire will remind readers that God has huge dreams for them. In Bianca's words, "He's whispering in the wind and speaking through the fire and shouting in silence the extraordinary dream He is birthing in you. His dream for you is far greater*

*than the dream you have for yourself. It's not your identity or income or influence that will make this happen. Like Zechariah 4:6 says, "'It's not by might nor by power, but by my Spirit,' says the Lord." It's time to play with fire. Study guide and video study also available.*

*Everything we know about the world today follows an invisible set of rules-how we work, love, parent, spend our money, and define success. But what if we could remove these outdated ideas and start anew? What would our lives look like if we could redefine the meaning of happiness, purpose, and success? The Code of the Extraordinary Mind blends computational thinking, integral theory, modern spirituality, evolutionary biology, and a little bit of humor to provide a revolutionary framework for re-coding ourselves with new, empowering beliefs and behaviors so we can live extraordinary lives. Throughout, Vishen Lakhiani shares transformative insights from legendary thinkers including Elon Musk, Richard Branson, and Arianna Huffington, among others, helping us to think like the greatest creative minds of our era-questioning, challenging, and creating new rules for our lives. Lakhiani's 10 laws help us retrain our minds to grow and achieve more than we ever thought was possible, showing us that we do not need to follow convention and can succeed on our own terms no matter where we are starting from.*

*In The Wrongs of the Right, Matthew W. Hughey and Gregory S. Parks set postracial claims into relief against a background of pre- and post-election racial animus directed at President Obama, his administration, and African Americans. They show how the political Right deploys racial fears, coded language and implicit bias to express and build opposition to the Obama administration. Racial meanings are reservoirs rich in political currency, and the race card remains a potent resource for othering the first black president in a context rife with Nativism, xenophobia, white racial fatigue, and serious racial inequality.*

*The prolific theatrical activity that abounded on the stages of early modern Europe demonstrates that drama was a genre that transcended national borders. The transnational character of early modern theater reflects the rich admixture of various dramatic traditions, such as Spain's comedia and*

*Italy's commedia dell'arte, but also the transformations across cultures of Spanish novellas to French plays and English interludes. Of particular import to this study is the role that women and gender played in this cross-pollination of theatrical sources and practices. Contributors to the volume not only investigate the gendered effect of Spanish texts and literary types on English and French drama, they address the actual journeys of Spanish actresses to French theaters and of Italian actresses to the Spanish stage, while several emphasize the movement of royal women to various courts and their impact on theatrical activity in Spain and abroad. In their innovative focus on women's participation and influence, the chapters in this volume illustrate the frequent yet little studied transnational and transcultural points of contact between Spanish theater and the national theaters of England, France, Austria, and Italy.??*

*The declaration of a "War on Terror" in the aftermath of the September 11, 2001 terrorist attacks brought sweeping changes to the American criminal justice and national security systems, as well as a massive shift in the American public opinion of both individual Muslims and the Islamic religion generally. Since that time, sociologist Saher Selod argues, Muslim Americans have experienced higher levels of racism in their everyday lives. In *Forever Suspect*, Selod shows how a specific American religious identity has acquired racial meanings, resulting in the hyper surveillance of Muslim citizens. Drawing on forty-eight in-depth interviews with South Asian and Arab Muslim Americans, she investigates how Muslim Americans are subjected to racialized surveillance in both an institutional context by the state and a social context by their neighbors and co-workers.*

*Forever Suspect underscores how this newly racialized religious identity changes the social location of Arabs and South Asians on the racial hierarchy further away from whiteness and compromises their status as American citizens.*

NEW YORK TIMES, USA TODAY, AND #1 WALL STREET JOURNAL BESTSELLER • Forget hustling. This book, from the author of *The Code of the Extraordinary Mind*, will disrupt your deeply held beliefs about work, success, and, indeed, life. If you're the average person in the developed world, you spend 70 percent of your waking hours at work. And if you're the average person, you're miserable for most of those hours. This is simply not an acceptable state of affairs for your one shot at life. No matter your station, you possess incredible unique powers. It's a modern myth that hard work and hustle are the paths to success. Inside you is a soul. And once you unleash it fully into the domain of work, magic happens. Awakening the Buddha and the Badass inside you is a process that will disrupt the way you work altogether. You'll gain access to tools that bend the very rules of reality.

• The Buddha is the archetype of the spiritual master. The

person who can live in this world but also move with an ease, grace, and flow that comes from inner awareness and alignment. • The Badass is the archetype of the changemaker. This is the person who is out there creating change, building, coding, writing, inventing, leading. The badass represents the benevolent disruptor—the person challenging the norms so we can be better as a species. Once you integrate the skill sets of both archetypes, you will experience life at a different level from most people. You will operate from a space of bliss, ease, inspiration, and abundance. The Buddha and the Badass: The Secret Spiritual Art of Succeeding at Work will show you how. Author of the New York Times bestseller The Code of the Extraordinary Mind and founder of Mindvalley, Vishen Lakhiani has turned his own life and company into his research lab. He's codified everything he's learned into the how-to steps in this book. The Buddha and the Badass teaches you how to master your work and your life.

Labor and Love in Guatemala re-envision the histories of labor and ethnic formation in Spanish America. Taking cues from gender studies and the "new" cultural history, the book transforms perspectives on the major social trends that emerged across Spain's American colonies: populations from three continents mingled; native people and Africans became increasingly hispanized; slavery and other forms of labor coercion receded. Komisaruk's analysis shows how these developments were rooted in gendered structures of work, migration, family, and reproduction. The engrossing narrative reconstructs Afro-Guatemalan family histories through slavery and freedom, and tells stories of native working women and men based on their own words. The book takes us into the heart of sweeping historical processes as it depicts the migrations that linked countryside to city, the sweat and filth of domestic labor, the rise of female-headed households, and

love as it was actually practiced—amidst remarkable permissiveness by both individuals and the state.

*Challenging the Status Quo* offers the latest cutting-edge scholarship in the subfield of sociology of diversity and inclusion. This volume explores and clarifies the complex intersection of race and media in the contemporary United States. Due to the changing dynamics of how racial politics are played out in the contemporary US (as seen with debates of the "post-racial" society), as well as the changing dynamics of the media itself ("new vs. old" media debates), an interrogation of the role of the media and its various institutions within this area of social inquiry is necessary.

Contributors contend that race in the United States is dynamic, connected to social, economic, and political structures which are continually altering themselves. The book seeks to highlight the contested space that the media provides for changing dimensions of race, examining the ways that various representations can both hinder or promote positive racial views, considering media in relation to other institutions, and moving beyond thinking of media as a passive and singular institution.

This volume presents a social history of life in mid-19th-century Cuba as experienced by George Backhouse (and his wife, Grace), who served on the British Havana Mixed Commission for the Suppression of the Slave Trade. Documented with extracts from the Backhouse's correspondence, diaries and other contemporary papers, Martinez-Fernandez paints a detailed picture of the Cuban slave trade, its role in the sugar industry, and the interrelated contradictions within Cuba's economy, society and politics. The Backhouse story provides additional insights into important aspects of life in the "male" city of Havana, social antagonisms between Britons and North Americans, interactions with European social circles, religious tension, and the reality of tropical disease. Drama is added to the narrative in the author's description of the tragic and

mysterious murder of George Backhouse in August 1855, possibly the result of a slave traders' conspiracy.

Gamboa's World examines the changing legal landscape of eighteenth-century Mexico through the lens of the jurist Francisco Xavier de Gamboa (1717–1794). Gamboa was both a representative of legal professionals in the Spanish world and a central protagonist in major legal controversies in Mexico. Of Basque descent, Gamboa rose from an impoverished childhood in Guadalajara to the top of the judicial hierarchy in New Spain. He practiced law in Mexico City in the 1740s, represented Mexican merchants in Madrid in the late 1750s, published an authoritative commentary on mining law in 1761, and served for three decades as an Audiencia magistrate. In 1788 he became the first locally born regent, or chief justice, of the High Court of New Spain. In this important work, Christopher Albi shows how Gamboa's forgotten career path illuminates the evolution of colonial legal culture and how his arguments about law and justice remain relevant today as Mexico debates how to strengthen the rule of law.

With its selection as the court of the Spanish Habsburgs, Madrid became the de facto capital of a global empire, a place from which momentous decisions were made whose implications were felt in all corners of a vast domain. By the seventeenth century, however, political theory produced in the Monarquía Hispánica dealt primarily with the concept of decline. In this book, Jesús Escobar argues that the buildings of Madrid tell a different story about the final years of the Habsburg dynasty. Madrid took on a grander public face over the course of the seventeenth century.

creating a "court space" for residents and visitors alike. Drawing from the representation of the city's architecture in prints, books, and paintings, as well as re-created plans standing in for lost documents, Escobar demonstrates how, through shared forms and building materials, the architecture of Madrid embodied the monarchy and promoted its chief political ideals of justice and good government. Habsburg Madrid explores palaces, public plazas, a town hall, a courthouse, and a prison, narrating the lived experience of architecture in a city where a wide roster of protagonists, from architects and builders to royal patrons, court bureaucrats, and private citizens, helped shape a modern capital. Richly illustrated, highly original, and written by a leading scholar in the field, this volume disrupts the traditional narrative about seventeenth-century Spanish decadencia. It will be welcomed by specialists in Habsburg Spain and by historians of art, architecture, culture, economics, and politics.

In *Mapping Abundance for a Planetary Future*, Candace Fujikane contends that the practice of mapping abundance is a radical act in the face of settler capital's fear of an abundance that feeds. Cartographies of capital enable the seizure of abundant lands by enclosing "wastelands" claimed to be underdeveloped. By contrast, Kanaka Maoli (Native Hawaiian) cartographies map the continuities of abundant worlds. Vital to restoration movements is

the art of kilo, intergenerational observation of elemental forms encoded in storied histories, chants, and songs. As a participant in these movements, Fujikane maps the ecological lessons of these elemental forms: reptilian deities who protect the waterways, sharks who swim into the mountains, the navigator M?ui who fishes up the islands, the deities of snow and mists on Mauna Kea. The laws of these elements are now being violated by toxic waste dumping, leaking military jet fuel tanks, and astronomical-industrial complexes. As K?naka Maoli and their allies stand as land and water protectors, Fujikane calls for a profound attunement to the elemental forms in order to transform climate events into renewed possibilities for planetary abundance.

today's immigration battles 18-year-old high school senior Isaias Ramos plays in a punk rock group called Los Psychosis and likes to sing along to songs by Björk and her old band, the Sugarcubes. He's so bright that when his school's quiz bowl goes on local TV, he acts as captain. The counselors at school want him to apply to Harvard. But Isaias isn't so sure. He's thinking about going to work painting houses with his parents, who crossed the Arizona desert illegally from Mexico. Despite the obstacles and his own doubts, Isaias sets out on the journey to become the first in his family to go to college. He faces make-or-break standardized testing, immigration bureaucracy and absurdly high college costs. And most importantly, the siren song of doubt. This simple story reflects broader truths. Mexican immigration has brought the proportion of Hispanics in the nation's youth population to roughly one in four. Every day, children of immigrants make decisions about their lives that will shape our society and economy for generations. In the tradition of Friday

Night Lights and A Hope in the Unseen, this deeply human narrative offers a powerful antidote to the heated political rhetoric about immigrants and their children.

From the sixteenth through the nineteenth centuries, Spain and Portugal raised and nurtured vast American empires, both metaphorically and literally. From the very beginning, conquerors and settler elites engaged in colonial enterprises as they considered the New World through traditional Iberian ideas about childhood and as they established institutions for educating youths, sheltering infants, and extracting labor from children. Inevitably, Iberian concepts of childhood were transformed by everyday confrontations with the practices and norms of indigenous, African, and mixed-race inhabitants, and as new generations of truly colonial children were born. Raising an Empire takes readers on a journey into the world of children and childhood in early modern Ibero-America. Its contributors enter a vibrant new field of study in the

region and challenge the conventional notion that children are invisible in the historical record. Employing diverse methods to decode a wide variety of sources, these essays present their small subjects--elite maidens, abandoned babies, Indian servants, slave apprentices--through their lives and times. How media propagates and challenges racism From Black Panther to #OscarsSoWhite, the concept of “race,” and how it is represented in media, has continued to attract attention in the public eye. In *Racialized Media*, Matthew W. Hughey, Emma González-Lesser, and the contributors to this important new collection of original essays provide a blueprint to this new, ever-changing media landscape. With sweeping breadth, contributors examine a number of different mediums, including film, television, books, newspapers, social media, video games, and comics. Each chapter explores the impact of contemporary media on racial politics, culture, and meaning in society. Focusing on producers, gatekeepers, and consumers of media, this book offers an inside look at our media-saturated world, and the impact it has on our understanding of race, ethnicity, and more. Through an interdisciplinary lens, *Racialized Media* provides a much-needed look at the role of race and ethnicity in all phases of media production, distribution, and reception.

This book focuses on the mechanisms that undergird the operation of racialization and works to empirically define

the specific mechanisms by which racialization outside of black-white paradigm operates. The contributors highlight the advantages and benefits of using case studies from outside of the black-white racial boundary in the social scientific study of racism, racial identity, racial meaning, and racial representation. Their contributions can be grouped into three specific areas of focus: the investigation of the relationship between racialization and the state; the interplay between racialization and identities; and the role of racialization in the media.

Taken together, the book lays out a roadmap for future study of racialization and the study of race beyond the racial categories of black and white. Serving as a guiding point to future research, this book will be of interest to all scholars of race, and those seeking to understand the ideologies, actions, interactions, structures and social practices associated with racialization. This book was originally published as a special issue of *Ethnic and Racial Studies*.
