How do dinosaurs count to ten? Over and over again. This board book helps readers learn to count from one to ten with a simple, rhyming text and illustrations.

"Wish you could find giddle-inducing tween books for girls?" "Tired of young teen fiction that drags you down? Then try..." "The Day I Washed My Face in the Toilet A laugh-out-loud novel that's perfect for girls and young teens! All 14-year-old Monica Bloomfield wants is to spend August at a science camp far away from her idiot sister and weird little brother. Trouble is, Monica's being dragged into the wedding party of her crabby old great aunt who lives in England-and if she wants to earn that science camp, she has to keep her siblings in line for the entire trip, plus convince her crazy Grandma to move into a nursing home pronto. Monica's determined to succeed, but things start out badly-and go downhill fast. First, her hyperactive brother overdoses on caffeine right before their eight-hour flight to England. Then a botched wine-tasting party ends so badly that even a policeman is left speechless (and in need of a new uniform). Getting into science camp isn't going to be easy--especially with a rampaging bull, drunk parrot and the most gorgeous guy in the universe standing in her way. "The Day I Washed My Face In The Toilet" is a fast-paced tale about a girl trying to have a positive impact on her world and see social injustices corrected-with hilarious results, and one badly-mangled bridesmaid's dress. A Personal Note From The Author: Unfortunately, I came up with the title of this book-and a pretty big chunk of the plot-line-the day I washed my face in a toilet. In my defense, we were living in the middle of nowhere, and a brutal storm had left us with no hydro, no heat, no lights and no running water for almost a week. I was cold and grimy, and by the fifth day I snapped. I pulled the top off the toilet tank and peered in. The water had been sitting there for days, so it smelled really funky. Also, every chain and hobbley thing in there was covered with a thick layer of (and here, I'm using the scientific term) black. Still, I was desperate. So I used the slimy toilet tank water and had what was probably the fastest sponge bath on record. Sadly, the curry incident happened to me, too. Shortly before I boarded an eight-hour flight from England to Canada, a friend took me out for a huge curry feast. I'd never had curry, and my intestines weren't sure what to do with the stuff, so they promptly rejected it. I developed a massive case of explosive curry farts. I kept my coat zipped up for the entire flight home, hoping that would hide the smell. It didn't. Toxic gasses tricked out through the neck of the coat, assaulting me and all of the passengers who were stuck sitting around me. Ironically, the coat made the problem worse, because it made me sweat-I was leaking curry vapors out of every pore of my body. This book is a labor of love-but it's laced with some of my most cringe-worthy experiences, too. "If you're on the look-out for great books for girls or young teens-and you don't need vampires or zombies to make you happy-then this one's for you!" Want to read more? Effective teaching and learning for vocational purposes must take account of the wide range of variables that impact on knowledge formation and that promote learning. In light of those many variables, the formal sector of technical and vocational education and training (TVET) must constantly ask itself what it could and should do to better provide vocational learning for those people likely to pursue learning via the informal sector. This book addresses that question. Vocational Learning: Innovative Theory and Practice discusses four theoretical aspects of vocational learning that support understanding of vocational learning processes and practices: the situations of vocational learning; the power and roles of social networks and identity in vocational learning; knowing and knowledge management processes; and the implications for pedagogic practices in both informal and formal TVET systems. The book provides an overview of a series of international examples of innovative approaches to vocational educational theory and practice, and it draws on empirical research to analyze the effects of those approaches. It includes unique insights into aspects of TVET for Indigenous peoples. With a discussion of policy implications for Europe, North America and Australia, this book is an instrumental tool to understand the underlying factors that generate effective educational and workforce outcomes through effective formal and informal learning.

Available again in time for election season, Eleanor Roosevelt's most important book—a battle cry for civil rights as relevant and influential now as it was when first published in 1963, Tomorrow Is Now is Eleanor Roosevelt's manifesto and her final effort to move America toward the community she hoped it would become. In bold, blunt prose, one of the greatest First Ladies of American history traces her country's struggle to embrace democracy and presents her declaration against fear, timidity, complacency, and national arrogance. An open, unrestrained look into her mind and heart as well as a clarion call to action, Tomorrow Is Now is the work Eleanor Roosevelt willed herself to stay alive to finish writing. For this edition, former U.S. President Bill Clinton contributes a new foreword and Roosevelt historian Allida Black provides an authoritative introduction focusing on Eleanor Roosevelt's diplomatic career. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. "All the Feels could turn your 2020 around!" —Crosswalk.com Emotions—love them or hate them, we've all got them. And we've all got to figure out what to do with them. But wait—can we do anything about our emotions? Can we learn how to identify, express, experience—and yes, sometimes wrangle—our feelings in order to live a vibrant life? Elizabeth Laing Thompson uses her experiences as a big feeler to encourage and equip different kinds of feelers with the biblical perspectives, practical tools, and scriptural reservoir they need. As a woman who has lived every day of her life having All The Big Feelings All The Day Long, Elizabeth knows what it's like to live life through our own control of, and grow from those emotions. Whether you have a sensitive soul with more feelings than you know how to name, a logical personality that doesn't quite know what to do with feelings, or a steady flow of emotions somewhere in the middle, All the Feels will help you discover your own God-designed "feelings style" and how it feels and figure out which feelings you can trust, and understand which emotional gifts God wants you to expand, explore, and enjoy. Get ready to throw open the doors of your heart, bringing God to your emotions and your emotions to God—the One who invented feelings and who always welcomes yours.

Tomorrow Is Now

With a new foreword: The New York Times–bestselling biography of President Lyndon Johnson from the Pulitzer Prize–winning author of Team of Rivals. Featuring a 2018 foreword by the Pulitzer Prize–winning political historian that celebrates a reappraisal of Lyndon Johnson ’ s legacy five decades after his presidency, from the vantage point of our current, profoundly altered political culture and climate, Doris Kearns Goodwin ’ s extraordinary and insightful biography draws from meticulous research in addition to the author ’ s time spent working at the White House from 1967 to 1969. After Johnson ’ s term ended, Goodwin remained his confidante and assisted in the preparation of his memoir. In Lyndon Johnson and the American Dream, she traces the 36th president ’ s life from childhood to his early days in politics, and from his leadership of the Senate to his presidency, analyzing his dramatic years in the White House, including both his historic domestic triumphs and his failures in Vietnam. Drawing on personal anecdotes and candid conversation with Johnson, Goodwin paints a rich and complicated portrait of one of our nation ’ s most compelling politicians in “ the most penetrating, fascinating political biography I have ever read ” (The New York Times).

First published in 1895, this volume contains a series of arguments against the idea that the world is round. The belief that the Earth is flat and not a globe existed in many ancient civilisations, but we now know that this is not true. However, even today there are those who believe in a flat earth, just as there was when ideas of a spherical earth were relatively new. Within this book, the author explains why these new ideas of the planet as a globe are absurd, with interesting examples and explanations as to precisely why. Highly recommended for those with an interest in Flat Earth theory and the history of astronomy. Contents include: " Ships 'Going Down!' ", " How Much Loner Will it Be? ", " Absurd Theory! ", " No Proof to be Had ", " When the Man Has Time! ", " Earth A Globe ", " The Scientific Wager of 1870 ", " Our Opponents Ways and Means ", etc. Many vintage books such as this are increasingly scarce and expensive. It is with this in mind that we are republishing this book today in an affordable, modern edition complete with the original text and artwork.

This text has been substantially revised to include a broader range of knowledge and practice necessary for the challenging role of leading and managing children ’ s education and care services. The provision of quality early childhood education and care requires knowledgeable leaders and managers who possess a range of twenty-first-century workplace skills necessary to guide the organisation through a process of continuous improvement to meet the increasing demands of service delivery. To address learning needs this text now includes knowledge related not only to the Children ’ s Services training package but also to the Business Services training package. In particular, knowledge content related to a number of competencies from the Diploma of Leadership and Management has been added. In practical terms The Business of Child Care can be used as a textbook for students completing their initial children ’ s services diploma training and for experienced educators seeking to develop leadership and management skills by undertaking a Diploma of Leadership and Management. Additional content includes emotional intelligence, risk management as a continuous improvement tool, workplace wellbeing, the need for which became very evident with the stress of the pandemic, critical thinking skills – essential for evaluating service delivery and engaging in self-reflection. Communication has been closely examined so that having difficult conversations, influencing and persuading others, supporting conflict resolution, and guiding meetings to ensure that all team members are supported to have a voice in the organisation, are addressed. "In a genre overdue for a shakeup, Alexis Coe takes a closer look at our first—and finds he’s not quite the man we remember Young George Washington was raised by a struggling single mother, demanded military promotions, chased rich young women, caused an international incident, and never backed down—even when his dysentery got so bad he had to ride with a cushion on his saddle. But after he married Martha, everything changed. Washington took the kind of man who named his dog Sweetlips and hated to leave home. He took up arms against the British only when there was no other way, though he lost more battles than he won. Coe focuses on his activities off the battlefield—like espionage and propaganda. After an unlikely victory in the Revolutionary War, Washington once again shocked the world by giving up power, only to learn his compatriots wouldn’t allow it. The founders pressured him into the presidency—twice. He established enduring norms but left office heartbroken over the partisan nightmare his backstabbing cabinet had created. Back on his plantation, the man who fought for liberty finally confronted his greatest hypocrisy—what to do with the hundreds of men, women, and children he owned—before succumbing to a brutal death. Alexis Coe combines rigorous research and unbecomingly storytelling, finally separating the man from the legend.”

*The extraordinary career of James Monroe, senator, diplomat, and the last Founding Father to hold the presidency, a man who helped transform thirteen colonies into a vibrant and mighty republic. "A first-rate account of a remarkable life"—Jon Meacham, Pulitzer Prize-winning author of The Soul of America Monroe lived a life defined by revolutions. From the battlefields of the War for Independence, to his ambassadorship in Paris in the days of the guillotine, to his own role in the creation of Congress's partisan divide, he was a man who embodied the restless spirit of the age. He was never one to back down from a fight, whether it be with Alexander Hamilton, with whom he nearly engaged in a duel (prevented, ironically, by Aaron Burr), or George Washington, his hero turned political opponent. This magnificent new biography vividly recreates the epic sweep of Monroe's life: his near-death wounding at Trenton and a brutal winter at Valley Forge; his pivotal negotiations with France over the Louisiana Purchase; his deep, complex friendships with Thomas Jefferson and James Madison; his valiant leadership when the British ransacked the nation's capital and burned down the Executive Mansion; and Monroe's lifelong struggle to reckon with his own complicity in slavery. Elected the fifth president of the United States in 1816, this fiercest of partisans sought to bridge divisions and sow unity, calming turbulent political seas and inheriting Washington's mantle of placing country above party. Over his two terms, Monroe transformed the nation, strengthening American power both at home and abroad. Critically acclaimed author Tim McGrath has consulted an extensive array of primary sources, many rarely seen since Monroe's own time, to conjure up this fascinating portrait of an essential American statesman and president.*

*The remarkable untold story of Franklin D. Roosevelt and the five extraordinary men he used to pull America into World War II In the dark days between Hitler's invasion of Poland in September 1939 and Japan's attack on Pearl Harbor in December 1941, Franklin D. Roosevelt sent five remarkable men on dramatic and dangerous missions to Europe. The missions were highly unorthodox and they confounded and infuriated diplomats on both sides of the Atlantic. Their importance is little understood to this day. In fact, they were crucial to the course of the Second World War. The envoys were magnificent, unforgettable characters: First off the mark was Sumner Welles, the chilly, partisan under secretary of state, later ruined by his sexual misdeeds, who was dispatched by FDR on a tour of European capitals in the spring of 1940. In summer of that year, after the fall of France, William "Wild Bill" Donovan—war hero and future spymaster—visited a lonely United Kingdom at the president's behest to determine whether she could hold out against the Nazis. Donovan's report helped convince FDR that Britain was worth backing. After he won an unprecedented third term in November 1940, Roosevelt threw a lifeline to the United Kingdom in the form of Lend-Lease and dispatched three men to help secure it. Harry Hopkins, the frail social worker and presidential confidant, was sent to explain Lend-Lease to Winston Churchill, Averell Harriman, a handsome, ambitious railroad heir, served as FDR's man in London, expediting Lend-Lease aid and romancing Churchill's daughter-in-law. Roosevelt even put to work his rumpfed, charismatic opponent in the 1940 presidential election, Wendell Willkie, whose visit lifted British morale and won wary Americans over to the cause. Finally, in the aftermath of Germany's invasion of the Soviet Union, Hopkins returned to London to confer with Churchill and traveled to Moscow to meet with Joseph Stalin. This final mission gave Roosevelt the confidence to bet on the Soviet Union. The envoys' missions took them into the middle of the war and exposed them to the leading figures of the age. Taken together, they plot the arc of America's trans-formation from a divided and hesitant middle power into the global leader. At the center of everything, of course, was FDR himself, who moved his envoys around the globe with skill and élan. We often think of Harry S. Truman, George Marshall, Dean Acheson, and George F. Kennan as the authors of America's global primacy in the second half of the twentieth century. But all their achievements were enabled by the earlier work of Roosevelt and his representatives, who took the United States into the war and, by defeating domestic isolationists and foreign enemies, into the world. In these two years, America turned. FDR and his envoys were responsible for the turn. Drawing on vast archival research, Rendezvous with Destiny is narrative history at its most delightful, stirring, and important.*

*Whoever said happy endings were easy was a fool or a liar. Cursed nearly a century ago by a demon he was hunting, Quinn Byrnes has waited impatiently to feel the sense of his mate in his head. After watching his brother settle down with a mate, a spark of hope ignites in Quinn when he finally feels the connection to his own woman. Following the instincts of his inner dragon, Quinn lands in London only to discover the woman destined to break his curse is working for his enemies. Lily Delaney would do anything to guarantee her sister's safety-including working as a bounty hunter for a powerful demon. When her latest hunt ends in failure, Lily finds herself face to face with a shifter who dumps equal amounts of desire and anger in her veins. Quinn is tall, tattooed, and his dazzling green eyes challenge her to take him as a mate even as he sets her life on fire. Quinn's presence unleashes unwanted demonic attention in the form of an ancient enemy that's now turned his sights on Lily. But with her target in the wind and her sister on the chopping block as punishment, time is running out for Lily to launch a daring rescue. As their fates circle, Quinn and Lily orbit around a truth neither wants to admit: happy endings come with a price. *In the tradition of Memento and Inception comes a thrilling and scary young adult novel about haunted reality where characters in a story find that a deadly and horrifying world exists in the space between the written lines. Emma Lindsay has problems: no parents, a crazy guardian, and all those times when she blinks away, dropping into other lives so surreal it's as if the story of her life bleeds into theirs. But one thing Emma has never doubted is that she's real. Then she writes "White Space," which turns out to be a dead ringer for part of an unfinished novel by a long-dead writer. In the novel, characters travel between different stories. When Emma blinks, she might be doing the same. Before long, she's dropped into the very story she thought she'd written. Emma meets other kids like her. They discover that they may be nothing more than characters written into being for a very specific purpose. What they must uncover is why they've been brought to this place, before someone pens their end.*

In order to effectively practise as an early childhood educator it is essential to understand the theories, policies and pedagogy that shape the discipline. Understanding Early Childhood Education and Care in Australia provides core foundational knowledge that is critical for best practice. Part One looks at concepts of childhood and the development of mass education before examining influential theoretical and critical theory. Specific approaches are also analysed including Reggio Emilia, Montessori, Multiple Intelligences and HighScope. Part Two focuses on the guiding frameworks and policies in Australia and explores in depth issues affecting Indigenous children and provisions for recognising diversity and the practice of inclusion. The final section examines teaching and leadership and considers curriculum and families, the care of babies and infants, the environment in which early childhood education takes place and the responsibilities and professional development of teachers. This essential reference will ensure pre-service teachers develop a sophisticated understanding of how theory underpins effective practice in early childhood education. Textbook for students studying early childhood and childcare throughout Australia. Chapters discuss pregnancy and childbirth, child growth and development, behaviour, nutrition, children and the law, and services for children. Chapters open with overviews and outcomes.
