evaluate your mastery of the subject matter as you progress through the corresponding textbook. The Study Guide is made up of 246 questions divided into individual quizzes of 5-10 questions each that correspond to chapters in The American Psychiatric Publishing Textbook of Neuropsychiatry and Behavioral Neurosciences, Fifth Edition. Questions are followed by an Answer Guide that references relevant text (including the page number) in the Textbook to allow quick access to needed information. Each answer is accompanied by a discussion that addresses not only the correct response but also explains why other responses are not correct. The Study Guide's companion, the fifth edition of The American Psychiatric Publishing Textbook of Neuropsychiatry and Behavioral Neurosciences, expanded its focus on the neurosciences to encompass the great strides that have been made in the basic and clinical sciences. First published as the only multiauthored, comprehensive textbook in the field, the Textbook has been updated to reflect the explosive growth

description or the product text may not be available in the ebo version.

"For the last three decades, Campbell Biology has been the leading college text in the biological sciences. It has been translated into 19 languages and has provided millions of students with a solid foundation in college-level biology. This success is a testament not only to Neil Campbell's original vision but also to the dedication of hundreds of reviewers (listed on pages xxviii-xxxii), who, together with editors, artists, and contributors, have shaped and inspired this work"--

The Cambridge IGCSE® Combined and Co-ordinated Sciences series is tailored to the 0653 and 0654 syllabuses for first examination in 2019, and all components of the series are endorsed by Cambridge International Examinations. This Biology Workbook is tailored to the Cambridge IGCSE® Combined Science 0653 and Co-ordinated Sciences 0654 syllabuses for examination in 2019 and is endorsed for learner support by Cambridge International Examinations. Covering both the Core and the Supplement material, this workbook contains exercises arranged in the same order as the coursebook and are clearly marked according to the syllabus they cover. Developing students' scientific skills, these exercises are complemented by self-assessment checklists to help them evaluate their work as they go. Answers are provided at the back of the book.
