Born and raised in London, David Lindo's passionate interest in the natural world, especially birds, began at an early age. His thriving curiosity opened a door for him into an unexplored world of urban birding. Years later he decided to champion the delights of birding in cities and reinvented himself as the Urban Birder. Using this illustrious alias David

## Read Free Bird Watching Binoculars Buying Guide

Lindo has brought urban birding back into the public consciousness, promoting its virtues at every opportunity and writing about it in the birding press. He urges people to look up when walking around in cities, or to stop and close your eyes in a busy street just to listen to the birds that may be singing. In his second book, David visits some of the world's most unnatural environments, revealing the astonishingly diverse range of wildlife that can be found when you take the time to look. Much more than a compendium of

What drives a man to travel to sixty countries and spend a fortune to count birds? And what if that man is your father? Richard Koeppel's obsession began at age twelve, in Queens, New York, when he first spotted a Brown Thrasher, and jotted the sighting in a notebook. Several decades, one failed marriage, and two sons later, he set out to see every bird on earth, becoming a member of a subculture of competitive bird watchers worldwide all pursuing the same goal. Over twenty-five years, he collected over seven thousand

***No matter where you see birds in the city—in parks or woodlands, on power lines or in parking lots—they are the natural soul of the urban landscape. They enhance the city and the lives of those who watch them. Nature writer B. C. Robison and wildlife photographer John Tveten have teamed up to produce this field guide for birders who want to identify the birds most commonly seen in Houston. Fifty-five species are included, ranging from such well-known favorites as the mockingbird and cardinal to the more exotic yellow-crowned night heron. A full-color photograph for each bird appears alongside warm and often witty description. For quick reference, a summary of the primary field marks of the adult bird is also provided. This summary includes not only***

species information. And now David Sibley, America's premier birder and best-known bird artist, turns his attention to the general characteristics that influence the appearance of all birds, unlocking the clues to their identity. In 200 beautifully rendered illustrations and 16 essays, this scientifically precise volume distills the essence of Sibley's own experience and skills, providing a solid introduction to "naming" the birds. *Birding Basics* reviews how one can get started as a birder—the equipment necessary, where and when to go birding, and perhaps most important, the essential things to look for when birds appear in the field—as well as the basic concepts of bird identification and the variations that can change the appearance of a bird over time or in different settings. Sibley also provides critical

path. Precise directions to the best viewing locations within the region's diverse habitats enable birdwatchers to efficiently explore urban and wild birding hotspots. Over 500 species of birds can be seen in New York City's five boroughs and on Long Island, one of the most densely populated and urbanized regions in North America, which also happens to be situated directly on the Atlantic Flyway. In this fragmented environment of scarce resources, birds concentrate on what's available. This means that high numbers of birds are found in small spaces. In fact, Central Park alone attracts over 225 species of birds, which birders from around the world flock to see during spring and fall migration. Beyond

## Read Free Bird Watching Binoculars Buying Guide

Central Park, the five boroughs and Long Island have numerous wildlife refuges of extraordinary scenic beauty where resident and migratory birds inhabit forests, wetlands, grasslands, and beaches. These special places present an opportunity to see a wide array of songbirds, endangered nesting shorebirds, raptors, and an unprecedented number and variety of waterfowl. Including the latest information on the seasonal status and distribution of more than 400 species, with 39 maps and over 50 photographs, this full-color guide features information essential to planning a birding visit. It will become the go-to book for both the region's longtime birders and those exploring the area for the first time.

**window. Look up and you will see. The book is an inspirational look at the birdlife in our cities, or more accurately, the author's personal journey of discovery involving encounters with racism, air rifle-toting youths, girls, alcohol, music, finding urban wildlife oases and of course, birds. David Lindo's story is entertaining and sometimes controversial, but the one guarantee is that the reader will be left feeling inspired enough to pick up a pair of binoculars and head to the nearest park.
