ten sharply polished stories, Mandishona explores the dark comedy that lies just beneath the surface of tragedy in Zimbabwean society in the last decade. His perceptions leave few untouched: politicians, new farmers, exiles, stranded queues and inflation that renders the currency worthless... Truth and morality are dispensable in a society where wealth is rewarded with respect, integrity marred by untruth, rumour displaces fact, and power is only interested in its own survival. Mandishona holds a mirror up to reality and without equivocation asks us to look at what is real: the likeness or the distortion and what it is we want to see. about who Tibetans really are. While many associate Tibet with Buddhism, it was also once a land of warriors and chariots, whose burials included megalithic arrays and golden masks. This first Tibetan civilization, known as Zhang Zhung, was a cosmopolitan one with links extending across Eurasia, bringing it in line with many of the major cultural innovations of the Late Bronze Age and Iron Age. Based on decades of research, *The Dawn of Tibet* draws on a rich trove of archaeological, textual, and ethnographic materials collected and analyzed by the author. Bellezza describes the vast network of

In 1872, a woman known only as "An Earnest

Englishwoman" published a letter titled "Are Women Animals?" in which she protested against the fact that women were not treated as fully human. In fact, their status was worse than that of animals: regulations prohibiting cruelty against dogs, horses, and cattle were significantly more punitive than laws against cruelty to women. The Earnest Englishwoman's heartfelt cry was for women to "become—animal" in order to gain the status that they were denied on the grounds that they were not part of "mankind." In this fascinating account, Joanna Bourke addresses the profound question of what it means to be "human" rather than "animal." How are people excluded from political personhood? How does

one become entitled to rights? The distinction between the two concepts is a blurred line, permanently under construction. If the Earnest Englishwoman had been capable of looking 100 years into the future, she might have wondered about the human status of chimeras, or the ethics of stem cell research. Political disclosures and scientific advances have been re-locating the human-animal border at an alarming speed. In this meticulously researched, illuminating book, Bourke explores the legacy of more than two centuries, and looks forward into what the future might hold for humans, women, and animals.

Anthony Barthelemy considers the influence of English political, social, and theatrical history on the depiction of black characters on the English stage from 1589 to 1695. He shows that almost without exception blackness was associated with treachery, evil, and ugliness.

Barthelemy's central focus is on black characters that appeared in mimetic drama, but he also examines two nonmimetic subgenres: court masques and lord mayors' pageants. The most common black character was the villainous Moor. Known for his

unbridled libido and criminal behavior, the Moor was, Barthelemy contends, the progenitor of the stereotypical black in today's world. To account for the historical development of his character, Barthelemy provides an extended etymological study of the word Moor and a discussion of the received tradition that made blackness a signifier of evil and sin. In analyzing the theatrical origins of the Moor, Barthelemy discusses the medieval dramatic tradition in England that portrayed the devil and the damned as

black men. Variations of the stereotype, the honest Moor and the Moorish waiting woman, are also examined. In addition to black characters, Barthelemy considers native Americans and white North Africans because they were also called Moors. Analyzing how nonblack, non-Christian men were characterized provides an opportunity to understand how important blackness was in the depiction of Africans. Two works, Peele's *The Battle of Alcazar* and Southerne's *Oroonoko*, frame Barthelemy's study, because they constitute important

milestones in the dramatic representation of blacks. Peele's *Alcazar* put on the mimetic stage the first black Moor of any dramatic significance, and Sotherne's *Oroonoko* was the first play to have an African slave as its hero. Among the other plays considered are Keker's *Lust Dominion*, Heywood's *The Fair Maid of the West*, Beaumont and Fletcher's *The Knight of Malta*, Marston's *Wonder of Women*, and Shakespeare's *Titus Andronicus* and *Othello*. In his provocative study of *Othello*, Barthelemy shows how

The first work to study the depiction of blacks in the drama of this period in a complete cultural context, *Black Face, Maligned Race* will be informative for anyone interested in the stereotypical representation of blacks in literature.
