Now it's my job to find Nathan before the Voluntary Vampire Extinction Movement does, because they're just waiting for an excuse to terminate him—and anyone foolish enough to help him. But it gets worse. It turns out that Nathan's been possessed by one of the most powerful and wicked vampires alive—the Soul Eater. And who knows what vile plan he's concocted? As an unknown assailant stalks them across the treacherous Superstition Mountains in Arizona, they race to follow their treasure map's directions to a hidden trove of gold, but will they survive the danger long enough to reach their prize? “The plot’s heart-stopping twists will keep readers breathless until the final page.” —Publishers Weekly When Abigail Holland awakes to the sound of a nighttime intruder in her rambling Denver Victorian, she knows exactly what the black shrouded figure is after—the map she recently inherited from her grandfather. Whoever he is, the man who grapples with her, then escapes, is willing to kill for the location of a treasure King Farrell hunted for more than ten years. The Devil’s Gold has claimed hundreds of lives, and it was her grandfather’s obsession. With a killer pursuing her and her own family not to be trusted, Abby decides to take up the search herself. But she’ll need help to do it, and there’s no one better than renowned explorer and treasure hunter Gage Logan. Despite the instant chemistry between them, Gage is reluctant. Innocent people have been hurt on his watch before. But when Abby shows him a genuine gold ingot she found with the map, his curiosity is piqued. Before long they’re heading into the flash floods and brutal winds of the Superstition Mountains, straight into a passionate entanglement—and the dark heart of danger.

Jack Bush closes up with Cara Lynn Delaney as part of his plan to expose the Delancey family and their secrets, but he does not count on his own feelings getting in the way.

A thousand years ago, the Eleven Domains were invaded and the original inhabitants forced on the road as Travelers, belonging nowhere, welcomed by no-one. Now the Domains are governed with an iron fist by the Warlords, but there are wilder elements to the landscape which cannot be controlled and which may prove their undoing. Some are spirits of place, of water and air and fire and earth. Some are greater than these. And some are human. Bramble: a village girl, whom no-one living can tame ... forced to flee from her home for a crime she did not commit. Ash: apprentice to a safeguarder, forced to kill for an employer he cannot escape. Saker: an enchanter, who will not rest until the land is returned to his people. As their three stories unfold, along with the stories of those whose lives they touch, it becomes clear that they are bound together in ways that not even a stonemason could foresee - bound by their past, their future, and their blood.

Being a vampire is a life-or-death situation. When I was first turned, I had only my survival to worry about. Now I'm locked in a battle for the existence of the entire human race--and the cards are definitely stacked against me. The Voluntary Vampire Extinction Movement headquarters are destroyed, and their pet horror, the Oracle, is on the loose. She'll stop at nothing to turn the world into a vampire's paradise, even if it means helping the Soul Eater become a god and harnessing his power for her own evil ends. An ancient vampire, a blood-sucking near deity and oh, yeah, my presently human former sire throw into the mix. I say bring it on. May the best monster win.

Blood is thicker—and more tempting—than water Finally, school's out for summer. To avoid the lethal sun, the Nocturne family is taking a trip to Isla Necrata, the exclusive resort owned by the Half-Light Consortium, whose destinations are always located near a natural disaster, which makes for plenty of vampire fun. But for Oliver, it's hard to look forward to a big dose of time with his family when everything he does seems to disappoint them. Luckily, they stop to visit some Old World relatives in Morosia on the way like him. And the timing is convenient: Emalie is in nearby Rome searching for the oracle who may be the key to Oliver's prophecy. Raised in rural England before the rise of the Internet, Ben Crane grew up in the company of wild things, with hawks and other birds of prey alive in his mind—and woods and fields—as symbols of a kind of self-possessed, solitary power. He spent time with them, knew them, and loved them. But as Crane grew into adulthood, situations that may seem to many of us natural, or even comforting, were challenging: he found it difficult to be around other people and to read social cues, sometimes retreating in fear or lassitude. When Crane became a father, these challenges became unbearable, and he fled to isolation. Hawks brought him back. In this artful and moving memoir, we follow Crane on his remarkable journey of flight and return. Traveling from the United Kingdom to Pakistan, we learn first about the history and practice of falconry, a beautiful and brutal partnership between humans and birds that has persisted for thousands of years. And as Crane's personal story unfolds, we come to understand how he found solace and insight and birds of prey in particular, ran in parallel with my feelings for my son," Crane writes. "I worked out that they were, in fact, two sides of the same coin—the deep love of one could, with gentle observation, inform and unlock the deep love for the other. . . . Perhaps this then is the central theme of my story." Many of us rely upon animal companions to provide a sense of joy, compassion, and empathy. But as Blood Ties teaches us, our relationships with the creatures among us can also transform us, illuminating what we are and how we are. The truth will set you free—if it doesn't get you killed Savannah Stade is not the person she thought she was. The reading of her "father's" will has led her to a world-shattering revelation: her sisters are not her blood kin—and she may be the heirless to a massive fortune. Her not-quite-fiancé Judd doesn't care where she came from—he only wants her by his side. But the primal need to uncover her past wins out, and Savannah trades the Montana ranges for Miami's moneyed ocean-side enclaves. The wealthy and powerful past. But there's is a clan seldom troubled by...inconveniences. They've always had the means to eradicate any blemish on their perfect lives. One more won't make a difference.

I'm no coward. I want to make that perfectly clear. But after my life turned into a horror movie, I take fear a lot more seriously now. I finally became Dr. Carrie Ames just eight months ago. Then I was attacked in the hospital morgue by a vampire. Just my luck. So now I'm a vampire, and it turns out I have a blood tie to the monster who sired me. The tie works like an invisible leash and I'm bound to him no matter what I do. And of course he's one of the most evil vampires on earth. With my sire hell-bent on turning me much worse — except I'm attracted to them both. Drinking blood, living as an immortal demon and being a pawn between two warring vampire factions isn't exactly how I'd imagined my future.
