Making Babies offers a proven 3-month program designed to help any woman get pregnant. Fertility medicine today is all about aggressive surgical, chemical, and technological intervention, but Dr. David and Blakeway know a better way. Starting by identifying "fertility types," they cover everything from recognizing the causes of fertility problems to making lifestyle choices that enhance fertility to trying surprising strategies such as taking cough medicine, decreasing doses of fertility drugs, or getting acupuncture along with IVF. Making Babies is a must-have for every woman trying to conceive, whether naturally or through medical intervention. Dr. David and Blakeway are revolutionizing the fertility field, one baby at a time.

What's Your GenoType? GenoType 1 The Hunter Tall, thin, and intense, with an overabundance of adrenaline and a fierce, nervous energy that winds down with age, the Hunter was originally the success story of the human species. Vulnerable to systemic burnout when overstressed, the Hunter's modern challenge is to conserve energy for the long haul. GenoType 2 The Gatherer Full-figured, even in a culture where thin is "in." An unsuccessful crash dieter with a host of metabolic challenges, the Gatherer becomes a glowing example of health when properly nourished. GenoType 3 The Teacher Strong, sinewy, and stable, with great chemical synchronicity and stamina, the Teacher is built for longevity—given the right diet and lifestyle. This is the genotype of balance, blessed with a tremendous Explorer Muscular and adventurous, the Explorer is a biological problem solver, with an impressive ability to adapt to environmental changes, and a better than average capacity for gene repair. The Explorer's vulnerability to hormonal imbalances and chemical sensitivities can be overcome with a balanced diet and lifestyle. GenoType 5 The Warrior Long, lean, and healthy in youth, the Warrior is strong and lifestyle. The Warrior can overcome the quick-aging metabolic genes and experience a second, "silver," age of health. GenoType 6 The Nomad A GenoType of extremes, with a great sensitivity to environmental conditions—especially changes in altitude and barometric pressure, the Nomad is vulnerable to neuromuscular and immune problems. Yet a well-conditioned Nomad has the enviable gift of the international bestseller Eat Right 4 Your Type again breaks new ground with the first diet plan based on your unique genetic code. With Eat Right 4 Your Type and additional books in the Blood Type Diet® series. Dr. Peter J'Adamo pioneered a new, revolutionary approach to dieting—one linked to a person's blood type. In the GenoType Diet, he takes his groundbreaking research to the next Hunter, Gatherer, Teacher, Explorer, Warrior, or Nomad, Dr. D'Adamo offers a customized program that compliments your genetic make-up to maximize health and weight loss, as well as prevent or even reverse disease. In simple, concise prose, Dr. D'Adamo explains how a host of environmental factors, including diet and lifestyle, dictate how and when your genes express themselves. He goes on to your genetic destiny by turning on the good genes and silencing the bad ones. Your health risks, weight, and life span can all be improved by following the GenoType Diet that's right for you. Using family history and blood type, as well as simple diagnostic tools like fingerprint analysis, leg length measurements, and dental characteristics, Dr. D'Adamo shows you how to map out your genetic iden follow. Without expensive tests or a visit to the doctor, the GenoType Diet reveals previously hidden genetic strengths and weaknesses and provides a precise diet and lifestyle plan for every individual. Based on the latest and most cutting-edge genetic research, this is a twenty-first-century plan for wellness and weight loss from a renowned healthcare pioneer.

Dr. D'Adamo has forever changed the strategy for eating right to lose weight and achieving maximum health. In addition to the beneficial, neutral, and avoid categories, he introduces a new food category—"superbeneficial"—for helping the body fight diabetes.

Blood Type Diet [Second Edition] Featuring Blood Type Recipes ----- Now [Second Edition] with the following changes: * New introduction * Improved formatting and editing ----- A blood type diet is one in which you aim to eat the right foods for your type of blood. Four different blood types determine the blood type diet food list. The blood types diet covers type O, A, and AB health of the person. Each blood type has specific foods that are allowed and not allowed for consumption. Peter D'Adamo who pioneered the diet plan bases the diet plan very much on the book and research. He fully believes that blood type and diet are directly related and we should consume foods or diets for blood types to match each person. This book has an information section explaining over the foods list.

Dr. James DAdamo bursts onto the world of natural medicine in the 1970s with his revolutionary discovery of, and approach to, healing based on a persons blood type. Written in the infancy of Americas modern natural-healing movement, his first book, One Mans Food... is someone elses poison, detailed his unique, individual treatment method that correlated a persons type of blood with diet, exercise, and spiritual practice. Just An Ounce of Prevention... is A Pound of Cure comes almost 30 years later, as people around the world have increasingly awakened to the efficacy of natural remedies... and at a time when the American health-care system is increasingly failing the public. In this fascinating book, Dr. DAdamo exhorts us to take responsibility for our own health and prevent chronic, degenerative diseases using his newest discoveries, which has given him the opportunity to treat more than 30,000 patients. He explains which foods and exercises are right for each of us, what assets and liabilities were born with, and how our minds can work to better process information. This book contains Dr. DAdamos most up-to-date and comprehensive teachings; and includes recipes, exercise regimens, and a panoply of natural therapies he recommends to the patients at his institute. Just An Ounce of Prevention is the consummate statement on natural healing from this generations most original naturopath. As Dr. DAdamo writes: We are all here for a purpose, and we can only aspire to our physical and spiritual fulfillment when the body is healthy and the mind clear. Blood types are a Truth of Nature and, if followed, will provide a person with the physical and spiritual health that Nature has intended for them.

Addressing such symptoms as hot flashes, a loss of libido, and osteoporosis, a guide to managing menopause identifies foods that can be strategically consumed for medicinal benefit and in accordance with specific blood types. In a volume that also provides exercise and supplement recommendations. Reprint. 15,000 first printing.

A guide for preventing and treating fatigue is based on the author's Blood Type Diet strategies and explains how to customize a personal program for eating, exercising, and living in accordance with one's specific needs, in a handbook complemented by self-assessment tests and the author's new "Super Beneficial" disease-fighting food section. Reprint.

Fight It with the Blood Type Diet

Cardiovascular Disease: Fight It with the Blood Type Diet

If you're experiencing discomfort, fatigue, or other symptoms that won't go away no matter what you do or how many doctors you see, chances are you're one of the millions unknowingly suffering from a systemic fungal/yeast infection, "the hidden invader." The result of an imbalance starting in your internal ecosystem, this can be a key factor in headaches, joint and muscle pain, depression, cancer, food allergies, digestive problems, autism, and other immune-related disorders. The Body Ecology Diet reveals how to restore and maintain the "inner ecology" your body needs to function properly, and eliminate or control the symptoms that rob you of the joy of living. Tens of thousands of people have already benefited from the Body Ecology way of life—Donna Gates shows you, step-by-step, how to eat your way to better health and well-being... deliciously, easily, and inexpensively! In this book, you will learn how to: use seven basic universal principles as tools to gain mastery over every health challenge you may encounter; focus on your inner ecology to create ideal digestive balance; conquer cravings with strategies for satisfying snacking and for dining away from home; and plan meals with dozens of delectable recipes, an array of menus, and detailed shopping lists.

The author of the best-selling "Eat Right 4 (for) Your Type" draws on the principles of his popular diet program to explain how individualized nutritional programs, based on one's blood type, can help battle the painful signs and debilitating symptoms of arthritis and other inflammatory diseases. Reprint.

A targeted plan for fighting allergies, one of the world's most common chronic conditions, from Dr. Peter J. D'Adamo, author of the Eat Right 4 (for) Your Type series—with more than two million copies in print! With specific tools unavailable in any other book, Allergies: Fight Them with the Blood Type Diet has four battle plans—individualized for your needs—for preventing and treating environmental and food allergies, chronic sinus infections, asthma, and related allergy conditions. Dr. D'Adamo's battle plan includes: • A diet tailored to your blood type that attacks allergies at their source, reducing inflammatory activity, and pinpointing dietary factors that trigger allergic reactions. • A new category of Super Beneficials highlighting powerful allergy-fighting foods for your blood type. • Blood type-specific protocols for vitamins, supplements, and herbs to target allergies and related conditions. • A four-week plan for getting started with practical strategies for eating, exercising, and living right to fight allergies.

If you want to get a step-by-step overview of the Blood Type diet, then keep reading this comprehensive 3-week guide. Your blood plays a key role in your digestion system, the efficiency of your metabolism, and your mental and physical health. Besides, blood promotes the strength of your immune system and enables you to handle stress.

The idea of blood diet was first presented by a naturopathic physician Dr. Peter D'Adamo, who believes blood type is not only important for transfusion but also acts as the critical predictive marker for disease (Watson, 2020). His research showed a healthy diet should be determined according to the blood type because a distinct diet for each blood type is essential to maintain wellbeing. The blood type diets are based on different types of blood determined by the ABO blood group system. According to Dr. D'Adamo, the food inside our stomach reacts with our blood type that contributes to both mental and physical health (Miller, 2016). Eating blood type diets enables your body to digest food more efficiently that in turn helps you lose weight, get healthier, prevent potential diseases, and have more energy. While on the blood type diet, your food preferences, and choices when eating out will be determined by your blood type. You will have to severely restrict some foods you commonly eat depending on your blood group. But before eating the blood type diet, you will need to find out your blood type with the ABO blood group system. In this step-by-step 3-week guide of the blood-type diet, you will discover: A brief history of the blood type diet and its effectiveness What is the importance of your blood type in determining your health? Profiles and permitted foods for different blood types What are some of the benefits and risks associated with the Blood Type diet? Are there any reservations shown by doctors on the usage of the Blood Type diet?

Eat Right 4 Your Type (Revised and Updated)

Fundamentals of Generative Medicine

Blood Type Diet

One Man's Food—is Someone Else's Poison

The Longevity Paradox

From the doctor who brought us the blood-type health craze that has swept the nation, here is new research that shows you how to live according to your blood type so that you can achieve total physical and emotional well-being. Over a million readers have used the individualized blood-type diet solution developed by Dr. Peter J. D'Adamo to achieve their ideal weight. In the five years since the New York Times bestseller Eat Right 4 (for) Your Type was published, new research has indicated that there's a blood-type profile for almost every aspect of our lives, and thanks to that new research, your blood type reveals how you can live a better life. Live Right 4 (for) Your Type is Dr. D'Adamo's ground breaking book that will give you individualized prescriptions according to blood type. According to your blood type, should you: • Eat three regular meals a day, or small, frequent ones? • Have a regimented or flexible routine? • Go to sleep at the same time every night or have a flexible bedtime? • Do without rest periods or take them religiously? • Achieve emotional balance through exercise, meditation, or herbs? Each blood-type prescription is divided into five life areas. Recommendations, guidelines, and informational charts are provided for the following: • Lifestyle • Stress and Emotional Balance • Maximizing Health • Overcoming Disease • Strategies for Aging Live Right 4 (for) Your Type also has information compiled from new research that greatly expands on the information in Eat Right 4 (for) Your Type, featuring: • New metabolism-boosting supplement lists to increase the body's efficiency and ability to achieve ideal weight. • Refined food and supplement lists to increase cardiac efficiency, lower cholesterol, and strengthen your ability to fight colds, flu, and more serious diseases. • Instructions on how to use vegetables and herbs to improve Natural Killer Cell activity. • New information on blood type subgroups that influence not only weight, but also physical and mental health.

Dr. Peter J. D'Adamo, the author of the Eat Right 4 (for) Your Blood Type Diet series, with more than two million copies in print, has now created a targeted plan for fighting arthritis and cardiovascular disease. Using specific tools not available in any other book, sufferers can find their own, individualized battle plans for preventing and treating heart conditions, high blood pressure, high cholesterol, vascular problems, and angina. Now includes new information to maximize cardiovascular health, food charts, dietary recommendations, blood type-specific questionnaires, and the latest research on prevention and treatment of these conditions.

Based on his revolutionary and highly effective Blood Type Diet ®, Dr. Peter J. D'Adamo with personal wellness chef Kristin O'Connor has written a set of practical, personalized cookbooks, so you can eat right for your type every day—with more than 150 recipes crafted for your blood type AB diet! Packed with recipes specifically designed for your Blood Type AB diet, the Personalized Cookbook features a variety of delicious and nutritious recipes for breakfast, lunch and dinner as well as snacks, soups and other tempting treats that make eating right for your type easy and satisfying. It is an essential kitchen companion with masterfully-crafted recipes that make cooking with nutrient-rich seafood, whole grains, cultured dairy, organic vegetables and fruits an exciting and healthy adventure. In this book, you will find delicious recipes for Blackstrap Cherry Granola, Roasted Tomato Greek Salad, and Spring Pesto Pasta. In addition to over 150 recipes and beautiful color photos, this book also includes: • Valuable tips on stocking the Blood Type AB pantry and freezer • Creative ideas for last minute meals • A four-week meal planner • Recipes tagged for non-Secretors and suitable substitutions Previously published as Personalized Living Using the Blood Type Diet (Type AB)

Concepts and Characterizations

"Includes a 10-day jump-start plan"--Jacket.

From the author of the New York Times bestseller The Plant Paradox comes a groundbreaking plan for living a long, healthy, happy life. From the moment we are born, our cells begin to age. But aging does not have to mean decline. World-renowned surgeon Dr. Steven Gundry has been treating mature patients for most of his career. He knows that everyone thinks they want to live forever, until they hit middle age and witness the suffering of their parents and even their peers. So how do we solve the paradox of wanting to live to a ripe old age—but enjoy the benefits of youth? This groundbreaking book holds the answer. Working with thousands of patients, Dr. Gundry has discovered that the "diseases of aging" we most fear are not simply a function of age; rather, they are a byproduct of the way we have lived over the decades. In The Longevity Paradox, he maps out a new approach to aging well—one that is based on supporting the health of the "oldest" parts of us: the microorganisms that live within our bodies. Our gut bugs—the bacteria that make up the microbiome—largely determine our health over the years. From diseases like cancer and Alzheimer's to common ailments like arthritis to our weight and the appearance of our skin, these bugs are in the driver's seat, controlling our quality of life as we age. The good news is, it's never too late to support these microbes and give them what they need to help them—and you—thrive. In The Longevity Paradox, Dr. Gundry outlines a nutrition and lifestyle plan to support gut health and live well for decades to come. A progressive take on the new science of aging, The Longevity Paradox offers an action plan to prevent and reverse disease as well as simple hacks to help anyone look and feel younger and more vital.
