*A catalog of an exhibit held at the Hunterdon Art Museum, Clinton, NJ, Sept. 23, 2018- Jan. 6, 2019. The exhibit displays contemporary fiber art made using lacemaking techniques, principally bobbin lace and needle lace. Forty-one works by twenty-eight artists representing eleven nationalities explore the range of effects possible from these very fluid textile techniques. Bobbin lace and needle lace techniques developed in the late 16th century and evolved rapidly with the demands of aristocratic fashion. No longer economically viable for use in apparel and housewares these sophisticated techniques are being used by artists in a variety of fibers and filaments in unlimited colors and textures to interpret their world. Lacemaking techniques are very mathematical in nature, appealing to artists with mathematical and scientific training. Many of the works in the show explore scientific subjects and philosophical questions posed by living in a highly technological society. This exhibit combines the work of contemporary lace pioneers of the lace revival of the 1970s with exciting new work by a generation of artists who were impacted by them. An essay, Czech Contemporary Lace and Milča Eremiáčová, by Dagmar Beckel-Machyckova, tells the fascinating story of how Communism nurtured the Czech contemporary lace movement, providing a uniquely nurturing setting for creative lacemaking to flourish during the second half of the twentieth century. Lieve Jerger's essay, The Carriage of Lost Love 1977-2018 describes Jerger's work making a life size carriage in copper wire bobbin lace, a project that is still ongoing.Other artists include Manca Ahlin, Jane Atkinson, Daniela Banatova, J Carpenter, Chof+Shine, Jill Nordfors Clark, Pierre Fouché, Laura Friesel, Alex Goldberg, Maggie Hensel-Brown, Agnes Herczeg, Ros Hills, Veronika Irvine, Nava Lubelski, Dorie Millerson, Penny Nickels, Wako Ono, E.J.Parkes, Lenka Suchanek, Lauran Sundin, Olivia Valentine, Nicole Valsesia-Lair, Denise Watts, Louise West and Ashley Williams.*

Modern, step-by-step approach shows how to create every variety of bobbin lace, from the simplest stitches to the most challenging patterns. Suitable for needleworkers at all levels. 279 illustrations.

This work contains a progressive series of patterns to work through, starting with clear geometric shapes which gain in complexity until the reader can master the most lavish of the traditional designs.

Handy reference of more than 400 lace-related terms (Florentine knots, lappets, spangles, reticella, honiton, Tuscan filet, etc.) plus discussions of the origin, nomenclature, dating, and development of more controversial lace forms. Over 250 illustrations depict such lovely creations as Queen Victoria's wedding veil and the bridal tulle worn by Diana, Princess of Wales.

The comprehensive guide provides the lacemaker with step-by-step instructions and illustrations on the techniques which make up this type of lacemaking. Divided into ten easy-to-follow sections, alternative methods of construction are closely examined and explained. Bridget M. Cook begins with starts and edges, describing the techniques of replacing threads and adding pairs, joinings, sewings, connections and crossings. Additional information is provided on picots, tallikes and venetian cords, plaits and braids. Other sections look at carrying pairs, raised work, comers, curves and holes, endings, moving work under construction and the mounting of completed lace. Practical Skills in Bobbin Lace will help all lacemakers to increase their repertoire of techniques.

Torchon lacemaking is a textile art steeped in tradition and the skills required are often perceived to be beyond of ordinary mortals. In this practical book, Jan Tregidgo describes those skills through a step-by-step guide and makes them accessible to all. She explains traditional techniques through a series of specially designed samplers, which can be worked in order by the beginner or more experienced. Although colour is not traditional in bobbin lace, it has been used here to great effect so the path of each thread can be clearly followed through the sampler. The book covers essential equipment and materials, described in detail: traditional techniques are fully explained through a sequence of specially designed samplers; instructions for a super-beaded sampler; advice on adapting patterns; guide to joining and mounting lace; helpful troubleshooting hints; and information on suppliers and museums with lace collections. This is an indispensable guide for all lacemakers, textile artists and designers, and is superbly illustrated with over 700 colour illustrations including step-by-step photographs and simple diagrams to ensure that each stage is understood.

*Explore the world of Bobbin Lace with this book, which takes you through simple Torchon ground pieces to scarves, purse and bags.' Bobbin lace may look complicated when you see a pillow set up with dozens of bobbins, but it will seem far less daunting when you realise that only four bobbins (two pairs) are in use at any one time, and there are only two moves twist and cross that you can do.' While the basic lace stitches are common to all types of bobbin lace, different lacemaking traditions developed different ways of putting these stitches together. Bruges lace, for example, uses less than a dozen pairs of bobbins and a relatively coarse thread to create curved braids and flower-like motifs which are linked to form the fabric; on the other hand point ground laces, such as Chantilly or Bucks Point, are worked from one end to the other in fine silk or cotton and may need a hundred pairs or more.' An extensive techniques section makes lacemaking clear, simple and enjoyable. Five full step-by-step projects with pricking patterns. Gives advice on adding decorative features, beads and tassels. Suitable for both beginners and more experienced lacemakers. A clearly illustrated step-by-step guide to all the stitches and techniques needed to create beautiful bobbin lace. Includes prickings and easy-to-follow photographs showing how to use them. The Art of the Bobbin Lace

Lace, like silver or porcelain, can be classified by type and its date and place of origin often can be identified. But in the absence of marks giving maker or date, lace must be judged on its technical features and style. This new edition gathers fascinating and useful information in an easy to read and well-organised text covering needlepoint laces, embroideries, lace knitting and tatting, and bobbin laces made in Europe from the 16th century forward, including 19th century revivals. Each type is described and illustrated with hundreds of photographs and line drawings to show the technical characteristics and particular regard to the way one lace compares with another. A glossary, notes on cleaning, care, and conservation, and a price guide make this an essential reference for lace makers, designers, and lace collectors alike.

Step-by-step instructions, carefully graded projects for creating Torchon, Bedfordshire, Braided, Modern, other exquisite laces. 26 patterns including motifs for bookmarks, edgings, inserts, comers, medallions. 229 illustrations, including over 50 3-color stitch diagrams.

325 exquisite lace samples depict human and mythical figures, filigree designs of hearts and flowers, and other motifs. Royalty-free designs from elegant borders, edgings, collars, doilies, and more.

Excerpt from Lace Work: A Handbook; Illustrated The implements needed for work are bobbins, lace-desk, pattern and pins. A machine for winding thread on the bobbins is quite essential if one purposes to make a business of the lace making, but this may be had later. It should be borne in mind that only linen thread is suitable for bobbin lace, and that to insure the best results this should be smooth, lustrous, strong and 'lexible. It has been found by experimenting that Barbour's Irish 'ax threads possess these essential qualities to a much greater extent than any other on the market, and I recommend it unhesitatingly. Pins and patterns vary in size according to the No. Of thread used, and purpose for which the lace is required. The same design may be used for fine and coarse lace, the pattern being enlarged or made smaller by use of the point or quadrule paper. No. 250, 2-cent (barbour's lace thread), makes a delicate edging, suitable for trimming very fine handkerchiefs, etc.; the same design in No. 50. Same make, and -on a pattern correspondingly enlarged, produces a most useful lace for trimming underwear and similar purposes. The pins, which for ordinary torchon lace are of large size, sharp and round headed, are pushed in the holes designated by number. These are always put between the two pairs of bobbins last used, unless otherwise stated, and the threads closed around them. Madame Goubaud's Point Lace Book - Instructions and Patterns

*An illustrated guide to bobbin lace techniques.*

*This book provides a comprehensive and expert guide to lace technique and is executed in an exhaustive and practical manner. It shows working methods with clear and straightforward descriptions given in systematic progressive stages, and the large number of diagrams will prove extremely useful to all lace workers.*

*Here is a collection of 100 traditional patterns for Bucks Point lace, one of the finest laces in England. The diagrams are colour-coded for clarity, and each pattern is printed in detailed, diagrammatic form. There is one pattern on each page or on adjacent pages with its relevant pricking and an actual-size photograph of the completed piece of lace. The number of bobbins and the thread used are also noted. Not only are there 100 traditioat patterns contained within this book, but the majority have an unusual or interesting feature in their construction not readily observed or perhaps fully appreciated at first glance. Some of the patterns have been slightly adapted from the original to complement modern threads and all have been painstakingly researched from various museums. Lace makers, from those just starting to the experienced, will find here a wealth of readily understandable patterns at their fingertips.*
