Birds of Aruba, Bonaire, and Curacao

The Official Railway Guide

Birds of Aruba, Bonaire, and Curaçao is the essential guide for anyone traveling to those islands. It showcases the more than 280 species seen on Aruba, Bonaire, and Curaçao and provides descriptions of and directions to the best places to bird, from the famous white sand beaches to hidden watering holes to the majestic national parks. Aruba, Bonaire, and Curaçao—the "ABCs"—located in the southwestern Caribbean, not far from Venezuela, share fascinating ecological features with the West Indies as well as the South American mainland, making birding on the islands unique. The identification portion of the book features endemic subspecies such as the Brown-throated Parakeet; a wide variety of wintering North American migrants; spectacular restricted-range northern South American species such as the Yellow-shouldered Parrot, Bare-eyed Pigeon, Troupial, Ruby-topaz Hummingbird, and Yellow Oriole; and West Indian species including the Pearly-eyed Thrasher and Caribbean Elaenia. Colorful introductory sections provide readers with a brief natural history of the islands, detailing the geography, geology, and general ecology of each. In the site guide that follows, Jeffrey V. Wells and Allison Childs Wells share their more than two decades of experience in the region, providing directions to the best birding spots. Clear, easy-to-read maps accompany each site description, along with notes about the species that birders are likely to find. The identification section is arranged in classic field guide format and offers vivid descriptions of each bird, along with tips on how to identify them by sight and sound. The accounts also include current status and seasonality, if relevant, and common names in English, Dutch, and Papiamentu, often inspired by the unique voices of the birds, such as the "chibichibi" (Bananaquit) and "choco" (Burrowing Owl). The accompanying color plates feature the beautiful work of illustrator Robert Dean. The final section, on conservation, raises awareness about threats facing the birds and the habitats on which they rely and summarizes conservation initiatives and needs, offering recommendations for each island.

With the powerful, rhythmic sounds of Aboriginal English and Kokatha language woven through the narrative, Mazin Grace is the inspirational story of a feisty girl who refuses to be told who she is, determined to uncover the truth for herself. Growing up on the Mission isn't easy for clever Grace Oldman. When her classmates tease her for not having a father, she doesn't know what to say. Pappa Neddy says her dad is the Lord God in Heaven, but that doesn't help when the Mission kids call her a bastard. As Grace slowly pieces together clues that might lead to answers, she struggles to find a place in a community that rejects her for reasons she doesn't understand. In this novel, author Dylan Coleman fictionalizes her mother's childhood at the Koonibba Lutheran Mission in South Australia in the 1940s and 1950s.

North American Freight Service Edition

With its protected nearshore reef system, gem-clear seas, and sweeping conservation efforts, Bonaire has earned the title it boasts on its license plates: Diver's Paradise. For Andrew Jalbert, who first visited in the early 1990s, there was a draw to the island that was hard to shake. He returned regularly over the next twenty-five years in a variety of capacities: as a scuba instructor, a sun-starved vacationer, and a writer/photographer. What he hadn't expected at 43 years old, however, was to return as a father.Back on Bonaire is the story of stitching together two very different lives: one of airports, scuba tanks, article assignments and underwater cameras; the other of car seats, kindergarten, skinned knees and the boundless curiosity of a child.Jalbert merges both worlds in an enjoyable, funny and at times touching account of introducing his son to his beloved Bonaire. Along the way the reader gets a look at the island's cultural and natural history, some of its people and the importance of preserving the ecology of Bonaire - for his son and future generations.
