Buy the paperback and get the ebook for 99 cents today!

The creator of King Arthur's Very Great Grandson and Green Pants switches gears with a slyly silly introduction to shapes--just watch out for the emu! First comes the circle. Then the square and the triangle. Then the . . . emu pushing a pancake wagon down a hill? What begins as a concept book about everyone's geometric favorites soon defies expectations with a series of funny and imaginative twists. Award-winning author-illustrator Kenneth Kraegel pairs a deadpan text with simple wood-grained shapes, interspersed with vibrant illustrations of animals engaged in hilariously absurd pastimes. Each page turn builds on the delicious anticipation the contrast creates to make this a unique and rollicking story-time hit.

Crescent Moons and Pointed Minarets — Islamic book for kids "A beautiful picture book that simultaneously explores shapes, Islam, and the cultures of the Muslim people." — Kirkus Reviews Toddler book of shapes and Islamic traditions: From a crescent moon to a square garden to an octagonal fountain, this breathtaking picture book celebrates the shapes—and traditions—of the Muslim world. Toddler book by author Hena Khan: Sure to inspire questions and observations about world religions and cultures, Crescent Moons and Pointed Minarets is equally at home in a classroom reading circle and on a parent's lap being read to a child. If you and your child like books such as Lailah's Lunchbox, Numbers Colors Shapes, or The Name Jar, you will love Crescent Moons and Pointed Minarets.

Shapes All Around

INTRO TO GEOMETRIC SHAPES - GE

The geometric concepts of circles and squares are shown in photographs of wheels, signs, pots, and other familiar objects.

What am I? I lived a long, long time ago. I had round eyes... lots of sharp teeth... This new concept book from Caldecott Honor illustrator Suse MacDonald is sure to entertain children. As readers turn the brightly colored, die cut pages, shapes on each page come together to reveal a creature from long ago. Page by page, MacDonald's bright, cut-paper, collage-style artwork transforms circles into eyes and triangles into scales until a familiar creature is revealed, with the aid of a large fold-out page, on the final spread. This 9 X 9 jacketed hardcover has die-cut cardstock pages.

The shape of the moon, the shapes of the stones all around. Let's see what other shapes we can discover in nature.

A grocery store is filled with much more than food. The aisles and shelves hold plenty of fun, too. As Justin helps his mother shop, he explores the variety of 3-D shapes all around him. As Justin can show you, there are always plenty of shapes to see!

Did you know that the study of geometry will greatly help with your child's problem solving, logic and deductive reasoning skills? It has many benefits that will push your child's likelihood for academic excellence. Teach your child about the subject while he/she is still young. Start with this book today!

In this lively picture book, children discover a world of shapes all around them: rectangles are ice-cream carts and stone metates, triangles are slices of watermelon and quesadillas. Many of the featured objects are Latino in origin, and all are universal in appeal. With rich, boisterous illustrations, a fun-to-read rhyming text, and an informative glossary, this playful concept book will reinforce the shapes found in every child's day! Plus, this is the fixed format version, which will look almost identical to the print version. Additionally for devices that support audio, this ebook includes a read-along setting.

Talking math with your child is simple and even entertaining with this better approach to shapes! Written by a celebrated math educator, this innovative inquiry encourages critical thinking and sparks memorable mathematical conversations. Children and their parents answer the same question about each set of four shapes: "Which one doesn't belong?" There's no one right answer--the important thing is to have a reason why. Kids might describe the shapes as squished, smooshed, dented, or even goofy. But when they justify their thinking, they're talking math! Winner of the

Mathical Book Prize for books that inspire children to see math all around them. "This is one shape book that will both challenge readers' thinking and encourage them to think outside the box."--Kirkus Reviews, STARRED review

Frank Lloyd Wright used basic geometric shapes as the foundation for his modern architecture. Learn your basic shapes alongside this famous architect with My First Shapes with Frank Lloyd Wright Board Book from Mudpuppy.

Each chapter tab focuses on one of three basic shapes: circle, square, or triangle. - Size: 6.25 x 7"

The Book of Cute Shapes

This coloring book offers the excitement of a treasure hunt, with prizes in the form of circles, triangles, cubes, and other geometric shapes. Suitable for ages 4 to 7.

Shapes play supporting roles in the world around us, but which one will be the star of Shapeston Elementary School's play? Triangle has experience as a traffic sign, and Square moonlights as a postage stamp, Circle as a lemon slice, Rectangle as the cover of a magazine and Diamond as a kite, while Oval has played a surfboard. A fun and fresh look at basic shapes that will have you seeing them in surprising places.

Help toddlers explore the amazing world of colors and shapes Colors and shapes are some of the first things toddlers learn to understand about the world, and this book makes it fun for them to get started! Each page focuses on a single color and one or two shapes, helping little ones concentrate and learn without getting overwhelmed. My First Book of Colors and Shapes includes: 10 colors--Help toddlers learn to identify the bright and beautiful colors all around them: red, orange, yellow, green, blue, purple, pink, white, black, and brown. 10 shapes--Introduce little ones to many of the different shapes that make up the world: circles, squares, rectangles, triangles, hearts, stars, ovals, cones, diamonds, and crescents. More to learn--Start with simple shapes and colors before moving into more complicated ideas, like recognizing that a pine tree is a green triangle. Teach toddlers about colors and shapes, one page at a time.

Triangles, circles, squares. To most of us, these are just simple shapes. But in the imaginations of Lulu and Max, these shapes found in a box take on exciting new meanings. What will you see?

Which One Doesn't Belong?

A Coloring Book for Kids Ages 1-3; Baby Activity Book for Boys and Girls, for Their First Early Learning of Fun Easy Shapes

The Preschool Tracing Workbook gives toddlers the basics for learning how to trace and draw. Shapes to Trace and Color will help your child develop the fine motor skills needed for writing. This early learning workbook provides hours of fun tracing activities that will entice your child to learn while having fun. Featuring twenty-six pages full of lines (wavy, curvy, zig-zag) and shapes such as circles, triangles, squares, rectangles, and ovals are incorporated into entertaining pictures that your child will enjoy coloring once tracing is complete. A great way to get your child ready for kindergarten.

From award-winning author Anne Miranda comes a rollicking rhyming story about an unruly gang of sixteen geometric shapes who get tangled in the neighborhood jungle gym until their friend comes to their rescue and order is restored. Perfect for fans of Chicka Chicka Boom Boom! One day a little circle, just as happy as could be, got caught inside a jungle gym, and couldn't wiggle free. When the neighborhood shapes go climbing on the park jungle gym the last thing they expect is a tangle. First the circle, next the triangle and then the square. One by one soon all sixteen shapes are trapped. They push and pull and tumble and cry for help. Who will save them? One special shape can set the others free. Can you guess which one it is? This charming story makes learning the names of sixteen shapes as easy as a day in the park.

Hunt for shapes of all kinds on this journey through a bustling city, illustrated by four-time Caldecott Honoree Bryan Collier! From shimmering skyscrapers to fluttering kites to twinkling stars high in the sky, everyday scenes become extraordinary as a young girl walks through her neighborhood noticing exciting new shapes at every turn. Far more than a simple concept book, City Shapes is an explosion of life. Diana Murray's richly crafted yet playful verse encourages readers to discover shapes in the most surprising places, and Bryan Collier's dynamic collages add even more layers to each scene in this ode to city living.

Introduces readers to Ella's day exploring the park with her dad. Discusses the concept of shapes by showing Ella identify shapes in the park. Additional features to aid comprehension include vivid photographs, Extended Learning activities, a phonetic glossary, and sources for further research.

This Is a Book of Shapes

A Book about Shapes

My Book of Shapes and Colors

A clever and refreshing approach to learning about shapes, with a bit of silliness mixed in This unexpected take on shapes offers a breath of fresh air within this well-established toddler concept genre. With bright block-art visuals and a rhythmic, read-aloud text, this book begins by offering familiar shapes - a triangle, a circle, and a square - and then throws an elephant into the equation: triangle, elephant, circle. Surely an elephant doesn't belong in a book on shapes... or does it? The joy of the unexpected, including guest appearances by boats, lemons, and other random but recognizable silhouettes, in a shape-driven narrative will prompt giggles and squeals, as children build skills of labelling and classifying.

Introduces basic shapes and illustrates how they can be found in everyday things, including such items as a breakfast bowl, backpack, kite, and a lemon wedge.

Learning about shapes is very important to young children. This will help them with a variety of skills such as creativity, geometry, sorting objects, and communication improvement. Also, learning about shapes at an early age provides a foundation for learning how to read and write. The super cute images in this book were designed to promote positive feelings and a fun learning experience. You will find the following shapes in this book: circle, square, triangle, rectangle, diamond, rhombus, oval, heart, moon, star, pentagon, hexagon, trapezoid, parallelogram, cross, and arrow. The book of cute shapes is sure to provide everyone with a pleasant time. What a fun way to learn!

A fun and colorful book for kids to learn shapes! Discover 3 shapes with Cammy, Cindy, and Chelsey, the three Cute girls that will help your child with shapes. Then, discover 3 different shapes with Chaz, Cade, and Cody, the three Cute boys. With this beautiful book for boys and girls, you can sit down with your 4-year old or your 6-year old and have him or her point out the different shapes. As a great introduction to kindergarten and elementary school, they will learn to recognize the various shapes in a fun and creative way. This book shows: Triangles Diamonds Squares Circles Rectangles Ovals Vincent and Celestial Noot are the creators of the "Find the Cutes" book series, a look and find book series for boys and girls. Vincent has been an illustrator for years and has been to Art University in Belgium. Celestial has finished her degree in Family Life and Human Development and aspires to start her own preschool. Trace Shapes and Patterns Workbook

My Numbers, Colors and Shapes Toddler Coloring Book with The Learning Bugs

Shapes in Nature

Mouse Shapes

My First Shapes with Frank Lloyd Wright

Easy and Fun Shapes Toddler Coloring Book

Nature is amazing and filled with different shapes. Learn about the different shapes found in nature. Paired to the fiction title What Can I Make?.

Discover all kinds of shapes in this bright and highly designed first concept board book. Follow a curious fox and his little friend as he explores what fun objects circles, triangles, ovals and rectangles can make. An engaging, well designed way to introduce first shapes, this board book is perfect for little ones to read with their parents.

Identifying shapes is a fundamental part of a child's development. Most of the time, shapes are introduced strictly by their geometric properties. In this illustrated, conceptual board book, though, brightly colored shapes are associated with forms found in nature, creating connections between mathematical concepts and the world around us. Young readers will enjoy pointing out the shapes in this book—and all around!

Toddlers will love tracing the shapes with their fingers--and a fun find-it game on each page.

Fun Children's Activity Coloring Books for Toddlers and Kids Ages 2, 3, 4 & 5 for Kindergarten & Preschool Prep Success
